LIEUT. BRADY CUTS ICE AT ST. LOUIS

Philippine Scouts Seize World's Fair Entrance in Fighting a Monopoly

ST. LOUIS, Mo., July 7.—A detachment of fifteen Philippine scouts, under command of Lieut. Brady, took forcible possession of the Bellevue entrance at the world's fair, deposed the exposition gatekeeper, allowed wagons carrying 4,000 pounds of ice for the Philippine government concession to enter despite the orders of the gatekeeper and escorted the wagons to the village.

This was the result of efforts on the part of the ice concessionaires of the fair to compel the Philippine commission to buy its ice from them. The commission refused and continued to purchase ice from an outside concern. The fair management today ordered that the outside ice wagons be refused admission to the grounds. The Philippine management protested, and W. T. Wilson, chairman of the committee, held a conference with President Francis. The only result was that the president declared that the fair had to adhere to its contract with the ice concessionaires.

Then the matter was placed in the hands of Edmund A. Selder, executive officer of the commission, with instructions to see that the ice was allowed to enter. Selder found that the gatekeeper was stopping the wagons. He sought out Maj. William H. Johnson, in command of the scouts, and fifteen men to attend to the matter. When Brady reached the gate he found the wagons lined up outside. He ordered the gatekeeper to admit them. The gatekeeper refused.

Lieut. Brady then ordered his men to seize the gatekeeper. He was removed. The ice wagon drivers were then ordered to enter and did so, going on the reservation under escort of the scouts, who had restored the gatekeeper to his position. A few minutes later orders were sent to the gatekeeper by President Francis to allow ice wagons intended for the Philippine reservation to enter.

Why England Protects Seals
 LONDON, July 7.—In the house of commons today Premier Balfour, replying to a question of Gibson Bowles (Conservative), said that the action of Great Britain in sending warships to the Kommander islands for the protection of both Russia and Japan. No jurisdiction would be exercised over Japanese vessels, but the Japanese government had requested that any raid should be reported to it and the government of Japan would deal with it. There was no breach of neutrality in Great Britain's action and no international question could arise therefrom.

RAILROAD NEWS
WILL CHARGE FULL FARE FOR BODIES

Western Passenger Association to Discuss Transportation of Corpses

When the Western Passenger association meets Monday at Houghton, Mich., it will take up the question of the charges to be made for transporting corpses. The general rule on Western roads is to transport a corpse at the regular passenger rate, provided at least one person accompanies it and also has a ticket purchased at the regular rate. Unless somebody accompanies the corpse, the rule is not to carry it on a ticket, but require it to be shipped by express.

Many unpleasant complications have resulted in cases where persons traveling on round trip passes or half rate tickets died while en route or at one end of the journey. The friends have insisted that the body should be forwarded on the return coupon of the pass or half rate ticket, while the rules of the railroads required their agents to check corpses as baggage only when a regular full fare ticket was purchased for the corpse and at least one other regular ticket was bought by a person accompanying the body.

Now it is proposed to make an agreement binding on all the routes in the Western Passenger association that return coupons of passes or tickets sold at reduced rates, to clerical men or others usually given reduced rates, shall not be accepted for the transportation of corpses.

HARVEST HANDS ARE GRANTED CHEAP RATES

Great Northern Announces Special Fare for Farm Laborers

In order to induce laborers to the Northwest to gather the crops, the Great Northern yesterday announced a special rate of \$6 from St. Paul to Minnesota and North Dakota points. The rate is the same as that in effect last year.

About 12,000 harvest hands will be needed by the farmers whose lands are adjacent to the Great Northern. The special rate for the harvesters will become effective Aug. 1, and laborers will be given a cheap rate returning to St. Paul if they are able to show that they have worked thirty days in the harvest fields.

One of the inducements offered by the Great Northern to get laborers to go to the Devils Lake district, in North Dakota, is the opening of the Indian reservation. It is pointed out that a harvester can register for a claim while earning good money gathering the crops.

The Northern Pacific and Soo lines will also grant a \$6 rate to farm laborers after Aug. 6. One of the conditions of all the lines is that the harvesters travel in parties composed of at least five members.

NORTHERN PACIFIC'S MEETING IS POSTPONED

Early Decision in Securities Case Is Now Looked For

Special to The Globe
 NEW YORK, July 7.—The annual meeting of the Northern Pacific railroad shareholders, originally called for last October, but postponed several times, owing to the fact that the Northern Securities company was restrained by the courts from voting its stock, was again postponed today for one week.

Inasmuch as the other postponements were from two to three months, considerable interest was expressed over the fact that the next meeting will be held on Thursday of next week.

It was understood to mean that the meeting was postponed until it could be handed down by Judge Bradford in the Harriman-Pierce suit.

The Northern Securities company holds a majority of the Northern Pacific stock. If the pro rata scheme of distributing the Northern Securities assets is not prevented by Judge Bradford's decision in the injunction asked

HOLTMAN CONFESSES KILLING MYERS

Says He Struck Him With Billiard Cue and Mrs. Myers Cut His Throat

WALLA WALLA, Wash., July 7.—Frank Holtman, under arrest here for the murder of Clarence Myers in Kansas City, has confessed. Holtman said:

"For years Mrs. Myers and I have been friends. She loved me and I loved her and we wanted to get married. We planned the murder three weeks or more before the crime. The night of May 10 I went to bed, but got up about midnight and went to the Myers house at 8 o'clock. I met Mrs. Myers at the house and we went to sleep. But just as we entered he called out: 'Well, you're here again!'"

"He grabbed at me, and as he did so I struck him with a billiard cue. Then I held him while his wife cut his throat with her own razor. The body was laid on the seats and left there. After the crime I went to my room and after sleeping a while went to the depot, and took an early train for St. Joseph. From there I went to Hinghamville, and then to Omaha, where I

bought a ticket to Walla Walla. Mrs. Myers gave me \$10 to get away."

KANSAS CITY, July 7.—Mrs. Aggie Myers, in her cell here today, denied the truth of Holtman's confession, asserting positively that Myers was killed by one of the negroes who had entered their room for the purpose of robbery.

NOT TRANSFERABLE

Homestead Right of Soldiers' Widows Cannot Be Sold

WASHINGTON, D. C., July 7.—The district supreme court today decided in favor of the government in the case of Anna Bowes and others against the secretary of the interior. The effect is to stop cattle companies from the misuse of the soldiers' homestead right, belonging to widows. It is stated that it does not take away privileges given under the law.

The case arose from a department decision that the widow or minor or orphan children of a deceased soldier or sailor making homestead entry under section 2307 of the Revised Statutes, must comply with the homestead laws as to residence and cultivation the same as a soldier or sailor entering under section 2304 and that the right to make such entry is not transferable and that contracts contemplating the sale of such entries are in violation of the law.

STILLWATER

An attendant of the Rochester insane asylum came here and returned to Rochester with John Mayhew, whose right name is Harry Blunt. Blunt's childhood was spent in Iowa, and at the age of sixteen years he committed criminal assault and was sent to the Iowa prison at Fort Madison. Later he was transferred to Anamosa and discharged upon the expiration of his term. A few days after his release from prison he committed assault in Anamosa county, and was given a five-year sentence. While serving that term he plotted with convicts to escape from prison and made a murderous assault on the guards. Later he was soon recaptured. He was discharged at the expiration of his sentence and came to Minneapolis. A few days after coming to St. Paul and Minneapolis he drifted to Woodbury, where he committed an assault upon Mrs. Wilhelmus Retzlaff, and stole some clothing from a farm house. He was some troublesome while serving his term at the prison, and five years ago was adjudged insane and sent to the Rochester asylum. He escaped from the Rochester asylum July 1 by eluding the vigilance of his guard, and his object in coming to Stillwater was to secure his good time money left him at the prison. As soon as he appeared here Attorney Gillen notified Warden Weller, and Deputy Warden Glenn was sent down town to make the arrest. He was taken in charge and placed in jail until the attendant from Rochester came after him.

The new electric lighting plant at South Stillwater will soon be ready for business, and Walter Hill has been chosen by the city council to have charge of the plant. The power house is nearing completion. The trick work will be done this week and the machinery is ready to be installed. President Wilcox, of the village council, says that the plant will be in running order before Aug. 15.

The convict crew in the prison twice factory is working three hours overtime daily in order to manufacture as much twine as possible before the twine season closes. The daily output now is from 42,000 to 45,000 pounds, and the crew will work overtime until the state is able to fill orders that have already been booked. The sales for the season will exceed 100,000 pounds.

Frank Carlson, residing near Marine, dropped dead of valvular heart disease. He was fifty years of age. Coroner Freigh was summoned, but decided that an inquest was unnecessary.

Boiler Inspector George Wilcox, of this district, will next week begin his work for this year, and will have in the neighborhood of 150 boilers to inspect.

The state board of control held its regular monthly meeting at the prison yesterday and considered parole applications. Ten applicants were examined.

HOME DUTIES

Women seem to listen to every call of duty except the supreme one that tells them to guard their health. How much harder the daily tasks become when some derangement of the female organs makes every movement painful, and keeps the nervous system unstrung? Irritability takes the place of happiness and amiability; and weakness and suffering takes the place of health and strength. As long as they can drag themselves around, women continue to work and perform their household duties. They have been led to believe that suffering is necessary because they are women! What a mistake! Lydia E. Pinkham's Vegetable Compound will banish pain and restore happiness. Don't resort to strong stimulants or narcotics when this great strengthening, healing remedy for women is always within reach.

Lydia E. Pinkham's Vegetable Compound.

For Proof Read the Symptoms, Suffering and Cure recited in the following Letters:

"Before using Lydia E. Pinkham's Vegetable Compound I suffered intense pains. Menstruation would occur every other day. For about five weeks I was so that I could not stand on my feet from weakness. I also had severe pains in limbs, my head at times seemed as though it would burst. I was completely played out; could not sleep. My kidneys were also affected. I could not begin to explain all I suffered. Your medicine completely cured me, and I cannot tell you how thankful I am to have my strength back. I can work at anything."

"Your medicine is certainly wonderful, and I am not afraid to tell any one of its merits. It is a great thing in our home. I wish to have this letter published so that any one suffering may read it, and use your Vegetable Compound and be benefited."—Miss Lizzie Moss, 1136 Duffor St., Philadelphia, Pa.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham's address is Lynn, Mass., and her advice is free and cheerfully given to every ailing woman who asks for it. Her advice has restored to health more than five hundred thousand women. Why don't you try it, my sick sisters?

"Last Summer I was very miserable. I suffered with falling of the womb, headache, a bad discharge, aching of limbs and very painful menstruation; would be confined to my bed from three to five days every month."

"My husband got me three bottles of your Vegetable Compound. I had been taking doctor's medicine nearly two years and never got any help, and before I had taken half a bottle of your medicine I felt some relief. My head and back felt better, and I could go to bed and sleep, which I could not before taking your medicine. After I had taken the three bottles and used the Sanative Wash, I was well and strong and felt like a new woman."

"Last September I became pregnant and again took your medicine, and got along nicely during pregnancy and got up from my confinement sooner and felt better than I ever did before. I have a nice baby boy. He is well and strong, the healthiest of my children, and it is all owing to your Vegetable Compound."

"I cannot find words with which to thank you. Your medicine is surely the best medicine in the world."—MRS. MARTHA JACOBS, care of C. C. Holbrook, Johnson, Vt.
