FULLERTON KICKS TO ADD JAP GARDEN

Says Peterson Case Will Be Expensive Follage From Japan

To Beautify Como Park

The law is perfectly plain, said Executive Agent S. F. Fullerton yesterday, referring to the decision given by Municipal Judge Dickinson in Minneapolis, that certain game seized there as having been shipped illegally should be restored to the owner, J. A. Peterson, a former county attorney of Hennepin county.

"We have not only followed the explicit provisions of the law," Mr. Fullerton added, "but we have been guided by the advice of H. Griggs, attorney for the game and fish commission, and by the opinion also of the attorney general."

"Mr. Peterson shipped to himself birds that he had killed. Now, this is clearly prohibited. The game law says, 'no person shall ship or cause to be shipped to any person within or without the state any of the game mentioned.'"

"This law was enacted to prevent the shipping of game for sale. If a man were allowed to ship freely to himself he could easily arrange that game intended for sale might be so shipped and then delivered to a commission merchant."

"Of course, if Mr. Peterson had come to us and convinced us that he wanted the game for his own use only we should have consented to let him have it. We do not want to deprive any citizen of Minnesota of the personal use of game he has killed himself according to law."

"But in order to prevent the possible shipment of game out of the state, and in order to discourage pothunters, it is our duty to seize all game that is shipped in the state, no matter who the nominal consignee may be. We can find out afterwards who he actually is."

"Mr. Peterson says he will sue me for damages, but he'll do nothing of the sort. We shall appeal, of course, from Judge Dickinson's decision, and we shall also prosecute Mr. Peterson for violating the state law."

Fire Damages Dwelling Fire of unknown origin broke out in the residence of A. C. Lindquist, 939 Euclid street, when no one was at home, at 7:30 p. m. The blaze was discovered by a neighbor, who called the fire department.

The fire started in a bedroom on the second floor and burned a hole through the wall. The damage amounted to \$75.

IMMIGRANTS SEEK CONGENIAL CLIMATE

Statistics Show Big Scandinavian Influx Into North Dakota and Washington

During the fiscal year which ended June 30 the statistics of the United States immigration department show that 15,947 new arrivals gave their places of ultimate residence as Montana, North Dakota and Washington. Of these states Washington has 8,324 and North Dakota 5,523.

More than a third of the total immigration into these states was from the Scandinavian countries, Sweden, Norway and Denmark. The figures for the three states are 5,687. The Scandinavians are welcomed with open arms in that section on account of their pliability and adaptability to the conditions.

Choose Similar Climates That immigration follows latitudinal lines is strongly indicated in the report. The three states received 12,257 immigrants from four countries, namely, Japan, Germany, Scandinavia and Greece. Each of these countries lies approximately in the latitude of the Northwestern states, and the combined immigration from them is about 80 per cent of the whole.

To further emphasize the fact that men in seeking new homes choose a land similar in climate to the one they leave, the report goes on to say that of the immigrants from the Pacific states, 1,751 of the immigrants, it exceeded either of the other states of the union in the number of immigrants.

Each of the last group of countries mentioned has a much milder climate than either of the Northwestern states, with the exception of the Western slope of Washington, and the bulk of the influx to that section is very largely Japanese. While Montana only received 1,751 of the immigrants, it exceeded either of the other states of the union in the number of immigrants.

It is the capitalistic class which makes prostitution and brings us to realize the fact that the gambler and the rumseller flourishes in our midst. It is the grand palaces of the rich which tempt the eyes of the poor.

It is the gold of the rich which enables the gambler to thrive and incidentally takes away the mite of the poor. It is the gold of the rich which makes the stream of unfortunates nightly wandering down the lanes to the red light districts.

I do not expect to be elected president of the United States this year, but I can tell you that the election of either Parker or Roosevelt will mean another four years of subjection on the part of the working masses.

WITHOUT HOPES OF ELECTED DEBS REGISTERS HIS PROTEST

Socialistic Candidate for President Addresses Large-Paying Audience and Takes a Fling at Both Old Parties as Well as Capital - Declares Labor Has Not Sense Enough to Elect Him and Profit by His Administration

"The present dominant political parties have reached the stage where their usefulness is a thing of the past; where their prolonged corruption of every moral whereby the integrity of our great country should be preserved is a thing of the past, and the time has arrived when socialism and public ownership of the vast wealth producing faculties of our land is an acknowledged fact," said Eugene V. Debs, candidate of the Socialist party for the presidency, at a large crowd at Mozart hall last night.

Mr. Debs visited St. Paul in the interests of his party and for the purpose of furthering his candidacy in the direction of the White House. An admission fee was charged, which probably accounts for the fact that the hall was filled to overflowing, and every individual stayed until the last word was uttered, and Debs had rushed away to address another meeting.

In the audience appeared a large delegation of the fair sex, and they listened to the speaker with the closest attention. Debs Holds Attention

One moment Mr. Debs' impassioned utterances against what he characterized as the scourge of modern mankind - the capitalist - so worked up the hearers that the appearance of a representative of the class would result in an incipient riot. Then again the earnestness of the man causes even the most stolid listener to lean forward in his chair, and gasp out his wonderment at the glittering array of facts with which Debs so freely intersperses his speech.

In the next utterance Mr. Debs is explaining the conditions under which the mine workers of Pennsylvania live and die. The rich scoundrel, containing in every breath a world of sympathy, as the speaker pours out tales of the sufferings, the privations and the horrors which surround the miners, brings tears to the eyes of the crowd, and strong men attempt to hide their emotions.

Waiting for the proper effect, Mr. Debs will begin a tirade of biting sarcasm against the individuals who are known to be great industrial captains. He places them in the most humiliating positions, draws similes which convey his audacity with laughter, and instantly makes them feel that his cause is theirs.

Impartial Roasts "Democracy is long ago forgotten," he said last night. "The Democratic party has ceased to exist. The Republican party is fighting in its own ranks, and the old-line Republicans, led by Roosevelt, the tool of trusts, is fighting the newly organized wing of the party, the party of the crowd, and under the leadership of that perceptive traitor, Parker. Multi-millionaire firebrands is on one ticket against the party of the crowd, and the multi-millionaire Davis on the other."

"To the victor belongs the spoils. The Republicans win, and you, the workingman, loses. The Democrats win, and you, the workingman, loses. You are in the wrong. But you will continue to slave on, toiling out your life blood for the benefit of the capitalist class, and that you may support a class of multi-millionaire capitalists, who own their private yachts, their special cars, their mansions and whose sole occupation is spending the results of your life work."

"I do not blame the capitalist. America will be a free land in reality as well as in name."

NEWS OF THE CITY SEES THE WORLD'S FAIR IN ONE DAY

Secretary Stine, of Commercial Club, Tells How He Did It Economically

The problem, how to see the world's fair in one day, was solved by C. P. Stine, of the Commercial club early this week, while he was in St. Louis. Mr. Stine returned yesterday and declares that he saw the whole fair Monday.

"I reached St. Louis Sunday night," said Mr. Stine, "and took quarters at the Inside Inn, which I consider one of the wonders of the century. The hotel has accommodations for 6,000 persons and can feed 3,000 at a sitting without cramping anybody."

"The fair had been open the day I arrived, which was the first Sunday during the season when the gates have been passable to the general public. In the evening I should judge that 20,000 persons gathered in and about the hotel to hear the sacred concert that was given on one of the verandas. After listening to the music I went to bed and the first thing in the morning after breakfast I went out and hunted up the Minnesota state building."

"This is a fine, artistic structure and compares very well with other state buildings on the grounds. There are no exhibits in the state building, and its spacious quarters are used simply as a meeting place and headquarters for the Minnesota visitors. There is an adequate postoffice in the building, and thousands of visitors from the state have made considerable use of it during their sojourn in St. Louis."

LOSS OF LEG FATAL

Mrs. Steinmueller Fails to Survive Amputation of Limb

Mrs. Steinmueller, wife of Edward Steinmueller, of the German road, Dakota county, near St. Paul, died yesterday morning at St. Joseph's hospital, from blood poisoning, caused by the rupture of a blood vessel in her right leg.

The leg was amputated last Friday in an attempt to save her life but she was unable to survive. She had been suffering from the rupture since three weeks ago and last week her condition became so serious that she was removed to the hospital.

Mrs. Steinmueller was seventy-three years old, and had lived in Minnesota twenty-one years. She is survived by three daughters, Mrs. Anton Webber, Mrs. Herman Friesel and Mrs. William Apgar, and three sons, Hugo, Emil and Edward Steinmueller. The funeral will be held from the residence of Mrs. Apgar, 914 Armstrong street, Saturday afternoon at 2:30 o'clock.

BIRDS FAIL TO REACH THE CITY PHYSICIAN

Shipped by Former Patient at City Hospital, They Are Seized at Depot

The intended testimonial of gratitude in the form of "birds"-kind and number not specified-which a former patient at the city hospital wished to give to the house physicians and nurses at that institution will never be delivered.

"I got a letter Monday," said Dr. A. B. Ancker, city physician, explaining the matter yesterday. "This letter was from one of our old patients here at the hospital, who has practically recovered and gone out on a hunting trip. He wrote that he was sending some 'birds' to me to be distributed among the internes and the nurses. I telephoned down to the express office and asked if there was any game there for me."

"Well, there was some Saturday," the agent answered, "but the game warden have seized it. Illegal to ship game in this state."

"That's all I know about it," concluded Dr. Ancker. "It is understood that the game consisted of twenty ducks and ten partridges, and that they were seized at the local office of the Northern Pacific Express company."
