THESE DRAW LANDS AT DEVILS LAKE

FULL LIST OF THE 600 WINNERS IS GIVEN

Lottery Is Successfully Conducted Under the Direction of General Land Commissioner Richards-- Bruce M. Warren, of Forest River, N. D., is the First Name Drawn-- Reserve List of Four Hundred Names Is Taken Out

Special to The Globe

DEVILS LAKE, N. D., Aug. 24.—The great Devils Lake Indian reservation lottery practically closed tonight when the names of the winners were drawn. There are few claims less than 600 on the reservation. By tonight the winners were all drawn from the list. Then 400 names were drawn but not announced. These are reserved lists which will be kept secret until it is known whether or not all the winners take advantage of their right and file. If they do not file, from the next 400 after the first 600 winners' names will be used in the order drawn and notified of their right to file.

It was hardly 9 o'clock when the curtain on the stage of the local armory arose and disclosed Commissioner Richards, Judge Wakely and James Twamley, with clerks, and boys to draw the names. Howard Maher was elected to draw the first name and he selected an envelope from the wheel which was churned frequently after the envelopes had been placed in it, before the eyes of the armory full of people.

The name in the envelope was Bruce M. Warren, twenty-two years of age, of Forest River, N. D. Then alternately Howard Maher and Frankie Prosser, boys selected to draw the names, took envelopes from the wheel and the 100 winners were read to the public by Commissioner Richards, and the next 500 drawn were simply carefully examined by the committee and the names given the government clerks, who afterwards gave them to the press and posted the list outside the armory. There were no disturbances, and the lottery moved along quickly and most fairly. Commencing tomorrow the rest of the names not winners will be drawn and unlucky persons notified of the order in which their names were drawn and that they did not win.

The following St. Paul men were among the winners:

Jacob O. Tammer, James F. Kain, Daniel Leaf, Matthew F. Ryan, James H. Bell, Fred Blase, Thomas Sheier, J. T. Zak, Edward J. Cody, Christian Borkus, Henry H. Timme, John O. Dalell.

TROOPS ARE WANTED

Talk of Using Federal Soldiers in Omaha Strike

OMAHA, Neb., Aug. 24.—T. J. Mahoney, one of the attorneys for the South Omaha packing interests, today stated that efforts were making by his clients and their associates to have federal troops stationed at South Omaha and along the railroads leading to Omaha over which the packers are running morning and evening a chartered train for the accommodation of their present workmen. The packers' representative claims this course has been determined on for several reasons, one of which is that they cannot get justice in South Omaha and that they do not wish to encumber the county court with a lot of cases which should not be brought there and by concentrating the stock troubles in one court they will be greatly simplified.

CANADA MAKES NEW TARIFF REGULATIONS

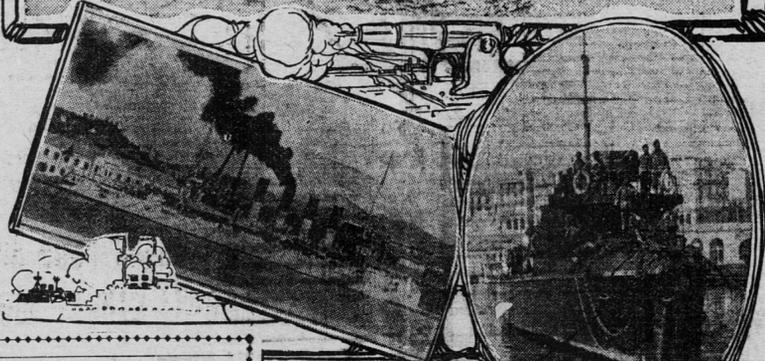

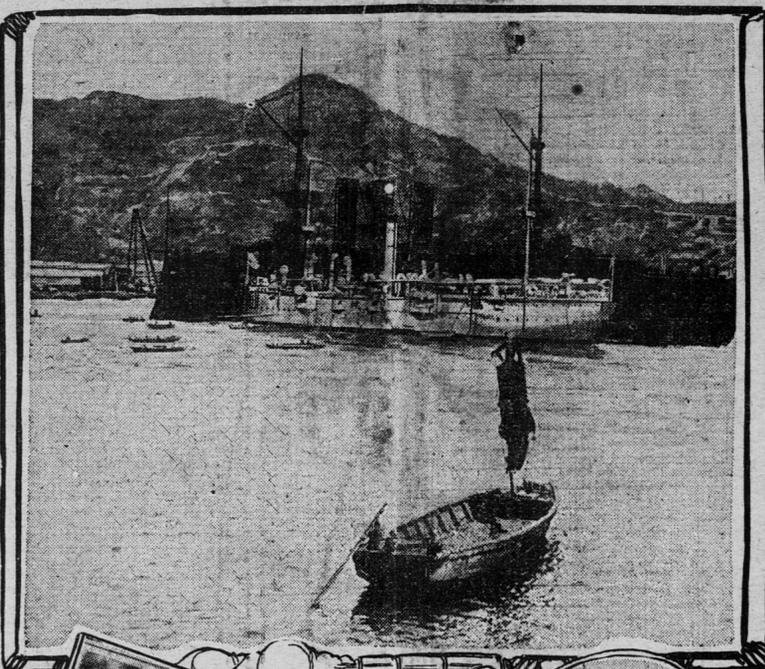

No More Drawback of Duty on Pig Iron Brought in for Manufacture

OTTAWA, Ont., Aug. 24.—The Canadian government has decided to discontinue the drawback of customs duty on any material used and wrought into or attached to any article manufactured in Canada and exported therefrom, if such article enjoys a bounty. This will apply to pig iron brought in to be manufactured into steel billets, as there is a bounty on the latter. The government has also adopted a regulation enabling articles of Canadian manufacture brought into Canada to be repaired and afterward re-exported to come in duty free. Hitherto such articles have paid duty when coming back for repair.

WAITING FOR THE CAPITULATION OF DOOMED PORT ARTHUR

GLOBE STARTS FUND FOR GOOD SHEPHERD

Will Receive Contributions for the Relief of Crippled Charitable Institution

To relieve the suffering of the unfortunate, destitute sisters and inmates of the House of the Good Shepherd incident to the recent cyclone, The Globe announces that it will take the initiative in starting a general subscription fund for the benefit of the institution.

House of the Good Shepherd Relief Fund—The Globe.....\$100.00

The object in starting this fund is to present an opportunity for private subscriptions, not only to those in St. Paul and Minneapolis, but throughout the state and the Northwest. Contributions will be received at the office of The Globe, or by H. C. McNair, Room 238 Endicott building, Mr. McNair being chairman of the relief committee appointed to aid in assisting the afflicted institution. Acknowledgment of contributions will be printed daily in The Globe.

The call for aid for the House of the Good Shepherd has gone out to the entire Northwest. An official examination of the damage inflicted at the institution by the cyclone reveals a much greater disaster than was at first supposed. The work of repairing the damage will cost \$15,000. Without assistance from the public the struggling sisters in charge of the institution are destitute and helpless, besides being weighed down with the sorrows of death.

The Sisters of the Good Shepherd desire to tender their most grateful and heartfelt thanks to the public for their kind sympathy in the recent calamity which has proved so fatal for them. Special thanks are due to the kindness of the press, and to the good neighbors, who, forgetful of their own danger, rushed to our assistance, as well as the charity of the physicians, the police force and fire department, who so promptly responded in spite of danger.

City Gives \$1,000

In recognition of the public benefactions of this institution, which is sustained without public support, the city of St. Paul has contributed \$1,000 for its relief. A committee representing the city council acting in conjunction with employees of the building

WHEAT TAKES DROP OF SEVEN CENTS

September Option Finishes Far Below the Figures of Tuesday

CLOSING PRICES Saturday \$1.19 1/2 Monday 1.15 1/2 Tuesday 1.13 Wednesday 1.06 1/2

September wheat slumped 7 cents yesterday, and the decline since the close on Saturday has been 13 1/2 cents, something almost unprecedented in the history of the grain trade in Minneapolis.

The September option opened seven-eighths of a cent below the close on Tuesday and sagged all the day, the price closing only three-eighths of a cent above the bottom.

Weakness characterized the market and there was a steady decline in the price. Heavy "stop loss" orders added to the depression and the general public seemed to be eliminated from the situation.

Experienced traders assert there is less logic in the sudden decline than there was in the skyrocket advance of the cereal.

The spring wheat crop has been badly damaged, and there is no question but that the quality has deteriorated, and with a large short interest and the condition of the Canadian crop a matter of guesswork, there is every prospect of a decided upturn to the market at any time.

Pessimistic reports are received regarding the crop on the American side of the line, and from the Canadian Northwest the returns made by the experts in the field are conflicting.

If the reports from the experts who are touring Canada are in line with the doubtful intelligence from the Dakotas, there is every prospect of a bull market which will make the last flurry pale into insignificance.

The bull leaders have cleaned up a large amount of money, but, being thrifty, they are not constrained to permit an opportunity to make more money to pass. The bulls say they are

SILENCE MORE FORTIFICATIONS

BUT THE JAPS FIRE FEWER BIG SHELLS

Belief Is That Their Ammunition Is Running Low--Final Assault Upon Port Arthur Is Near at Hand--Tokyo Already Prepares to Celebrate the Reduction of the Russian Stronghold

Special Cable to The Globe

LONDON, Aug. 24.—Two more of Port Arthur's fortifications have been silenced. They are east of Golden hill, and it is believed they are Forts Taipangtze and Chaochinko. Two Japanese Italian-built armored cruisers brought from Argentina, the Kasuga and Nishin, discovered on Tuesday, Admiral Katadko reports to Tokyo, that the Russians were shelling the Japanese land forces from those positions, steamed in close to land and after a short bombardment silenced the Russian guns. Otherwise the situation at Port Arthur is practically unchanged. The Japanese fire continues at intervals.

The Chifu correspondent of the Express wires that during the past two days fewer heavy shells have been fired into the town, which would suggest a shortage of ammunition for siege guns. The Russians are taking advantage of the lull to lay additional ground mines. The Japanese preparations for the celebration of Port Arthur's fall in Chifu have been suddenly canceled.

FINAL ASSAULT NEAR

TOKYO, Aug. 25.—The final assault on Port Arthur is believed to be imminent. Hundreds of Japanese guns continue to pour a destructive fire into the city and harbor along the lines of forts and intrenchments preparatory for the infantry assault. It is evident that the Russian lines have been weakened and partly penetrated in the vicinity of Autzshan and Itzshan forts.

The entire line of Russian defenses immediately about the harbor are within range of the Japanese guns. A number of Russian forts and batteries continue to act vigorously. The Japanese death roll will be heavily increased before these batteries are captured. The direction of the Japanese attack creates the impression that the city and defenses on either side of the harbor entrance will fall first. The final stand will be made at Laotshian.

It is believed that both sides have suffered heavy losses and that the final record will make the siege the bloodiest since Sedan. The Japanese are supremely confident of the ultimate result.

The people are everywhere decorating streets and houses and erecting arches and flagstaves in preparation for a national celebration of the expected victories.

MORE TIME FOR THE ASKOLD

SHANGHAI, Aug. 25.—Negotiations regarding the Russian warships here have taken a new turn. At 10 o'clock Tuesday morning Yuan, the taotai, requested British Consul General Warren to order work on the Askold stopped, as

PARKER ON 'PINOS

Says by "Self-Government" He Meant Independence

Special to The Globe

NEW YORK, Aug. 24.—The following letters, which are self-explanatory, were exchanged between John G. Milburn, one of President Cleveland's trusted advisers, and Judge Parker on the Philippine question:

Red Beach, East-River, Conn., Aug. 20.—My Dear Judge Parker: I have noticed in some quarters a disposition to criticize the words "self-government," used by you in connection with the future of the Philippine islands, as meaning something less than independence, and I venture to ask you if I am not right in assuming that "self-government," as you used the phrase, is identical with independence, political and territorial?

—John G. Milburn.

Rosemont, Esopus, N. Y., Aug. 22.—My Dear Milburn: You are entirely right in assuming that as I employed the phrase "self-government" it was intended to be identical with independence, political and territorial. After noting criticism referred to by you I am still unable to understand how it can be said that a people enjoy self-government while another nation may in any degree whatever control their actions. But to take away all possible opportunity for conjecture, it will be made clear in the letter of acceptance that I am in hearty accord with that plank in the Democratic platform which advocates treating the Filipinos precisely as we did the Cubans, and I also favor making the promise to them now to take such action as soon as it can prudently be done.

—Alton B. Parker.

It is announced that Henry G. Davis has decided to take the stump for an active campaign and will deliver important speeches in West Virginia and in other states which the national committee will designate. Mr. Davis will come to this city next week for a conference with the national committee, and then definite plans for his speaking tour will be made.

KEMPF IS ACCUSED

Gov. La Follette Makes Charge Against State Treasurer

MADISON, Wis., Aug. 24.—Gov. La Follette sent State Treasurer Kempf a letter today giving his reasons in detail for ordering the treasurer to furnish a larger bond, and fixing 12 o'clock Aug. 30 for the time within which it must be furnished.

The governor makes the sensational charge that the state treasurer has made personal loans from various banks which are state depositories upon personal notes and amounting to many thousands of dollars, and that such loans were extended simply because Kempf was state treasurer, the banks not refusing the loans through fear that if they did the state's money would be withdrawn from them.

The governor says that the legislature should prohibit such practices. He states that he is informed that the surety company which has furnished the present bond of the treasurer has refused to increase it to the amount desired.

RECORDS OF FIREMEN'S CONVENTIONS STOLEN

ST. LOUIS, Aug. 24.—Excitement was caused today among the delegates to the national convention of firemen when it was announced that all the records of the six conventions, including those of the present session had been stolen. The papers were in the suit case belonging to E. F. Gillen, of Chicago, the retiring secretary, and were left in the hall of congresses. When the convention was opened today it was found the suit case had been stolen. The matter was reported to the world's fair police authorities, who also informed the police department.
