Your choice of any Calendar in stock, Monday only, at a discount from publishers' prices **40 Per Cent** off.

Christmas Cards

Our stock is large and choice and the assortment still unbroken.

CITY NEWS

CHRISTMAS TRADE IS RECORD BREAKER

Retail Merchants Say Holiday Business This Year Is Heaviest Ever Known.

Christmas shoppers will leave \$2,500,000 with St. Paul merchants this year. The Christmas business this year is said by the merchants to be the heaviest in the history of the city. It is big in all lines.

The dollars not alone come from St. Paul buyers, but from all over the state. The union depot yesterday was filled with transients, and every train out carried a crowd of bundle-laden passengers. Nearby localities were represented, but the Dakotas and Wisconsin were by no means behind.

Yesterday probably was the heaviest in respect to buyers since the Christmas trade began. In all of the big stores the crush was so great that locomotion was impossible and force had to be used to push the crowds along the aisles. In one store it reached the point where the manager agreed that prospective customers were cleared to wait until the aisles were cleared.

"We are ahead of last year," said Frank Schlick, of the firm of Field & Schlick.

There has been a heavy out-of-town trade. Either the people have more money, or there is a big increase in population; in any event they are buying.

Jacob Dittenhofer, of the Golden Rule, said last night that there was a heavy increase in the company's receipts over last year and it was not alone confined to the Christmas period.

Gain Has Been General.

"The gain has extended over the entire year," said Mr. Dittenhofer. "We were taxed to handle the crowds today. They were the largest I ever saw." "Our Seventh street entrance was unequal to the task of handling the crowds today," said J. T. Kennedy, of the Emporium department store last night. "We had to station men at our Seventh street entrance and ask the crowds to go around to our Minnesota street entrance. We could have used more clerks. For the past ten years capacity has been overtaxed. The business this year is the heaviest I have ever seen it."

"The biggest in the history of the Mannheimer store," said Benjamin Goodkind. "The Christmas shopping trade never was better. Our out-of-town trade this year is unusually heavy." "I could not ask for better business than has come our way so far," said Joseph Simon, of the Palace Clothing company. "Our sales were unprecedented today. We were overtaxed and we thought we had made ample preparations for a rush. I think this is the best Christmas in the history of our store."

It's a Record-Breaker.

Schuneman & Evans say this Christmas will be a record-breaker, as far as their store is concerned.

"I am more than satisfied," said Charles Schuneman last night. "Our business has been heavy all the year. St. Paul is certainly prosperous this time."

"Will E. Mathes & Co. say their trade has some unusual features this year. It is earlier." "The last week of the holidays is generally the best for us, but buyers are ahead of that period this time," said W. E. Mathes last night. "We are doing a nice business. We certainly have no complaint to make."

Anticipating the heaviest run this week, many of the merchants are preparing to increase their clerical force. The unusual business of the past week has shown that such a precaution is necessary, and every available clerk is being employed. Not only is this unusual rush of business being enjoyed by the big stores, but the smaller business houses also speak of prosperity.

TAXES MUST BE PAID ON SWITCHING CHARGES

State Railroad Commission Notified Lines of Its New Ruling.

The railroad and warehouse commission has notified the St. Paul-Chicago lines that they will be required to return for 1903 taxes the \$2 paid by Chicago on each car of live stock shipped to Chicago in proportion to the mileage within Minnesota.

This has been done in accordance with a decision of Assistant Attorney General J. D. Burrows, which holds that the switching charge is a part of the gross earnings of the railroads. The through rate for each car is \$42, which includes the \$2 paid by the railroad companies to the terminal companies in Chicago for switching. Some of the railroads have reported a whole amount, while others have deducted the \$2, claiming that it is not a part of their earnings.

SUES LAND COMPANY FOR COMMISSIONS

William Burrows Wants Court to Give Him Large Verdict.

Suit was yesterday begun in the district court by William Burrows against the Boynton-Hackney Land company to recover \$11,332.47 as fees. Burrows reserved the right to bring an additional suit for \$10,266.42.

Burrows alleged he was under contract to find a purchaser for 21,215 acres of land in North Dakota, and did so. His commission was to be what he could obtain over \$150 an acre, and he obtained \$4.72 per acre. The sum of \$88,874.72 was realized.

The money was paid installments by the purchaser and Burrows now demands his commission.

John J. Kelly Dead—Word was received last night that the patient, John Berg, the man who jumped from a window of the Astoria hotel Friday night in a nervous fit, was taken to the city hospital yesterday and is being treated for nervous prostration.

Is Victim of Nervous Prostration—John Berg, the man who jumped from a window of the Astoria hotel Friday night in a nervous fit, was taken to the city hospital yesterday and is being treated for nervous prostration.

We call attention to notice of State Savings bank, under "Announcements."
