How Director Procured Score
of "Parsifal."

BERLIN, Dec. 2.—German newspapers, in printing accounts of the suit brought in New York by Frau Cosima Wagner to prevent Herr Conrad from producing "Parsifal" in the Metropolitan opera house there, raise an inquiry as to how Herr Conrad secured a copy of the orchestral score of the opera, since a strict account is kept of every sale and right of reproduction granted. The papers today reprint from the Deutsche Wochenzeitung in Den Niederland, a weekly newspaper published in Holland, the following story, which is offered as the origin of Herr Conrad's copy:

"Several months before former Director van der Linden, of the Amsterdam opera, started for America, he entertained the idea of having a troupe sing 'Parsifal' at a concert and opened negotiations with Amsterdam music dealers in order to secure the score. The dealers secured the score with the right for concert performances from Von Schott & Sons, of Mayence for 1,000 marks and a percentage of the profits. Director van der Linden took the score and had it copied, but the concert was postponed. The dealers then demanded the return of the score, but Herr van der Linden put them off with promises until the date of his departure for America. "Accidentally a clerk of one of the dealers learned that Herr van der Linden was about to sail for America. The dealers went directly to his house and found the former director had already gone. They were in despair, as they had given 50,000 marks as a guarantee for the return of the score. The matter was turned over to an attorney, who telephoned to a lawyer in Rotterdam. The attorney obtained the score from Herr van der Linden under threat of arrest."

GRAND RAPIDS
WILL PLEAD GUILTY

Several More Arrests Are Expected in Connection With the Waterworks Scandal.

GRAND RAPIDS, Mich., Dec. 2.—Attorney John McDonald's announcement that he expected five of his clients to plead guilty in the superior court in the principal development in the water plant scandal today. The five men appeared before the police magistrate and waived examination. It is generally understood that those who plead guilty of accepting bribes will be punished by fines and no imprisonment, and that they will be used as witnesses by the prosecution in the cases of city officials who insist upon having trials. The five men who waived examination today are: Ex-Ald. John Donovan, Clarke E. Slocum, John McLachlan, Ryner N. Stonerhouse and Corey P. Bissett, a former member of the board of works. Ex-Ald. Losier, it is said, will waive examination in the lower court. Ex-City Attorney Lant Salsbury was confined to his bed at his home all day today, suffering from nervous prostration, and in consequence the examination in the case of Ald. Ellen, charged with accepting a bribe of \$350 in the water deal proposal, was postponed in police court until tomorrow. It was reported this evening that if Salsbury does not take the stand tomorrow warrants will be issued for the arrest of some of those implicated in the conspiracy part of the deal. It is expected that other arrests will be made, one or two at a time.

Mayor Hugo, of Duluth, Comes to Consult the Adjutant General.

DULUTH, Minn., Dec. 2.—Mayor T. W. Hugo and Guy A. Eaton left today for St. Paul to have a conference with Adj. Gen. Libby relative to the formation of a division of the naval reserves, which is now in progress in this city. An effort will be made to induce the adjutant general to visit this city and review the organization as soon as its ranks are filled. The formation of a division of the naval reserves in this city is in accordance with an act of the last congress, which set aside a sum of money to be used in outfitting such companies and providing for the setting apart of the necessary training ships for their use. One of the provisions was that the companies must be fully equipped before Jan. 1, in order to share in the appropriation, and for that reason every effort is being used in this city to fill up the ranks by that time.

DULUTH, Minn., Dec. 2.—Through the medium of independent meat markets in Duluth and Superior the meat trust which was regarded as an exceptionally strong organization for the maintenance of high prices has been practically broken up, and for the first time in many years butchers' products are selling at a price which has been practical. The committee on the part of the independent butchers which has made it possible to bring about this change in the market is a combination of independent concerns who bought their supplies direct from the producers, thus saving about a flat reduction of at least 25 per cent in the price of meat.

BIDS FOR TIMBER
WILL BE OPENED

But Injunction May Suspend All Lumber Business Under the Morris Law.

Globe Special Washington Service, 1417 G Street.

WASHINGTON, D. C., Dec. 2.—Although the interior department has decided to go on and open bids for timber in the Chippewa reservation, as advertised, on Dec. 5, the award will be withheld until after the 18th on account of the bill for an injunction which will be argued on that date. Legal officers have advised the department that the mere opening of bids does not bind the government to sales of timber in the reservation in contravention of proceedings based on injunction of procedure. If an injunction issues all lumber business under the Morris act will be suspended. Otherwise the sales will be permitted.

ABOUT FEAR.

Often Comes From Lack of Right Food.

Napoleon said that the best fed soldiers were his best soldiers, for fear and nervousness come quickly when the stomach is not nourished. Nervous fear is a sure sign that the body is not supplied with the right food. A Connecticut lady says: "For many years I had been a sufferer from indigestion and heart trouble and in almost constant fear of sudden death. The most acute suffering possible. Dieting brought on weakness, emaciation and nervous exhaustion. I was a complete wreck physically and almost a wreck mentally."

"I tried many foods, but could not avoid the terrible nausea followed by vomiting that came after eating until I tried Grape-Nuts. This food agreed with my palate and stomach from the start. This was about a year ago. Steadily and surely a change from sickness to health came until now I have no symptoms of dyspepsia and can walk ten miles a day without being greatly fatigued. I have not taken a drop of medicine since I began the use of Grape-Nuts and people say I look many years younger than I really am."

"My poor old sick body has been made over and I feel as though my head has been, too. Life is worth living now, and I expect to enjoy it for many years to come if I can keep away from bad foods and have Grape-Nuts. Name given by Postum Co., Battle Creek, Mich."

There's a reason. Look in the package for a copy of the famous little book, "The Road to Wellville."

RAILROADS BOW TO
FACTS OF DONNELL

Independent Immigrant Man Wins Big Victory Single Handed.

Peter McDonnell, the independent steamship agent of New York, has been acknowledged victor in a fight waged against him for the past ten years by the Western and Eastern railroad pools. To drive him out of the business of naming the railroads over which immigrants should travel from New York westward, the Eastern and Western lines formed pools and agreed to boycott McDonnell. He refused to be intimidated and induced some of the steamship lines to do so. The railroads also tried to outbid McDonnell in paying commissions to European immigrant agents. In some cases the sum paid as a commission to the agent was as much as the railroad company received for hauling the immigrant from New York to the destination.

Now the railroads, acknowledging they cannot drive him out of the immigrant business, propose to take him into partnership with them. The heads of the passenger departments of all the Western railroads in the immigrant pool left Chicago Tuesday for New York, to tender McDonnell the position of agent of the pool in New York. Ten years ago he wanted that job, but the railroads laughed at him. Now they will beg him to take the position.

McDonnell is a millionaire several times over. Nominally he is the agent in charge of the lower Broadway ticket office of the New York, Ontario & Western, a position that pays him \$20 a week, but as a matter of fact he is one of the three largest stockholders of that railroad and entitled to a place on the board of directors, if he wanted it.

Western passenger officials fear that the salary McDonnell will ask to become their agent for immigrant business will be much more than they can afford to pay. He is the only obstacle to the perfection of the pool on immigrant traffic.

CANADIAN TOURISTS
STOP OVER IN ST. PAUL

Large Party of East-Bound Travelers Is Carried by the Great Northern.

The new Winnipeg express of the Great Northern yesterday morning brought a large crowd of excursionists bound for Eastern Canada, points as far west as the Twin Cities. The regular equipment was filled, and two coaches and an extra sleeper were necessary to accommodate the excursionists.

The Great Northern's new fast train is apparently filling a vacancy in the Winnipeg service, and many travelers have taken the St. Paul-Chicago route this year for Eastern points. The train usually goes via the North Bay route. The Eastern business to Winnipeg from Detroit, Buffalo and other points is also considerable, and the trip can now be made faster and with more comfort via St. Paul than via Canadian routes.

LEDYARD MAY LEAVE
THE MICHIGAN CENTRAL

Reports Say That He Has Resigned as President.

DETROIT, Mich., Dec. 2.—It is announced that John Henry B. Ledyard will retire as president of the Michigan Central and the duties he has been performing will be assumed by General Manager Richard H. L'Hommedieu. The announcement of this change is not entirely unexpected. There have been reports for some time that Ledyard was selected to hold the title of president of the Michigan Central when Mr. Ledyard steps down.

President W. H. Newman, of the New York Central, will become the general head of the road as is the case of the Lake Shore now, with Mr. L'Hommedieu general manager.

"Please make an unqualified denial of that story," said President Ledyard when asked as to the truth of the report that he was resigning. "The story has been continued, 'is made out of whole cloth. I have no such intention.'"

MONTREAL, Dec. 2.—The Canadian Pacific management came to an agreement today with a union of 2,000 employees engaged in the greater part of two months. Secretary M. L. Hutchins, of the St. Paul Relief society, has sent out several hundred circular letters asking for contributions today with the demands made upon the society during the winter months. RAILROAD NOTES.

The Transcontinental Passenger association has given notice to the Western Union telegraph company that it is a movement on the part of newspaper proprietors for securing special rates for the transportation of newsprint. The movement so far is confined to the southern part of Illinois, and the demand is that the Western Union telegraph company be furnished with a gross amount of transportation to be disposed of as they please. The proposition is regarded as novel. Further developments may be expected during the next few weeks.

For the latest and most complete statement of the rapid development of the Illinois Central railroad and its train the public is indebted to an anonymous circular now being circulated, evidently by semi-official authority. Fifteen years ago they were \$19,000,000, and for the past year they have reached to as much as \$20,000,000.

The Twin City Advertising association, in which the railroads of the Twin Cities hold membership, has elected the following officers: President, S. F. Dixon, general passenger agent Northern Pacific; vice president, W. B. Dixon, Northwestern passenger agent Milwaukee; secretary, C. E. Wilkinson.

By an agreement on both sides the dispute between the Pullman and the Western Union Telegraph company will be taken to the United States circuit court at St. Paul. It was agreed there should be no more pole chopping until the case was finally decided.
