

RUSSIAN SHIPS ARE DISABLED

(Continued From First Page.)

Chemulpo and thence on the Japanese transport to Japan. This measure on the part of Mr. Hayashi saves Yi Yonk Ik's life from thousands of Koreans who suffered from his oppression. It is improbable that he will ever return to Korea. By order of the emperor he was immediately deprived of all official positions and titles, excepting that of major general.

Yi Yonk Ik's supreme rule in Korean affairs is finished, as absence from the court effects a complete political eclipse. His history is remarkable. He was born in a mining district, away from the capital, and could neither read nor write. He was shrewd, crafty and unprincipled in serving his imperial master. He rose through successive stages of official life to the control of the empire's finance, army and foreign affairs, and even to the control of the emperor himself through his hold on the imperial government funds.

His influence heretofore had been Russophile, but the departure of the Russian minister and the presence of the Japanese troops caused him to change his policy. The Japanese, knowing him to be untrustworthy, and having used him for the completion of all their political arrangements, have now sent him where he cannot cause further trouble.

CABINET IS ALL FOR JAPAN

Only supporters of Japan now compose the Korean cabinet. All the Korean officials who are presumed to be Russophile have received an intimation that their presence is undesirable, and have therefore left the capital for seclusion in country districts. The complexion of the government has been completely changed. There are new officials in all departments and the absolute supremacy of Japanese influence is effected.

CHINESE REPORT JAPANESE VICTORY

Special Cable to The Globe. (Copyright, 1904, New York Herald.)

YIN KOW, Monday, via Tien-tsin.—Twenty-five thousand Russians are on the Manchurian bank of the Yalu and 4,000 mounted infantry troops and artillery hold the mountain passes thirty-five miles south of Wi-ju.

China is circulating a rumor that the Japanese repulsed the Russians at Youm Cheng in Korea, east of Yongampo. A few thousand Russians remain at New-chwang.

BOUND TO BLOCK PORT ARTHUR

Special to The Globe. (Copyright, 1904, New York Herald.)

CHIFU, Monday.—Three Japanese cruisers were sighted off Chifu on Saturday, proceeding south.

The survivors of the sunken Japanese transports are returning to Japan via Shanghai. In a further interview they declare the Japanese will try again by every means to block Port Arthur.

It is reported that the cavalry repulsed at Ping-yang belong to the Tenth East Siberian regiment. From Russian sources a denial is given to the report that the Russians acknowledge that there was an engagement between the Japanese and a party of Russian scouts, which retired in consequence of being outnumbered.

The British steamer Eldorado, which arrived here today, reports that she met off Eddy island a Japanese cruiser escorting a transport going north. The cruiser signaled the steamer, but on learning that she carried no contraband of war allowed her to proceed.

RUSSIAN SCOUTS APPEAR

Special Cable to The Globe. (Copyright, 1904, New York Herald.)

SEOUL, Monday.—Parties of Russian cavalry scouts were seen today in increased numbers between Auju and Pong-yang.

COSSACKS ADVANCING

LONDON, March 1.—According to a report from St. Petersburg, a body of Cossacks from the South Ussuri province, with quick-firing guns, is advancing along the east coast of Korea to prevent the landing of the main Japanese army, and the comment is made that possibly the reported Japanese landing at Posslet bay may have been made with the intention of attacking this force.

A dispatch from Shanghai to the Chronicle says the Russians are transferring the guns from their disabled ships at Port Arthur to the forts there.

A dispatch from Chifu to the Standard says a Japanese cruiser and torpedo boat entered that harbor without lights at 1 o'clock on the morning of the 29th, and it is believed they embarked the Japanese who took refuge there after the attempt to bottle up Port Arthur.

A correspondent of the Times at Wei-hai-wei, cabling under date of Feb. 29, says:

"A Japanese fleet was seen off the Shan Tung coast this morning."

CIVILIANS ORDERED FROM HARBIN

Special Cable to The Globe. NEW-CHWANG, Feb. 29.—Still more Russian troops are moving into this town. Engineers are laying mines at the entrance of the Liáu river. All civilians have been ordered to leave Harbin. Rain is falling and a heavy thaw has set in.

WRITE APPLICATIONS IN THEIR BLOOD

Special Cable to The Globe. TOKYO, Feb. 29.—Vice Admiral Togo reports that 2,000 officers and men instantly responded when he called for volunteers to man the transports that were sunk in the attempt to block Port Arthur channel. Some of the officers, who are nobles, followed the Samurai custom, and wrote in their blood their applications to face the greatest danger. Owing to the position of two of the five sunken steamers the attempt to block the channel was partially successful.

RUSSIANS INDULGE IN SNEERS

Special Cable to The Globe. MOSCOW, Feb. 29.—Port Arthur rivets the anxious attention of the Russians. Gen. Stoessel's order to the troops has aroused great enthusiasm. The Japanese attempt to block the entrance of the harbor evoked in the press sarcastic comments on Japanese cunning, and the miscarriage of the enemy's plan was pointed out as signal testimony to the preparedness of Port Arthur. The opening of hostilities on land is awaited impatiently.

JUSTIFIES ENGLAND'S NAVAL INCREASE

House of Commons Votes Down a Disarmament Proposition.

LONDON, Feb. 29.—In introducing the naval estimates in the house of commons today, Ernest G. Pretzman, secretary to the admiralty, justified the increase in the estimates on the ground that the two-powers standard must be maintained. Russia and France together had built or were building sixty-four first-class battleships and France and Germany combined were building or had built sixty-one battleships, while the British total was sixty-three battleships. So Great Britain was close up to the two-powers standard.

In considering the cruiser programme Secretary Pretzman said the government was not governed by this standard, but by the immense preponderance of British sea-borne commerce. While regretting the increased expenditures the admiralty regarded it as being an insurance.

After recounting the details of the expenditures, the construction programme, etc., the secretary concluded by saying that despite the heavy expenditures, the naval policy of Great Britain was the most judicious. Recent events in the far East showed the necessity for preparedness to strike the first blow and so obtain incalculable advantage.

The debate was initiated by J. H. Roberts (Liberal), who moved a resolution, calling on the government, in the interests of international peace, to communicate with the other great powers and ascertain whether they are willing to diminish their shipbuilding programme and adjust the balance of their relative naval strength on a permanent basis.

Mr. Arnold-Forster, secretary of war, said he was of the opinion that his majesty's government had done enough in the way of proposal to the other governments for a reduction of armaments. The moment Great Britain's maritime supremacy was gone she might be invaded any day. Mr. Roberts' resolution was defeated by 174 to 122 votes.

SILENCE INDICATES MOMENTOUS EVENTS

Russians Impressed by Japanese Order to Capture Port Arthur.

ST. PETERSBURG, Feb. 29.—Direct confirmation of the report from Hakodate that Vladivostok is blockaded by the Japanese vessels cannot be obtained here, but it is considered not improbable. During the Japanese landing operations in Korea the Russian warships to the north were a constant menace and blockading them would be the most effective means of securing non-interference. Furthermore, for more than one week no word has been allowed to come from Vladivostok, and this seems strong presumptive evidence that important events are transpiring.

The report that the Japanese fleet has received orders to attack and capture Port Arthur on March 1, at all costs, coupled with the comparison of Port Arthur and Sevastopol made by the Russian press, has created a profound impression and has added to the belief that the Japanese possibly intend to commence land and sea operations against Port Arthur sooner than was anticipated. The Japanese according to a story printed here Count Nirod, the midshipman, killed in the battle of Chemulpo, was standing in the fighting top of the Varieg calling off distances, when the mast was struck and the count fell from his station into the sea.

Trade Warning From Russia

CHICAGO, Feb. 29.—A cablegram was received in this city today alluding to the attitude of Russia in commercial sense toward the United States. The message was sent by Thomas Smith, American consul at Moscow, who has just returned to a business house in this city. The message was:

"Unless vigorous steps are taken to offset the continued statements of the British press that the American government is hostile, and the exploitation of every incident that can arouse mutual distrust and hatred, our merchants and manufacturers may as well leave this field to Germans, who know how to profit by this alleged hostility."

Satisfied as to the Vicksburg

ST. PETERSBURG, Feb. 29.—The statement of the commander of the United States gunboat Vicksburg regarding the Chemulpo affair was communicated to the foreign office and was received as a satisfactory explanation. Regrets were expressed that the incident had created so much feeling here. Said an official: "It is a source of gratification to learn that the statements were not only untrue, but that the Vicksburg was the first to render aid. We desire to preserve the most amicable relations with the American republic."

Give Warning Against Cable

ST. PETERSBURG, Feb. 29.—If an attempt is made to lay a cable from the island of Guam to Japan during hostilities it will be regarded as a contraband of war under the proclamation promulgated yesterday. It is believed here that the United States will undertake to authorize such a cable now, as it would constitute a breach of neutrality, according to the Russian view.

WASHINGTON, D. C., Feb. 29.—Thus far the United States government has not received an application from the Commercial Cable company to land a

STORM SWEEPS TWO STATES FIERCELY

Lake Superior Is Frozen at Bessemer the First Time In Memory.

MILWAUKEE Wis., Feb. 29.—A severe blizzard prevailed in northern and western portions of Wisconsin today. At Green Bay and Appleton street cars were crippled for a time. Marquette reports that rural mail carriers were unable to make their trips and sawmills suspended operations on account of the deep snow. Six inches of snow fell at Marshfield and four at Portage. Traffic was suspended on the Oshkosh-Noonish electric road on account of the snow drifts. Railroad trains are late.

BESSEMER, Mich., Feb. 29.—Lake Superior is frozen over at this point, something that has not occurred before in the memory of the oldest inhabitant. A party of Canadian Indians are camped at the mouth of Black river, having journeyed over the ice from the north shore with their dogs and sleds.

Special to The Globe. FLAINTIFF, Wis., Feb. 29.—The most violent snow storm of the season prevailed over Central Wisconsin today. It was a genuine northeaster.

BAY CITY, Mich., Feb. 29.—The Michigan Central railroad tonight abandoned all trains between Bay City and Mackinac. The worst snow storm of twenty-five years is raging. At Standish, Grayling and Sterling the drifts are ten feet deep.

HERE IS A POSER FOR ORNITHOLOGISTS

Strange Bird That Sings as Well as a Canary Is Captured.

Special to The Globe. SIOUX FALLS, S. D., Feb. 29.—Mrs. August Zeller, of Orient, is the possessor of a curiosity in the bird line, and naturalists are unable to classify it. The bird is fully twice as large as an ordinary canary and can sing as sweetly as the latter. It has a curved beak like that of a parrot and its feathers are almost identically the same as the common sparrow or wheat-bird. The strange bird was found by Mrs. Zeller one mile east of Orient with one of its wings broken. It was taken to the Zeller home, and speedily became as tame as any canary.

SUDDEN RICHES TURN YOUNG MAN'S BRAIN

James Colgate, Teamster and Millionaire, Goes to Insane Asylum.

BESSEMER, Mich., Feb. 29.—James Colgate, laborer and millionaire of Hurley, has been taken to the insane hospital at Newberry. Until recently Colgate, who was thirty years old, was a mine teamster. Then his grandfather, James Colgate Sr., died in New Haven, Conn., and left him \$1,000,000. Sudden riches turned the boy's brain and he today never recovers sufficiently to enjoy his good fortune.

RED WING ADOPTS NEW CITY CHARTER

Opposition Is Strong and There Are Not Many Votes to Spare.

Special to The Globe. TOLEDO, Feb. 29.—The new city charter adopted today with a margin of 36 votes above the necessary four-sevenths in a total vote of 926. There was some opposition on personal grounds, by church members because it made no changes in the saloon laws, and by school men because it involved possible changes hereafter. By dint of broadcast publication of a digest and a mass meeting to explain it and hustling for votes with carriages and making it a separate election day, the charter carried by a scratch.

Hull Is Ahead. DES MOINES, Iowa, Feb. 29.—Returns from 51 precincts in Polk county, with 29 precincts to hear from, give Capt. A. T. Hull, candidate for congress, 154 delegates to his rival, Capt. Hull, one of Judge Prout's managers, concedes the county to Hull by a majority of from 15 to 20. The nomination of personal grounds, by church members because it made no changes in the saloon laws, and by school men because it involved possible changes hereafter.

OHIO BOY DIES WHILE BEING SPANKED

Was Punished for Violating Rules of State Industrial School.

LANCASTER, Ohio, Feb. 29.—Sylvester Cich, a fourteen-year-old inmate of the state industrial school, died today after having been punished for an infraction of the school rules. The physician declared that death resulted from heart disease.

STILLWATER

A representative of the firm of W. F. Nugent & Bros., Louisville, Ky., was in the city yesterday negotiating with Charles E. Mosler for the purchase of one or two of the steamers of the Staples Towing company. The boats of the company have for several years been towing logs from the St. Paul boom to Prescott, but the company withdrew from the business at the close of last season's towing.

At the meeting of the board of county commissioners held today the board will consider a proposition to pay one-third of the cost of a new steel bridge, which it is proposed to place over the Northern Pacific tracks at Brown's creek, and which the city and the Northern Pacific Railroad company have already agreed to pay two-thirds of the cost.

Three large boxes of clothing, eatables etc., donated by charitably inclined residents of this city, at the solicitation of Mrs. Alex Johnson, were yesterday shipped to a destitute family at Pine River, Cass county. The family consists of a widow and six children and there was not enough in the shipment to keep them from want for many months.

The talk of erecting a new opera house in this city, to replace the Grand opera house, destroyed by fire a little more than a year ago, was revived yesterday, when strangers were here examining prospective sites, etc.

Frank Granquist, a police officer, who resigned a few days ago to engage in business, is critically ill of pneumonia, and all hope of his recovery has practically been abandoned.

An epidemic of pneumonia seems to have struck this city and at least a dozen serious cases have been reported within the past few days. August Swanson has been appointed a police officer in this city, and Frank Granquist will assume his duties today. State Agent Barnard was at the prison yesterday consulting convicts who are to be released from prison in March.

JOHNSON LEAGUE HOLDS ITS SCHEDULE MEETING

Committee Adjourns to Meet in Joint Session With National.

NEW YORK, Feb. 29.—The annual schedule meeting of the American League of Professional Baseball clubs was held here today, those present being President Ban B. Johnson, Charles W. Somers, Cleveland, Charles Comiskey, of Chicago; T. J. Loftus, Frank J. Farrell, the New York, and E. L. Hedges, of St. Louis.

President Johnson said that he expected that the schedule committees of the American and National leagues would meet in joint session tomorrow to compare schedules as to conflicting dates, and that the schedule of his league would not be given today.

When asked if he expected any trouble in the schedule dates between the two leagues, Mr. Johnson replied: "Why no. The leagues had very little trouble last year, and I don't anticipate any trouble this season. Of course, I don't know what the National league committee will have to say."

After a four-hour session, during which only routine business was transacted, the meeting adjourned for the day.

DULUTH BALL CLUB'S ACTION A SURPRISE

Other Northern League Teams Think Withdrawal Story False.

Special to The Globe. GRAND FORKS, N. D., Feb. 29.—Baseball people here are interested in the story that Manager Y. Frazer of the Duluth team, has announced his determination to take Duluth out of the Northern league and play it in a Wisconsin league. According to the understanding, the people here have found the arrangements of the Duluth team cannot do this without forfeiting its standing as a member of the general association. If the Duluth intention is as announced, and the intention is carried out successfully it may lead to some confusion in the Northern league, which was supposed to be complete and about ready for the work of the season.

Reagan and Forbes Draw. KANSAS CITY, Mo., Feb. 29.—Johnny Reagan, of Brooklyn, and Clarence Forbes, of Chicago, fought twenty rounds to a draw here tonight. The fight on a scientific standpoint, was all that could be wished. Reagan especially displaying remarkable ability in blocking and countering. In the fifth round Forbes landed very low on Reagan and came near ending the fight. Reagan's seconds claiming a foul, the referee, however, decided that the blow was an accident. Forbes entered the ring at 127 pounds while Reagan weighed 115.

Reagan Must Stay With Toledo. CINCINNATI, Ohio, Feb. 29.—The national ball commission today handed down a decision in the case of F. C. Reising, of the Toledo club. It was claimed that Reising signed a contract with the Pittsburg National league club for 1904 while his name appeared on the reserve list of the Toledo club. The commission decided against the player and ordered him back to the Toledo club.

Dwyer Defeats Englishman. RICHMOND, Va., Feb. 29.—In a wrestling match here between M. J. Dwyer, American middleweight champion, and Joe Carroll, the English middleweight champion, Dwyer won by two straight falls, the last two of three falls.

Unhappy Homes Caused By

MINNEAPOLIS

TYPHOID SPREADS IN MINNEAPOLIS

Hospitals Crowded and Epidemic Is Assuming Alarming Proportions.

Never before were there so many patients at the city hospital as at present. According to City Physician Ricker the institution is crowded to its capacity, and it has been necessary to turn away many deserving persons who sought admission. Said Dr. Ricker:

"People are finding a good deal of fault with us because we cannot admit more patients to the hospital, but the fact is we are overcrowded as we never were before. Today the hospital is so full that we simply cannot admit another case."

There has been a decided increase of typhoid patients during the past week and a number of physicians yesterday gave it as their opinion that the disease is spreading. One physician said that there are twenty-five cases of the fever on Nicollet island alone.

To the case of the East side pumping station from Dec. 30 until ten days ago, while a break in the main was being repaired, is attributed the spread of the disease, at least in the district from Central avenue to Thirteenth avenue south-east. There is every evidence that from this district were reported in January, and of this number 35 used the city water, 11 spring water, 21 well water. Nine of the wells, the water of which was analyzed and reported as unfit to drink or for cooking purposes, have been condemned.

MISSING GIRL RETURNS.

Disappeared a Month Ago and Will Not Tell Where She Has Been.

Julia Olson, the fourteen-year-old girl who has been missing from her home since the first of February, has turned up as unexpectedly as she disappeared.

She refuses to tell where she has been, and the police are as mystified concerning her return as they were at her departure. There is every evidence that the girl has been in the city all the while, and efforts will be made to get her to tell where she has been, as it is feared that she is holding something back on account of fear.

Weakness in Men

A Michigan Specialist Finds an Easy Way to Cure Any Case of Sexual Weakness Even in the Oldest Men. This Wonderful Cure Has a Most Marvellous Record of Successes.

SENT FREE TO ALL WHO APPLY IN WRITING

Thousands of cheerless homes are filled with discontent and unhappiness, lacking in love and companionship, through the sexual weakness and physical impairment of a man whose years do not justify such a condition. Indiscretions, abuses and recklessness often cause a temporary cessation of vital power that instantly yields to the wonderful treatment discovered by the great specialist, Dr. H. C. Raynor, of Detroit, Mich. It has remained for this great physician to discover that sexual weakness and similar troubles can be cured in remarkable short spaces of time. This treatment does not ruin the stomach, adding the miseries such injury entails, but it is a new treatment that easily and quickly restores youthful vigor to men of mature years.

The discovery is beyond doubt the most scientific and comprehensive that our attention has ever been called to. From all sides come private reports of cures in stubborn cases of sexual weakness, enlargement of the prostate, varicocele, spermatorrhea, lost manhood, impotency, emissions prematurely, shrunken organs, lack of virile power, bashfulness and timidity and like unnatural conditions. It does this without appliances, vacuum pumps, electric belts or anything of the kind. It cures in remarkable short spaces of time. This treatment does not ruin the stomach, adding the miseries such injury entails, but it is a new treatment that easily and quickly restores youthful vigor to men of mature years.

ENGINEER BEGINS STREET CLEANING

City Engineer Rundlett yesterday set a force of 200 men to work ridding the streets of the snow and slush so that when the general break-up comes the sewers will not be put to too severe a test of their efficiency. Yesterday the gang cleared all the crossings in the business section.

In case the warm weather continues the gang will be doubled, and it is possible all the streets will be cleared of mud before a prolonged thaw comes.

OLD LAWNS MADE NEW
