ROCK ISLAND WINS FIGHT FOR CONTROL

President Stickney Fails to Secure Des Moines & Fort Dodge Property.

According to advices received in St. Paul, President A. B. Stickney of the Chicago Great Western has lost his fight for the control of the Des Moines & Fort Dodge road.

It is now claimed by railroad officials that the Rock Island will maintain its control of that line and that the Maple Leaf will make no further attempt to annex the property to its system.

For the past few years the Rock Island has had control of the road. It was removed in railroad circles that this control had been lost by the Stickney interests quietly buying up enough stock to give them the management of the property.

The Stickney control was to have been made manifest at yesterday's meeting of the stockholders of the Des Moines property, but when the holders of the stock met it was to adjourn without taking any action.

The adjournment is supposed to mean that the Rock Island is still the controlling factor and that it will continue to operate the line as an auxiliary road.

Another story in circulation is that President Stickney fully did gain control of the property, but reached an understanding with J. H. Hilland, president and general traffic manager of the Milwaukee. Mr. Hilland arrived in St. Paul yesterday and will remain until Saturday night.

"A presidential year always hurts business," continued Mr. Hilland, "and 1904 is no exception, although the decrease has not been as great as formerly. The political situation in Illinois and Wisconsin, especially in the business state, is none too promising, and the outcome before taking any steps to enlarge or expand."

"However, the general business condition is favorable. The outlook at present is for a large grain crop this year and this will serve to help us out. After the election in November there will be a general resumption of prosperity and we will get back to our old-time basis."

FRUIT DEALERS CLAIM RATES ARE TOO HIGH

Interstate Commission Hears Complaints of Michigan Shippers.

CHICAGO, June 2.—Testimony tending to substantiate charges of unreasonable shipping rates against railroads running through the Michigan fruit belt was heard today by the interstate commerce commission at a session held in this city.

Fruit growers testified that in order to ship fruit in refrigerator cars they were compelled to pay an increase varying from 3 to 300 per cent.

The representatives of the railroads shifted the blame to a firm which has a contract for furnishing refrigeration to the cars in which fruit is shipped.

Shippers Request Cars.

OMAHA, June 2.—All the roads centering here are receiving heavy orders for cars to be used in moving grain under the low rates now in effect and which are to be superseded June 10 by the new rates agreed upon.

Fortunate for grain shippers, all the lines are well supplied with cars just at this time and the orders are being filled as rapidly as they are received.

POLITICS IS CAUSE FOR BUSINESS DEPRESSION

Vice President Hiland of the Milwaukee Explains Traffic Decrease.

"Politics and not a depression in general business has caused the falling off in railroad traffic during the past few months," this was the statement made yesterday by J. H. Hilland, vice president and general traffic manager of the Milwaukee. Mr. Hilland arrived in St. Paul yesterday and will remain until Saturday night.

"A presidential year always hurts business," continued Mr. Hilland, "and 1904 is no exception, although the decrease has not been as great as formerly.
