COUNTY BOARD NOTES TO FLOAT ANOTHER ISSUE OF JAIL BONDS

Decides to Issue Bonds in Sum of \$13,000 to Pay Balance

Due Contractor—Jail Will Cost Ramsey County About \$275,000, Which Is More Than Double Amount Called for by Original Estimates—Commissioner Seng Stays Away and Is Criticized.

The board of county commissioners yesterday voted to float another issue of jail bonds for the purpose of paying up the outstanding indebtedness against the new county jail.

It had been expected that bonds would be issued for \$15,000, but an item of \$1,289, claimed by E. J. Donahue, the jail architect, was disapproved by County Attorney Kane, and the commissioners decided to issue bonds for \$13,000, which will be sufficient to pay the balance due J. H. Donahue, the contractor.

The new bonds will bear 4 per cent interest, and will be known as short-term bonds, one-half of the amount becoming due in one year from the date of issue, and the remaining half in two years.

According to the statement rendered by the county auditor the new jail will cost Ramsey county about \$275,000, more than double the amount contained in the original estimates.

The vote upon the resolution ordering the county auditor to advertise for bonds did not come up until the afternoon session of the board, and on account of the absence from the meeting of Commissioner Robert H. Seng it came near being postponed.

Accuse Seng of Dodging. Several members of the board charged Mr. Seng openly with absenting himself from the meeting purposely to avoid voting for the bond issue, against which there is a strong public sentiment. Mr. Seng declared at the morning session that he would never vote to issue another cent in bonds, and his colleagues who have been on record as either opposed or favorable to the bond issue.

Commissioner Wright, after considerable time had been lost in waiting for Mr. Seng, moved the passage of the resolution, but there was objection from Mayor Smith, Commissioner Nash and Commissioner Powers.

"I think a man should have the courage to face the issue," said Mayor Smith, "and if we can do so I would favor postponing action on this matter until Mr. Seng is present at the meeting."

Commissioner Nash declared that Mr. Seng was afraid to show himself at the meeting because he knew that the bond issue would come up. It was also asserted that Mr. Seng remained away so that he would have an opportunity to bring his own constituents by saying that he was absent from the meeting.

Vote to Issue the Bonds. Commissioner Powers added a few remarks to the discussion which were not very complimentary to Commissioner Seng, and a motion to lay the matter over until a future meeting came near being carried. After some discussion, however, it was decided that the bonds should be issued as soon as possible, and when Mr. Wright moved the passage of the resolution all of the

Commissioners voted in favor of it. Mr. Seng was not present at the meeting.

LECTURES ON ART HOLD AN ELECTION

Mrs. Burbank Gives the Second of Her Series.

Mrs. Burbank gave the second lecture in her course on Italian art yesterday afternoon at the Central high school in the assembly hall. In spite of the fact that the lecture was attended by a large and enthusiastic class. The subject of the afternoon was early church decoration, especially mosaics, this topic following historically that of the first lecture, which was on the early Christian basilica.

In her talk of yesterday Mrs. Burbank brought out the intimate connection between the forms and symbols of the pagan and the Christian religion, showing how the latter is developed from the former. In her description of the entire Roman world should become Christian, succeeded not in Christianizing paganism, but in paganizing Christianity, so far, at least, as artistic expression is concerned. All the symbolism which appears in historic art as identified with the early Christian church was derived and adapted from pagan religions. Mosaic was the method which superseded all others in church decoration, because of its simplicity, durability and solidity, and the most suitable form of mural decoration.

A series of very fine stereopticon illustrations accompanied the lecture, and demonstrated the relation of church architecture to the mural decoration, as well as the historical sequence and the artistic principles brought out by the lecturer.

Mrs. Burbank's lectures are not only of unique value as comprising a complete and concise history of the evolution of Italian art, but they are of literary brilliancy which would render them delightful regardless of the element of instruction.

The next lecture will be given Monday, Feb. 15, the subject being the Byzantine period.

SO DECLARE SPEAKERS AT THE MINISTERS' WEEKLY MEETING AT THE BETHEL.

"I don't want to make a sensational statement, but I will say, and I won't qualify it, that in your congregations not more than half the people believe in prayer."

Rev. John Copeland, pastor of the East Presbyterian church, was not contradicted when he declared this opinion yesterday afternoon at the rooms of the Bethel association, held at the residence of members of the St. Paul Ministers' association. Mr. Copeland said he knew that people didn't believe in prayer when they assumed irreverent attitudes during invocations. Only last Sunday he had been obliged to announce that no child would be allowed thereafter in a Sunday school class unless he would bow his head during prayers.

Prayer Not Mere Petition. Mr. Copeland was commenting upon a paper entitled "The Problem of Prayer," which was read by the Rev. J. B. Morgan, of the First Baptist church, who read the paper, thought that people didn't believe in prayer didn't have the proper conception of prayer. "Prayer," he said, "is not a mere petition, a mere asking for something, but it is the spiritual communication between man and God. It is a prayer of the heart, by the will of God, and that Christ's name is a blanket privilege covering everything that those people happen to be asking for. It is a prayer of the heart, by the will of God, and that Christ's name is a blanket privilege covering everything that those people happen to be asking for. It is a prayer of the heart, by the will of God, and that Christ's name is a blanket privilege covering everything that those people happen to be asking for."

Commissioner Nash, in voting for the bonds, said that he had promised his constituents that he would never again vote for additional jail bonds, and he had often declared in the board meetings that he would not do so, but after considering the position in which the county had been placed on account of the oversight of County Auditor Krahmer in failing to provide for a sufficient amount when the bonds were issued, he had changed his mind, and his vote was recorded in favor of the bonds.

When the bond issue had been disposed of the commissioners took up the matter of telephones in the county offices. Some months ago the board ordered the Northwestern telephones out of the county offices, but the company paid no attention to the order and the 'phones have been in service right along, although the county has paid nothing for their use since being ordered for their removal became effective.

Refused to Reconsider. Yesterday a representative of the company appeared before the board and endeavored to induce the commissioners to reconsider the vote by which the 'phones had been ordered out, but Commissioner Powers objected so strenuously to such a move that the matter was finally postponed without any action. Mr. Powers declared that he would not vote to reconsider a vote to reconsider would place the county in a position where it would have to pay for the telephone service during all the months that the 'phones have been in use since being ordered out, and he did not believe the county should pay a bill.

The telephone company threatened to disconnect the 'phones at once unless the board took some action, and when this threat was made some of the county officials whose offices are supplied with Northwestern 'phones endeavored to have the board order the service continued.

The county attorney, county treasurer and the county auditor, as well as the sheriff and probate judge, declared that they could not get along without the 'phones, and asked that they be permitted to keep them. Mr. Powers said the 'phones had been ordered out, and it was the duty of the company to remove them from the building, and the board finally adjourned without taking any action on the matter, which leaves the order for removal still effective.

He Hinds the Document. He opened the envelope, and in the midst of a number of divorce papers he withdrew the envelope which he was looking for. He found nothing whatever to do with the papers in the envelope in which it had been found. The clairvoyant modestly handed the paper to Attorney Cilley and offered no explanation of the apparent supernatural power.

"Mental telepathy," he suggested, but it was argued that it could not be mental telepathy, because no other person knew where the paper was located.

"It was one of the strangest things I ever witnessed," said Mr. Robinson, chief clerk of the committee. "I cannot see how there could be any fake about it," said Deputy Bazille. All agreed that the clairvoyant had performed what they considered a remarkable task, and none attempted to explain how it was done.

In the file room, where the missing papers were found, are almost 100,000 papers, each in an envelope, and the envelope in which the missing paper had been placed was one which had no number bearing on the case than had 90,000 other envelopes.

The greatest care is taken in the office to prevent the misplacing of files, and the only explanation that can be offered for the disappearance of the missing file would be some attorney who had referred to it.

Had it not been for the success of the clairvoyant it is probable that the missing file would have been held for lost, as the envelope in which it was found contained papers in a case already decided, and it might have remained untouched for years.

When asked why he secured the clairvoyant, Attorney Cilley explained that the man had once before, some time ago, told him that his child would live, after the doctors had given up all hope of its recovery. He had also demonstrated his power in other some faith in his ability to perform such strange feats.

FRANCIS BROTTIAN MAKES DESPERATE ATTEMPT TO COMMIT SUICIDE AT COUNTY JAIL.

Francis Brotian, a prisoner at the county jail, attempted to commit suicide yesterday afternoon by twisting a towel around his neck.

Brotian is the man who was taken from a train at the union depot about a week ago suspected of being insane. When taken from the train he attempted to kill Officer Bouse, stationed at the depot with a hatchet. He was removed to the county jail to await the action of the probate court.

Yesterday afternoon about 3 o'clock prisoners confined in the same corridor with Brotian discovered him lying unconscious on the floor of his cell with a towel twisted about his neck. They notified the jailers, who rushed to Brotian's cell.

They found Brotian on his back on the floor, with the twisted towel about his neck. His face was black and the veins in his neck congested, while his hands were fastened with a death grip on the towel. It was only by using main force that the jailers were able to loosen his hold.

A liberal application of water and other remedies soon brought Brotian to his senses, and late last night he was as well as ever.

It is thought that the fright which he received at that time has unbalanced his mind. He will be taken to the probate court today for examination and examined as to his sanity.

FARMERS MEET TO PROTECT COMBINE Plan to Bring Whole State Within Their Organization and Control Their Products.

Farmers from all parts of Minnesota arrived in St. Paul last night to attend the meeting of the Minnesota Farmers' exchange, which will meet in the senate chamber at the capitol this forenoon. The morning's trains are expected to bring the many more delegates, and when the first session of the meeting is called to order this forenoon it is expected that 200 farmers will be present.

The Minnesota Farmers' exchange was first organized in St. Paul last October, but at the present meeting it is expected to extend the organization to every county in the state. Sixteen counties are now represented in the organization.

Delegates from thirteen other states, having similar organizations, will be in St. Paul to assist in enlarging the Minnesota branch and placing it upon a more substantial basis.

If the objects of the organization are carried out the business of the country will undergo a social revolution. So broad and so radical are some of the charges which the farmers have been made to bring against the trusts that trust more autocratic and powerful than any of the industrial trusts in existence.

Build Their Own Elevators. One of the plans of the organization is to have the farmers build their own elevators in every locality, thus doing away with all elevator charges and profits which now go to the middlemen.

"Direct from the farmer to
