DEMOCRATS REACH ENTIRE HARMONY

DIFFERENCES OF NEW YORK LEADERS END

Congressman Francis Burton Harrison Is Appointed Vice Chairman of the Bureau of Organization, and Murphy and McCarren Are No Longer at War

Special to The Globe NEW YORK, Aug. 23.—The warfare in the Democratic state committee between Charles F. Murphy and Senator McCarren was ended tonight. A truce until Nov. 8 was sealed by the appointment of Francis Burton Harrison, Tammany member of congress, as vice chairman of the bureau of organization under Mr. Rodie. Deanecey Nicoll, vice chairman of the national committee, went to Esopus to inform Judge Parker of the conclusion of the arrangement. Through Nicoll, Murphy assured Parker he was entirely satisfied with the appointment of Rodie as chairman of the committee on organization and Senator Dowling as member of the executive committee in charge of the campaign in New York and that he is from this day "harmonious."

great activity at both the national and state headquarters of the Democrats in this city today, due to the visits of many men interested in the campaign and of others who are seeking employment with the committees. National Chairman Taggart received visitors, among them David B. Hill, who had been in constant conference all day with the state leaders at the Hoffman house. Considerable satisfaction is expressed among Democrats over the settlement of the differences between Leader Murphy of Tammany Hall, and Senator McCarren, of the state executive committee, so far as they relate to the present campaign. It is understood the agreement refers only to the campaign for Parker and Davis. The Tammany men say that with Mr. Rodie chief of the organization bureau of the state and Mr. Dowling holding a similar position for Greater New York, the management of the campaign is really in the hands of these gentlemen. Mr. Dowling has decided to begin work on one.

NEW YORK, Aug. 23.—There was

FLICKERTAILS LEAD

North Dakota Has Largest Amount of Lands Entered

Globe Special Washington Service 1417 G Street

WASHINGTON, D. C., Aug. 23.—J. H. Fimple, acting commissioner of the general land office, today gave out a statement showing the number of entries, acres disposed of and receipts from sales of public lands in the fiscal year ended June 30, 1904. It shows that the number of entries and filings at Minnesota offices was 11,228, acres covered, 1,098,943, and receipts, \$87,981. —Walter E. Clark.

WASHINGTON, D. C., Aug. 23.—Records of the public land office for the fiscal year ended June 30, 1904, completed today, showed that 16,255,893 acres of public lands were disposed of during the year, as compared with 22,650,928 acres last year. The total cash received for these lands was \$8,795,893, as compared with \$10,557,918 last year. The number of entries was 172,857.

These figures indicate according to officials of the land office, that the public land boom of last year is subsiding somewhat. Last year was the record year for twenty years, and the present is next highest in the number of acres disposed of by the government. Lands were taken up in twenty-four states and four territories. North Dakota led in the number of acres and Oregon in the amount of cash received. In North Dakota 1,798,551 acres were disposed of, the money received for the same being \$1,924,218. In Oregon 1,170,555 acres were taken up and \$1,442,576 received for the same.

LIVE STOCK SANITARY BOARDS CONFER

Dr. S. H. Ward, of Minnesota, is Member of a Leading Committee

ST. LOUIS, Aug. 23.—The ninth annual convention of the Interstate Association of Live Stock Sanitary Boards convened today for a two-day session. The president, Dr. J. C. Norton, of Phoenix, Ariz., called the convention to order.

A committee was appointed by President Norton on quarantine line and open season, which will hear reports from veterinarians and cattle owners in the quarantine sections, and make changes in the line which stretches from the Atlantic to the Pacific. The discussion was largely on tuberculosis in cattle and its transmission to man. The members who spoke all took issue with the position of Dr. Koch, the German specialist, that bovine tuberculosis cannot be contracted by mankind. The committee on uniform state sanitary laws was named as follows: Dr. M. E. Knowles, Helena, Mont.; Dr. M. E. Hawkins, Quanah, Tex.; and Dr. S. H. Ward, Minnesota.

MANILA, Aug. 23.—The forces under Datto Ali, on the island of Mindanao have adopted guerrilla tactics in fighting the American soldiers. To counteract this departure Gen. Wood has organized four crack fighting companies of 100 men each, composed of infantry and cavalry, which are to operate independently and conduct a vigorous campaign.

RUSH REPAIRS OF DAMAGED PROPERTY

Army of Men at Work and Sufferers From Cyclone to Be Relieved

St. Paul is fast recovering from the effects of the cyclone of Saturday night, and inside the next few days most of the external evidences of the fury of the elements will have been removed. Glaziers and painters by the score are replacing the broken plate glass fronts in the downtown stores, an immense force of street laborers employed by the city is removing the debris from the streets, and hundreds of men in the residence districts have been employed to trim the trees shorn of their branches and remove the unsightly trunks left standing as monuments to the force of the wind. The street car company has put all its lines in operation, and is running cars on schedule time, and the railway companies have recovered in large measure from the demoralization of their telegraph lines, which hindered the operation of the trains.

The joint committee of six of the common council spent yesterday in investigating cases of destitution and suffering as a result of the storm, and the committee will hold a meeting at 11 o'clock this morning at the council chamber to compare notes and to make provision for the alleviation of those who are in need of immediate temporary relief. Each member of the committee has been furnished a list of those in his district who are in need, and at the meeting today comparisons of the lists will be made and funds will be ordered expended for the relief which it is conceded is imperative in some cases.

More Losses Reported News of minor casualties which escaped notice in the larger losses of life and property in the earlier reports of the storm, swell the property loss and add to the tales of danger and exposure that go to make up the total of the story of the worst storm ever experienced by St. Paul.

A wreck is reported from Castle, a way station on the Wisconsin Central, near North St. Paul. The cyclone carried four loaded freight cars from a siding at this point and threw them on the main track and a short time later a fast freight coming up from Abbotford ran into the wreckage. The result was that the fast freight engine telescoped the prostrate cars and three members of the crew of the freight train were slightly injured. The engineer and fireman were both hurt and a brakeman, riding on the locomotive, was also injured. Railroad men estimate the damage because of the storm and the wreck that afterwards resulted at \$10,000, for the merchandise in the cars was thrown on the right of way and exposed to wind and water.

\$3,000 Damage on Harriet Island Supt. Nussbaumer, of the park system, yesterday inspected very closely the condition of the trees on Harriet island, and said that many of the trees which were badly damaged by the wind can be saved. Several hundred of the trees on the island lost their tops, but they are of a character that when trimmed and their wounds bound up will live and a new foliage will come on them. Dr. Justus Ohage now estimates the damage to the buildings at not more than \$3,000. He hopes, with provision by the council, to speedily put the island park in as good a condition as before the storm, barring the unsightliness of the tree stumps. In Lafayette park and Smith park many of the trees which were uprooted have been replaced in the ground and experts in forestry believe that they can be saved. Many of the best trees in the residence part of the city were blown squarely off and nothing can be done with these except to replace them with young trees and trust to time and favorable conditions

HENRY C. PAYNE IGNORES SUMMONS

Postmaster General Throws Witness Fees Into a Constable's Face

CHICAGO, Aug. 23.—Postmaster General Henry C. Payne was today served with a summons to appear in a justice court in this city on Aug. 24, as a witness in a case against Chauncey M. Depew. The postmaster general did not receive the summons with pleasure and informed the constable, John Simons, that he would ignore it entirely. "Not only did he say that," declared Simons, "but when I offered him 50 cents, and even added 10 cents for mileage, he threw the money in my face."

Last June, when Senator Depew was in Chicago attending the Republican national convention, he was sued by S. G. Brabrook, of this city, who declared that he had in some manner been defrauded by a concern called the Penny Publishing company, with which, he asserted, Senator Depew had been connected in 1892. The case was continued until Aug. 26, and ever since the constable has been trying to serve a summons on Postmaster General Payne. Today he located Mr. Payne in the Chicago club after a long search. "I have a subpoena for your appearance in Justice Caverly's court Aug. 26," said the constable. "Mr. Payne made no reply. 'It is the case of S. G. Brabrook vs. Chauncey M. Depew,' said the constable. 'Still no reply. 'Here is 50 cents witness fees,' said the constable, and still there was no reply. 'Here is 10 cents car fare,' added the constable, and then he received a reply. 'I will ignore the summons and will not appear in that court under any circumstances,' said the postmaster general; and then, according to Constable Simon, Mr. Payne tossed the money toward him and walked away. The constable gathered up the 60 cents and returned to his desk in Justice Caverly's court."

TRAIN WRECK MAIMS

Large Number of Iowa People Are Injured

TRENTON, Mo., Aug. 23.—Rock Island train No. 3, the westbound passenger due to reach Kansas City from Chicago at 8:15 o'clock in the evening, was derailed near the crusher plant just west of Princeton, Iowa, twenty-four miles north of here, this afternoon, injuring forty-five persons, two of whom are in a dangerous condition. These are J. W. S. Dunham, a postal clerk, and W. S. Roby, of Alton, Iowa, a passenger. Those slightly injured include the following from Iowa: Charles White, Oskaloosa; L. A. T. Campbell, Princeton; S. M. Dunham, Clor; F. E. McMeans, Davenport, postal clerk; Howard Moore, Mrs. Howard Moore, Lineville; William Clifton, Princeton; H. B. Bracewell, Corydon, Charles Claudefeiter, Princeton; Thomas A. Gee, Trenton; H. A. Howard, Clor; A. D. Garner, Lineville; Charles Grigler, Princeton; Capt. Gibson, Leon; H. M. Kirby, Keokuk; T. C. Carter, Holden; M. Pero, W. S. Martin, Mount Pleasant; Hattie Moore, Trenton; Mrs. Snetaker, Numa; Mrs. G. W. Drake, Lineville; Jack Baldwin, Bertha Hermsford, Princeton; Lorand McCannady, Ottumwa; C. C. Claffain, W. S. Hart, Princeton.

Four cars, the mail, baggage and smoking car, and one coach left the track. The mail car and smoker turned over and fell down an embankment. The injuries are almost all confined to passengers in the smoker. It is presumed that the engine tank jumped the track, causing the derailling of the cars following.

BANKS TAKE ACTION AGAINST WAGGAMAN

Would Have the Treasurer of Catholic University in Washington Declared Bankrupt

WASHINGTON, D. C., Aug. 23.—A sensation was caused in financial and real estate circles in this city today when it became known that a petition in bankruptcy had been filed by three of the leading national banks of the city against Thomas E. Waggaman, a prominent real estate and insurance agent of this city and treasurer of the Catholic university. The petition at the same time seeks to set aside a deed of trust recorded yesterday on Mr. Waggaman's property of approximately \$876,000 in favor of the Catholic university on the ground that it is void, as being an attempt by an insolvent debtor to prefer one of his creditors.

The petitioning banks were the Second National bank, the National Metropolitan bank and the National Bank of Washington, each of which alleged it held overdue and unpaid paper of Mr. Waggaman's, the total held by the three exceeding \$40,000, of which \$30,000 is due the Metropolitan bank. It is probable that the proceedings are the beginning of considerable litigation. Mr. Waggaman had been in the real estate business since 1893 and was generally reported to be a man of large means. He was the possessor of the finest art gallery in the city and comment was caused several months ago when an announcement appeared in the papers that his art works had been turned over to the Catholic university. At that time it was said to be a matter of convenience, but it is stated now that security to the university for money had to do with the matter.

Besides handling the money of the university, Mr. Waggaman controlled large amounts of money in the aggregate belonging to other persons, both in this city and away from here, and it is stated that to some extent Mr. Waggaman's personal notes were given as security to those whose money he had collected. For years he had been engaged in extensive operations in the suburbs of Washington and has much capital tied up thereby.

It is understood that some time ago the authorities of the university became dissatisfied with the manner in which the funds of the institution in Mr. Waggaman's hands were invested and secured and after negotiations between them different arrangements were effected. This new arrangement was embodied in a settlement in which the deed of trust was a part. The deed of trust is dated July 25 last and it is said the delay in recording it was occasioned by the terms of the adjustment respecting Mr. Waggaman's financial condition is said to have prevailed in some circles for a few days and it was hinted that, apprehending the possibility of bankruptcy proceedings, it was decided by those representing the university to have the deed recorded. The friends of the university say that they think it will lose nothing if the deed of trust recorded yesterday can be sustained as against the general creditors of Mr. Waggaman.

DESPAIRING OLD WOMAN KILLS HERSELF

Had No Funds and Her Son-in-Law Denied Her a Home

Special to The Globe SUMNER Iowa, Aug. 23.—Mrs. Withrow, a widow, ended her life today by drinking carbolic acid. For some time she had been in poor health and dependent over the fact that her son-in-law denied her a home. The old lady, seventy years of age, was without funds and subsisting on the kindness of the neighbors.

JAPANESE PRESS STOESEL HARD

FALL OF PORT ARTHUR IS EXPECTED HOURLY

Besiegers Move Upon the Russian Left From a Newly Captured Fort and Are About to Attack the Center ---British Order Repairs on the Askold Stopped

Special Cable to The Globe SHANHAIKWAN, Aug. 23.—Reports of refugees from Port Arthur flocking to this port today indicate that the Japanese land forces this afternoon were moving on the heart of Gen. Stoessel's left from the Etse mountain fort, and that a strong detachment of Gen. Nogi's infantry was starting to the hills east of Antsz mountain fort for an attack on the Russian center through a breach believed to have been made by artillery fire from Wolf hill. Gen. Nogi's troops also were attacking Laoluichui fort from the heights sloping from Tako bay and were gaining on the center of the Russian right in a series of infantry rushes from Petecow mountain. The Japanese had made gains of varying importance along their whole front, and the fate of the fortress was believed to be a question of hours.

TROUBLE OVER THE ASKOLD

Special Cable to The Globe SHANGHAI, Aug. 23.—The Russian cruiser Askold and torpedo boat destroyer Grozovoi has not yet been disarmed, although the extension of time granted to them expired at noon today. The Grozovoi is in perfect condition. It is believed both vessels will attempt to leave the harbor before morning. The Japanese consul has asked the taitai to warn the Chinese cruiser and forts at Wusahung to prevent them from leaving. Consuls are awaiting instructions from their respective governments. The taitai has requested the British consul general to instruct the dock company to stop the work of repairing the Askold.

REPAIRS ORDERED STOPPED

WASHINGTON, D. C., Aug. 23.—Consul General Goodnow at Shanghai cabled the state department that the Chinese taitai of Shanghai, through the British consul, has ordered that the repairs to the Russian cruiser Askold and the torpedo boat destroyer Grozovoi be stopped. The order was made through the British consul because of the fact that the repairs were being made by the British Dock company at Shanghai.

JAPS OCCUPY MORE FORTS

CHIFU, Aug. 24.—A junk which left Liao Ti promontory on Aug. 21 has just arrived here. She reports that the Japanese have succeeded in occupying Anteshan fort as well as another fort, probably Etseshan, about a mile southwest of Anteshan. They have driven the Russians from the parade ground, which lies about two miles north of the harbor; they have destroyed two forts at Chao Chanko, which is within the eastern fortifications, and have advanced to a point near Chao Chanko. This news confirms information received here previously. The junk heard firing until midnight of Aug. 22.

Scarcely a Port Arthur building remains undamaged. The town hall, which was used as a magazine, has been destroyed. Four large warships unable to fight are at Port Arthur. Only one ship, a vessel with two masts and two funnels, has guns on board. The fire of the forts not captured by the Japanese, together with the effect of land mines, is given as the reason why the Japanese have not yet captured the Russian stronghold.

SEVASTOPOL HIT HARD

TOKYO, Aug. 24.—Admiral Kataoka reports that the Russian battleship Sevastopol was emerging from Port Arthur yesterday she struck a mine, after which she was seen to be listed to starboard. She was towed back into the harbor.

RUSSIANS MAY TAKE INITIATIVE

BERLIN, Aug. 24.—In a dispatch from Liao-yang the correspondent of the Lokal Anzeiger says: "The indications are that the initiative is about to pass to the Russians. The Japanese plan of campaign, including the attack upon Liao-yang, has apparently been deranged by the unexpectedly stubborn resistance at Port Arthur. Gen. Kuroki's army has been withdrawn to the south of the Taitse river and only outposts are north of the river. Japanese troops under Gen. Ukashima are reported to be in the Liao river valley. It is rumored that the mikado has recalled Gen.

DEMOCRATS ACTIVE RUSSIANS REFORM

South Dakotans Decide Upon an Aggressive Campaign Czar Announces Good Things in Honor of His Son

Special to The Globe SIOUX FALLS, S. D., Aug. 23.—At a meeting in this city tonight of the Democratic state executive committee and nominees on the Democratic congressional and state tickets, steps were taken for the opening of the campaign. Waterbury was selected as state headquarters, chairman of the Democratic state committee, announced at the meeting this evening the appointment of John B. Hanten, of Watertown, as secretary of the state committee, to succeed H. H. ("Cyclone") Smith, of Armour. Former Senator Pettigrew was present and declared in favor of making an energetic campaign, and stated that he would take the stump himself on behalf of the Democratic ticket. All factions of the party were represented at the meeting and those present were unanimous in declaring in favor of making an aggressive fight in the approaching campaign. The chairman and secretary of the state committee were authorized to fill all vacancies on the ticket.
