ROOSEVELT FILES A FEW REMARKS

President in His Message Is Not so Fierce Against the Trusts as Formerly—He Speaks of Frauds of Various Sorts and Discusses the Panama Canal, But Is Silent on the Tariff.

WASHINGTON, D. C., Dec. 7.—The senate today closed the extraordinary session and entered on the duties of the regular session, but the transition was so natural as to be scarcely noticeable.

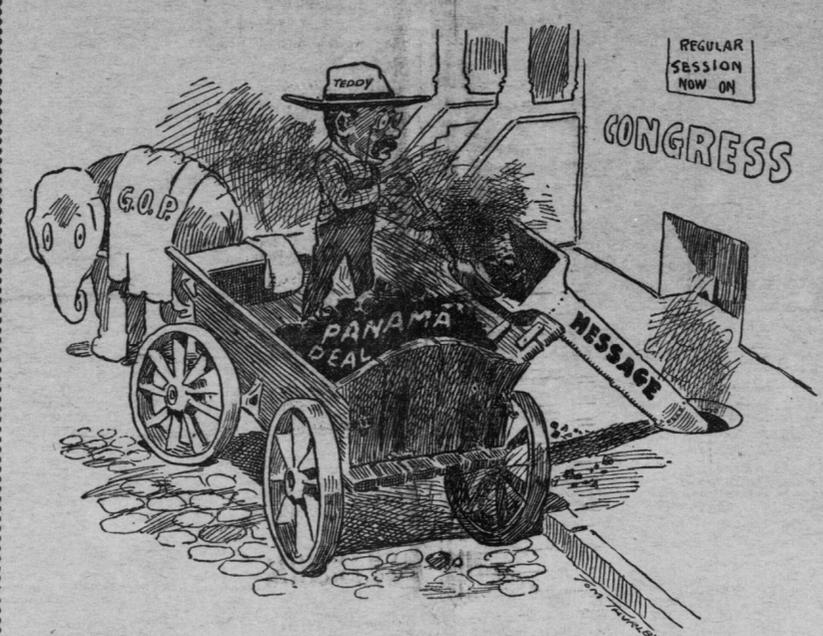

Mr. Gorman objected to the present consideration of the resolution and it went to the calendar. The house convened in regular session and listened to the reading of the president's message.

The major portion of the half-hour sitting of the extra session was devoted to executive business. Senator Platt (Conn.) presided during the favorable consideration of a resolution of thanks to Senator Frye.

More than an hour and a half were consumed in the reading of the president's message. A considerable amount of routine matters necessary to facilitate the work of committees was transacted.

landing small schooner expeditions at Chiriqui from northern points. The Panama authorities are adding these efforts. They have sent out several parties on both sides of the isthmus to seek information and watch possible movements on the part of Colombia.

Following instructions received Dec. 4 from the navy department at Washington, United States gunboats on both sides of the isthmus have started or are starting on reconnoitering expeditions along the coast, principally in the direction of Colombia, for the purpose of ascertaining the condition of the straits and roads between Panama and Colombia frontiers, the facilities of the country for sustaining expeditions marching on Panama and to generally determine the United States' best course of action in case of a Colombian invasion of the isthmus, and also to learn the attitude of the various Indian tribes inhabiting the south coast.

WASHINGTON, D. C., Dec. 7.—The dispatch of the cruiser Atlanta to the Gulf of Darien is of great importance and interest in connection with the rumor from Colon of the departure of Colombian soldiers for the isthmus of Panama. This is about 130 miles east of Colon and the cruise in those waters will enable the commander of the Atlanta to keep in close touch with developments in the Colombian situation originating in and about the vicinity of Cartagena, from which place it is rumored the soldiers are to march on the isthmus.

The cruiser Atlanta has gone to San Blas for this purpose and probably will continue to the Gulf of Darien. Another vessel will be sent to San Miguel, on the Pacific, and a third to David, also on the Pacific, but towards Costa Rica, to look over the local conditions at Chiriqui, make a show of force, if it is thought necessary, and study the possibility of Colombia's

It is understood that Mr. Murphy, of Tammany Hall, would like Towne to run, but the latter is doubtful if the compensation would warrant his leaving his business.
