too high a figure. Comparatively few changes were made in the assessment of Twin City banks. The larger institutions were left untouched. The Clark National bank, of Minneapolis, the assessment of which was \$5,200, was increased 95 per cent, and the Swedish American bank, of Minneapolis, making return of \$175,000, was increased 15 per cent. The only change in St. Paul banks was a 15 per cent increase of the Scandi-navian American bank, the assessment for which was \$43,000.

CITY NEWS

Deputy United States Marshal William H. Grimshaw Jr. will start from Minneapolis today for Spokane, Wash., having in custody F. M. Barrett, charged by the United States with conspiracy to defraud in making alleged fraudulent land entries under the timber and stone act in Montana.

Barrett is a resident of Wheaton, but was arrested some days ago by Deputy United States Marshal Converse at Browns Valley on a warrant issued at Spokane by the federal court there. At Fergus Falls he was arraigned before a United States commissioner, who held him to the district court. Barrett expressed a willingness to return to Washington to face the charge against him, and Judge William Lochren at Minneapolis yesterday made the formal order for his transfer to the Western state.

The government claims to have evidence to prove that Barrett was one of a gang of men operating in Montana, and who made entries under the terms of the timber and stone act and who were alleged to be in the employ of a lumber company. Barrett denies his guilt and is anxious to return to Spo-kane, where the alleged conspiracy was affected, and face his accusers.

In company with the deputy marshal he leaves today for the West.

### **DELEGATION TO ATTEND** IRRIGATION CONGRESS TRUSTEE WANTS FUNDS

### St. Paul Business Men Will Be Represented at North Dakota Meetings

The St. Paul Chamber of Commerce has determined to send a strong delegation of business men to the North Dakota irrigation congress which meets

at Mandan Tuesday. Accommodations have been provided for the trip and a special sleeper on the Northern Pacific has been reserved. Of the defendants in the case of Ferd Habbeger, as trustee of H. Burton Strait and Henry Schrein, bankrupt proprietors of the former Scott County

men can be assembled. Three months ago the city council passed a resolution ordering the company to remove its poles and wires from that portion of Hague avenue and in the event of failure to do so, instructed the city engineer to semove them. The company paid no attention to the order, and a month ago, at the request of property owners who want the street boulevarded, the coun-cil passed another resolution ordering the city engineer to remove the poles within fifteen days unless the com-pany complied within that time. The company replied that it had or-dered material for the construction of

underground conduits on that street, but that the material had not yet arrived and therefore the removal of the poles had been delayed. City Engineer Rundlett allowed the company more than two weeks of grace, and yester-day announced his intention of order-ing out a crew to chop down the poles. Barry Seeks Delay

Barry Seeks Delay Roland R. Barry, St. Paul manager of the company, stated last night that he had received no official notification of the city engineer's intentions. "I know nothing further than what the newspapers have said regarding the case. I will think the matter over and will later decide just what to do. The material for the conduits has been or-dered but has not arrived, unless it came in late this afternoon. At any rate we will ask for an extension of time."

time." City Engineer Rundlett when in-formed of Mr. Barry's statement, said: "I shall not again notify the com-pany. We have several times ordered it to remove the poles, and as the coun-cil has instructed me to do so if it does not, I will begin to organize a crew Monday morning to chop them down, unless I receive substantial evidence of the intention of the company to re-move the poles this fall. It must prove to me that it intends to construct the conduits this fall and place the wires underground. I will remove the poles because the order of the city council makes it necessary for me to do so." time.

### **ELECTION JUDGES MIX THEIR PAPERS**

Send Tally Sheets to City Clerk Instead of to Canvassing Board

The judges of election of the Fourth precinct of the Sixth ward were yes-terday summoned to appear before the canvassing board and supply the miss-ing returns for the Democratic candi-dates from their precinct. The tally sheets had been sent in to the city clerk, but the recapitulation sheet was missing. However, when the ballot box from that precinct was opened the sheet was found therein. The tally sheets should have been inclosed and the recapitulation sheet sent to the city clerk. As a matter of red tape the judges were required to return the sheets again in the proper manner. SPEAK AT CATHEDRAL

PIANOS! THE IMPROVED WESLEY PIANOS Are today the most popular pianos sold in the Northwest. They're the most perfect and the only first-class pianos sold at a moderate price. The tone of the Wesley Pianos of today is superior to that of most all other pianos-is sweet and musical-has that beautiful sympathetic quality that everybody admires, and many of our customers consider it equal to the tone in those sold at \$500 and over. The construction and durability of the "Improved" Wesley is wonderful. One of the very finest piano actions made is used in

the construction of these pianos; the very best grade of ivory keys is used; the best imported musical piano wire is used, and the best felts and hammers. All the latest improvements in piano manufacture are used in its construction, including brass flange in the action, built-up pin block, cases solid hardwood and double veneered, and finished up the equal to any piano made. It's the only first-class piano sold in the Northwest at a moderate price. Terms, **\$25** cash as a first payment, and **\$10** per month, or 5 per cent off for cash. Many of our customers say these pianos are the equal of pianos sold at \$400 and \$500. If you want a thoroughly good, honest piano at an honest price, buy a Wesley and you will have satisfaction. Old pianos and organs taken in part pay for new Wesley Pianos. Every Wesley Piano is guaranteed for 10 years.

WESLEY

# WHAT OTHERS SAY:

The following are copies of some of the letters we have received regarding our Wesley Pianos. Opinions of those artists who have used the "Wesley" should prove the most convincing testimony of the good qualitles of our instrument.

Clarence A. Marshall, director Northwestern Conservatory of Music, Minneapolis, Minn.—"We are now using several of your WESLEY pianos in the conservatory. They give excellent satisfaction to teachers and students, being a better instrument for the grade and price than we have used in the past."

Miss Mary S. Furber, one of St. Paul's most prominent instrumental teachers, and graduate of the New England Conservatory of Music, Bos-tom-"About two years ago I traded my old Steinway in part pay for a WESLEY plano, and will say that I am agreably surprised in my bargain. The WESLEY is undoubtedly the best medium grade plano in this country, and in tone, action and every detail is as fine as any plano I have ever seen costing from \$100 to \$200 more. I am satisfied and delighted with my plano, and shall recommend it to my triends." Prof. W. A. Wheaton, teacher of plano, organist Central Presbyterian church and Mt. Zlon synagogue, St. Paul—"In reference to the WESLEY plano I am now using in my studio, will say that I am very much delighted with it, and wish to congratulate you upon having the agency for so fine a plano at a moderate price. I find its tone to be very superior, and one that would appeal to a musical taste, while the action is just right. If my recom-mendation will assist you at any time, I shall be glad to give it."

Mr. W. H. Elsinger, of W. H. El-singer & Co. "The Golden Rule." St. Paul... "The Wesley Upright Plano we purchased from you four years ago. for use in our sheet music department, has given us perfect satisfaction. When we purchased same, we did not think any plano would stand the hard use for more than two years and fully expected to purchase a new one at the expiration of that time. After four years of hard use and nine hours a day for five days per week and thir-teen hours on Saturdays, we find the above mentioned plano as good as new. Furthermore, these years of playing was done mostly by gentlemen, and it is considered that they are very much harder on a plano than ladies. We cheerfully recommend the Wesley plano to anyone wanting a thoroughly good plano." Prof. Arthur C. Koerner, in charge of music at the Minnesota State Agri-cultural college, and organist First Baptist church, St. Paul- "I have used one of your WESLEY planos in my studio for a little less than two years, and have found it to be an excellent instrument in every respect. It has a beautiful tone, and stands in tune well. I shall be glad to recommend it to anyone desiring to purchase a rattling good plano at a medium price."

Mrs. A. D. Gaines, School of Agri-culture, University of Minnesota, St. Anthony Park, Minn., a prominent mu-sician-"The WESLEY piano that I have been using during the past year is of good tone and action, and stands in tone remarkably well. I am much pleased with it."

Prof. W. R. Stoll, teacher of vocal culture, St. Paul, Minn.—"Permit me to express my perfect satisfaction with the new WESLEY plano which I bought of you last wek. Although being very critical in regard to planos, I find this instrument exquisite in tone, quality and touch, and especially well adapted for accompanying the first of all instruments—the human voice."

Prof. H. E. Phillips, professor of music, Macalester college, St. Paul, and one of the most prominent mu-sicians in the Northwest—"I take pleasure in writing you of the esteem in which I hold your WESLEY pianos. Have used them a great many times and have always been gratified with their unusually fine quality of tone. I have noticed the great strides you have made in their improvement, un-til today I know of no plano of medium grade that surpasses them. The new styles are handsome in construction, and to anyone desiring a strictly good plano, not costing a big sum, I recom-mend the WESLEY."

Prof. George Seibert, conductor and manager Seibert's orchestra and mili-tary band. St. Paul--''I have had one of your WESLEY planos in my home for more than a year and have given it a fair trial. Have found it entirely satisfactory, and it is all and more than you claim for it."

S. W. Raudenbush & Co., City-Dear Sirs: I am well pleased with the WESLEY piano. It has a sweet musical tone and a light, sympathetic action and stands in tune well. Yours respectfully, C. G. TITCOMB.

Prof. Louis Rosenberger, teacher of piano, St. Paul-"I am very much pleased with the WESLEY piano in every particular. No one could wish for a finer one. Its tone is powerful and sweet. It has a beautiful finish of both case and interior."

J. M. Hall. expert piano tuner, St. Paul--''I have tuned a great many WESLEY pianos and I find them a strictly good piano. In touch, tone and workmanship they really approach a high-grade piano in every respect. I have been a practical piano tuner and repairer for thirty years and know a good piano, and can conscientiously recommend the WESLEY."

C. E. Madson, living near Stillwater, and William Ohman, who resides on the Dodd road, were thrown from Ohman's wagon while riding to the city yesterday morning from Ohman's farm. The horses became violent and upset the wagon at Cherokee avenue and Ohio street, and the two men were dashed to the ground. Ohman escaped with bruises, but

Madson, who is seventy-four years old and minus one arm, sustained a frac-ture of the shoulderblade. Madson was taken to the city physician's office in the Ducas street 'patrol wagon and was then removed to his home.

Nugent, of Liverpool, as guest of Archbishop Ire-land, and will deliver a series of lec-tures at the Cathedral this week on church history in England. Monday evening he will speak on "Wolsey and the Divorce;" Tuesday, "What Edward VI. Did With the Cath-olic Literature;" Wednesday, "The Elizabethan Settlement of Religion;" Friday, "Anglican Ordination." He will speak next Sunday evening due. The complainant entered a demurrer, stating that the evidence submitted did not substantiate the action of the de-fendants and asked for a special hear-ing, which was granted by Judge Lewis yesterday. Arguments were sub-mitted, but the hearing was adjourned before completion of the pleading, and will be continued again tomorrow. If Judge Lewis decides against the plaintiff, the case will be appealed.

He will speak next Sunday evening at the Gathedral, but his topic has not yet been selected. The lectures will commence at 8 p. m. and admission will be free. The Rt. Rev. Nugent will speak at the 10:30 mass at the Cathe-dral today. dral today.

**MENDOTA FARMER HAS** NARROW ESCAPE

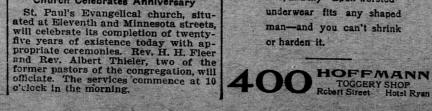

Judge Lewis yesterday granted two applications for change of name. Henry Gunderson asked for permission to change his name to Henrik G. Engum. Carl J. Peterson wanted his name changed to Carl J. Both men changed their names on coming to this country, and by rea-son of the frequency of the names they adopted they have often been confused with other persons bearing like names. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local rem-edies, and by constantly failing to cure with local treatment, pronounced it in-curable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarth Cure, manufactured by F. J.
