In the light bantam class a great scarcity exists, and unless some good man develops in the next six months and clearly establishes his claim this class will probably be placed on the boards without a champion.

Frankie Neil is the bantam champion, with but three dangerous competitors. Tough little Tommy Feltz, Johnny Regan and Pinky Evans are the only high class men in America capable of doing 116 pounds in condition to box.

In the latter bout, however, an agreement had previously been made that if both men were on their feet at the end of the twentieth round a draw should be the decision. This alone saved Regan. But Tommy Feltz, when in proper shape, and box-ing under straight rules, can give any 116-pound man living an argument, and, in my opinion, can beat them all. New Feather Class.

The old-timers, Matty Matthews and Rube Ferns, also lass as welterweights, but are out of the running. Walcott is champion, with Cole and Duffy close seconds. Kelly and Schreck came next, and Jackson close behind. The others are trial

Capt. Cook, of the Victoria team, has named Monday night for the clash, and the battle will be fought out on the Laurel rink, Dale street and Laurel avenue.

The all-star team that will line up against the Victorias will include the fastest hockey players of the city, In naming Monday as the date for the game Capt. Cook shrewdly blocked the all-stars' attempt to secure satisfactory practice, but as the majority of the players have lined up against the champions during the season, Capt. GEAR AND NICHOLS OFFERED TO BUY KANSAS CITY BALL TEAM

Tebeau Can Turn Over His Cowboy Holdings for Real Money and Avoid Syndicate Baseball-Fire Ruins Game at Baltimore-List of Jumpers to Outlaw League.

MILWAUKEE, Wis., Feb. 13.-It developed during the bowling tournament at Cleveland, Ohio, that Charlie Nichols, who managed the Kansas City Western league team last season, and Dale Gear, who managed the Kansas City Association club, made an inef-fectual effort recently to secure control of the association club at that place from George Tebeau.

Charlie Nichols, who will manage St. Louis in the National league next season, said regarding the affair: "Gear and I could make a success of the team in Kansas City and the people there would welcome the change, but it will never be a money-maker while Tebeau has the club and at the same time owns the Louisville club in the same association. We were willing to purchase the club at a reasonable figure, but from what we could learn there was no chance of getting it. I am still ready to go into the deal and buy the club any time Tebeau wants to sell out, but it will have to be deferred a year now, as will have to be deferred a year now, as I must keep my agreement with the St. Louis people for next season. However, if I can get hold of the Kansas City club with Gear I will be ready to leave St. Louis a year hence and handle the Blues. This can be done with the consent of Mr. Robinson, owner of the St. Louis club.

"The effort of one man to control so many franchises will not help the game. I think Tebeau knows there will be a merger of the major leagues before a great while and for that reason he is hanging on so as to get into the vari-ous leagues when the real shift comes."

Fire Kills Game for Baltimore.

BALTIMORE, Md., Feb. 13.—Although the Baltimore ball park is not reported as destroyed by the great fire, there can be but little chance for the national game this season, and one of the best cities on the Eastern league circuit, as well as one of the most famous centers of the diamond sport, is off the map for at least one year. Baltimore had become pennant-wearied, tired of glory. The at-tendance fell away to almost nothing, the team sank in power, and its stars were merged with Brooklyn. The city passed to the American league and then to the Eastern. Its baseball grandeur had departed.
