THE ST. PAUL DAILY GLOBE'S circulation now exceeds that of any other morning newspaper in the Twin Cities except only the Minneapolis Tribune.

THE St. Paul Sunday Globe is now acknowledged to be the best Sunday Paper in the Northwest and has the largest circulation.

ADVERTISERS get 100 per cent more in results for the money they spend on advertising in the Globe than from any other paper.

THE Globe circulation is exclusive, because it is the only Democratic Newspaper of general circulation in the Northwest.

ADVERTISERS in the Globe reach this great and daily increasing constituency, and it cannot be reached in any other way.

RESULTS COUNT—THE GLOBE GIVES THEM.

WEDNESDAY, AUGUST 24, 1904.

ITS FUNDAMENTAL DEFECT

No legal interpretation can ever overcome that fundamental defect of our primary election law which requires an individual to declare his party affiliations before casting his ballot at a primary.

Perhaps Candidate Tom Watson would be satisfied to take his second term first. Messrs. Parker and Roosevelt seem to have got an option on the goods in sight.

DOMESTIC SCIENCE AS A SOLUTION: About ten or fifteen years ago when mutual reformation on the part of mistress and maid culminated in the establishment of the domestic science school.

He'll in St. Paul, so far as the women who are employed in household work are concerned, the working girls' union is either dead or in a moribund condition.

Before we can make successful trial of the direct primary system we will have to do away with this undemocratic regulation and put the primary election back in the simple and proper form that it took before the sly amendment hunters got in their work.

Now is the spellbinder called upon to sacrifice the desire of his soul, turn his back upon the fields of golden

grain and go into the byways of the great city to peddle the slack of his jaw.

CONCERNING BILLBOARDS

It's an ill wind that blows nobody good. If as the result of Saturday night's storm the unsightly billboards are swept from the principal streets of St. Paul many people will admit that the city has been partly compensated for the damage inflicted by the wind.

Apropos of this billboard nuisance, why wouldn't it be a good idea for the city council of Minneapolis and St. Paul to frame special ordinances for the purpose of redeeming University avenue? No other street in either city is so badly disfigured by the billboards.

And it is not merely the occasional visitor who forms a contemptuous opinion of our sense of decency through this remarkable pictorial display on University avenue. Nine out of every ten visitors who come to St. Paul and Minneapolis view the two cities through the windows of the regular interurban.

Perhaps Candidate Tom Watson would be satisfied to take his second term first. Messrs. Parker and Roosevelt seem to have got an option on the goods in sight.

Now is the spellbinder called upon to sacrifice the desire of his soul, turn his back upon the fields of golden

indication of the average American city's attitude toward it. This writer tells about the work of the School of Domestic Arts and Sciences, of the establishment of a department of household administration at the Chicago university, and of the courses in the household and manual arts in the Chicago normal school.

When domestic service changed from a worry into a problem, nobody who gave the subject any thought believed that the solution would be found by the woman below stairs. It was shrewdly suspected that incompetent mistresses were the chief cause of incompetent service.

The czar threatens to call out 3,000,000 more soldiers. And they will get to the front just about in time to have to listen to the mikado's keep off the grass order.

THE PRODUCT OF THE ENGLISH PRISONS

It is quite as inexcusable for a nation to assume permanently the "I am better than thou" attitude as for the individual, but there is no reason why a country should not occasionally permit itself to derive an honest pleasure from contrasting some one of its institutions with a similar but somewhat inferior one belonging to another nation.

The writer's general contention is that the English prison system is altogether punitive, and this chiefly because the English public has not yet made up its mind whether the system should also be partly reformatory.

Special to the Globe: CHICAGO, Aug. 23.—Detectives from the central station entered a flat in Sangamon street and arrested Mrs. John Hodges and Joseph Aber, who it is said, eloped from Winnipeg Junction, Minn., a week ago Saturday.
