

CITY NEWS

Supreme Court Naturalizes Henry Roth—Henry Roth was admitted to citizenship yesterday by the state supreme court.

Gasoline Stove Explodes—The explosion of a gasoline stove at the residence of Frank Schmidt, 127 University avenue, yesterday afternoon, caused a fire which damaged the house slightly.

Fined \$10 for Intruding Upon Another's Home—Thomas McHugh was yesterday sent to the workhouse for ten days for entering the home of J. Thompson, 332 Pleasant avenue, while in a drunken condition Tuesday afternoon.

To Discuss Charter Amendments—A meeting of the West End Improvement association will be held Friday evening, Nov. 4, at St. Francis hall, corner of James and Broadway streets. The charter amendments will be the subject under discussion.

Janitor Stricken With Heart Failure—Andrew Johnson, janitor of the Omaha freight house, Prince street, was stricken with heart failure while at work yesterday and was removed to his home, 26 Phalen creek, in the police ambulance. His condition was serious.

First State Bank of St. Joseph Authorized—The First State Bank of St. Joseph has been authorized by publication of the new German consul, Hanns E. Grunow, by the German Americans of St. Paul.

Will Inquire Into Window Smasher's Sanity—James Foster, a man coming from Minneapolis, who went on a window smashing tour in the retail district Tuesday night, was arraigned in police court yesterday, and his case was continued until Friday for the purpose of having him examined as to his sanity.

THREE BIG MEETINGS

Johnson Will Address Democrats Saturday Night

John A. Johnson, Democratic candidate for governor, will on Saturday evening, make three speeches in St. Paul, appearing in the Eighth, Fourth and Second wards, and when he has concluded his address in the Second ward he will have completed his personal efforts in Ramsey county.

In a general way the plan of the Tuesday evening meetings, which proved so successful in the past, is to have the candidate make the meetings in an automobile, accompanied by local candidates and others. The first speech of the evening will be made in St. Bernard's hall, Albemarle and Rose streets, beginning at 8 o'clock. From there he will go into the Fourth ward, the downtown section, of the city, speaking in the Swiss Casino hall, Third and Minnesota streets.

From there Mr. Johnson will go to Luckner's hall, Forest and Margaret streets, in the Second ward, and making his final appeal to the voters of St. Paul. Judging from the manner in which the programme was carried out Tuesday evening, it will not be difficult to make the three meetings, good local speakers being furnished the Fourth and Second ward meetings until Mr. Johnson reaches the court house.

It is believed by the state and county Democratic committees that the Saturday evening meetings will be more successful than those of Tuesday. Hundreds of people who have heard of the able arguments of the candidate and of the favorable impression that was made upon the voters, desire to hear him speak, and the county committee was yesterday besieged with requests that seats be reserved at the different meetings for the applicant. The committee ruled that this would be impossible, and the best seats will go to those who first reach the halls.

County's Appeal Submitted

The case of M. N. Webber, respondent, against the board of county commissioners of Ramsey county, appellant, was submitted on briefs yesterday to the state supreme court. The sum claimed is a balance of \$72, alleged to be due him as part of the county's one-half of the cost of repairing and decorating the court house. A jury awarded him the sum claimed in May, 1903. The county appealed.

APPLES!

School's specials are in a class by themselves. Visitors and shoppers are always welcomed to the "apple round." The more you shop and compare the more our offering will appeal to you. "HOCH DEER KASER" SHOWED AT RECEPTION TO CONSUL GRUNOW

German-Americans Welcome New Representative of Germany With Typical Banquet and Exercises—Consul in Speech Says That Central Bund Saved Rupture With United States at Manila and In Samoa—Mozart Hall Filled With Representative Citizens

Quaint old German folk songs resounded through the Mozart hall, so long the "halle Germania" in St. Paul, last night, when 250 true and staid Germans gathered around the board, awakening memories of the good old fatherland, left behind, but not forgotten. It was the occasion of the reception of the new German consul, Hanns E. Grunow, by the German Americans of St. Paul.

The hall was decorated with smiles and ivy, and the flags and banners of the German societies of the city hung pendant from the walls, while on the tables stood huge vases of flowers and palms. Everywhere were displayed the national colors of the German empire, even to the bottles on the tables, which bore, securely fastened beneath the labels, small red, white and black ribbons.

The style of reception so dear to the heart of the student of old Heidelberg. There were no confusing courses involving long delays, nor might it even have been staid, however—sandwiches, caviar, lamb, tongue, chicken and endless other varieties, but it played an unimportant part, serving merely as a foundation for the good old "Hoffbrau" and "lager" of legendary fame.

A Real "Kommers" The corks popped merrily, musically the glass tinkled as the fluid ceaselessly bubbled into the glasses; and one might not take his eyes from a half-filled bottle, for by some magic art it was suddenly whisked away and then again a full, fresh sealed bottle would be restored to its place.

When the speakers had ceased—and there were many—each speaking in German, all arose, and, glasses in hand, lent a willing ear to the stirring words of "Die Wacht am Rhein," "Die Lorelei," "Das ist Das Deutsche Vaterland" and "Das Sternbanner" which were the hall notes of the night.

Consul Grunow at the termination of the reception expressed himself as highly delighted at the manner in which the evening had passed. "It was typically German," he said, "and you are not lacking Germans in this country. But for the knowledge that this is a new country, I would think I was back again in my own land. Ah, those Germans! They are the same the world over."

H. J. Niensdett, president of the German-American Central Bund, in the auspices of which the reception was given, made the opening address, welcoming all, and especially Consul Grunow. He then turned to the speaker, thus made the address of welcome in behalf of the German-Americans of the city and of the state, of which he said there were 50,000, many of whom came here as pioneers and helped build the state.

Grunow's Speech Consul Grunow responded, thanking him in behalf of himself and the country he represented. "That the hearty reception I have met with here tonight was not meant primarily for me personally—but for the country I represent. I am here not only to safeguard

the pamphlet reminds readers, for example, that this city is the center of a railway system the mileage of which is more than 54,000 miles; and that the trade field of the St. Paul manufacturer includes 2,500,000 square miles and a population of nearly 25,000,000 persons.

A MATTER OF HEALTH

Inspectors Ask More School Funds Estimate Runs \$35,000 Higher for Maintenance Than Last Year's

The board of school inspectors last evening decided to ask the conference committee and city council for \$75,000 for the schools during 1905, of which amount \$25,000 is to pay for repairs and improvements damaged by the tornado, leaving the amount asked for the maintenance of the schools \$35,000 more than a year ago.

Supt. Smith and Secretary Savard had prepared an estimate asking for \$82,000 in the aggregate, but this was cut at several points, and the sum reduced to the amount mentioned. Instead of providing for fifty-eight-room buildings in the Seventh and First ward it was decided that but one such building should be erected during the coming year, this to be placed where the conditions show that it is most needed.

It was proposed to spend \$4,500 improving the plumbing in the Baker and Madison schools, and this sum was cut out. Numerous other items were either reduced or cut from the budget.

What List Includes The items as prepared and agreed upon ultimately were: Teachers' salaries (424 teachers), \$470,000. Supervisors and assistant superintendents, \$5,000. Heating plants, \$7,500. Schedule advance for last four months of 1905, \$7,500. Salaries of engineers and janitors, \$4,500. Fuel, \$36,000. Supplies, \$10,000. Mechanics and laborers, \$17,500. Material for repairs and miscellaneous, \$20,500. Four-room addition to Whittier, \$16,000. Four-room addition to Hancock, \$17,000. Eight-room building in First and Seventh ward, \$36,000. Rice, \$5,000. Water, \$6,000. Sibley, \$2,000. New Plumbing—Franklin, \$2,000. German, \$2,000. Jefferson, \$2,000. Lincoln, \$2,000. Monroe, \$2,000.

Total for maintenance, new buildings, etc., \$750,000. Expense of repairing buildings damaged by tornado, \$25,000. Total appropriation required, \$775,000.

Twenty Less Teachers This means that the teaching force will next year be reduced twenty, as compared with the staff now employed, this being made possible by putting in force the recently adopted rule that the superintendent shall so arrange the pupils that each teacher will instruct forty-five pupils. Supt. Smith said that with an increase equal to that of the present year the decrease in the number of school teachers will require that each teacher instruct an average of forty-two pupils. A comparison of the amounts to be raised for the different purposes for 1904 and 1905 is here given:

Comparative Figures 1904. 1905. New buildings, etc., \$105,000 \$102,500. Salaries of teachers, etc., \$62,500 \$74,623. Engineers and janitors, 45,500 50,000. Fuel, 36,000 31,000. Supplies, water, light, 25,000 19,000. Mechanics and laborers, 17,500 15,000. Repairs and miscellaneous, 20,500 22,877. Tornado repairs, 25,000. Totals, \$775,000 \$716,000.

"I do not believe that we dare ask for a greater amount than is specified," said President Holman. "It should be our purpose to ask for just sufficient to support the schools in good condition. In this provision there is \$38,000 for the repair of buildings. I believe this work is necessary, but in several cases where repairs should be made in the near future no provision is made. All the work cannot be done at one time, it being the purpose to keep down the amount to the lowest possible point."

Inspectors Egan, Lindahl and Boeringer agreed that it would not be good policy to ask for more than the amount specified, as this sum would leave \$675,000 to be raised by taxation after the \$100,000 bond issue has been realized.

Woman Wanders Barefooted Wandering about in her bare feet, Mrs. Constantina Gollages, living on Virginia avenue, was picked up by the police of the Rondo street station yesterday afternoon, and was sent to the county jail for an examination as to her sanity. Dr. E. A. Meyerling, assistant city physician, examined her, but found that she was not demented, and ordered her released.

Woman Wanders Barefooted (Continued) "Having made up my mind that the plan should be tried," said Mr. Haas, "I did not believe that there was anything to be gained by having a hearing. It will now be possible to learn whether the competition will reduce the bids for paving."

Butt's Campaign Cost Him \$120 Charles Butt, who was a candidate for district judge at the recent primaries, filed his expense account yesterday afternoon at the county auditor's office. Mr. Butt's plunge into the political game set him back just \$120, the greater part of which was for lithographic work.

Woman Wanders Barefooted (Continued) "I do not believe that we dare ask for a greater amount than is specified," said President Holman. "It should be our purpose to ask for just sufficient to support the schools in good condition. In this provision there is \$38,000 for the repair of buildings. WOMAN KILLED ON ROCK ISLAND TRACKS

Mrs. William Bell, Aged 62, Is Run Over and Dies at Hospital

Mrs. William Bell, sixty-two years old, living at 237 East Water street, was run down and fatally injured while attempting to cross the Rock Island tracks near the freight house on the West side yesterday evening shortly after 6 o'clock. Her right leg was crushed, and it was amputated below the knee last night at the city hospital. She died at 2 o'clock this morning.

Mrs. Bell was returning to her home, and when about the cross the tracks she found her way blocked by a freight car which stood on the crossing. She waited a while, a string of cars was pulled along a track near the freight house, and when it was switched onto another track she made an effort to hurry over before it reached the crossing. A switchman on the rear car called to her to stop, but she ran ahead, and before she could clear the track she was struck and thrown to the ground, the wheels passing over her.

The train was immediately stopped and the train crew and yardmen carried her into the freight house. The Ducais street police were notified and the patrol wagon was sent to convey her to the city hospital.

William Bell, husband of the woman, is a laborer. A son, David Bell, resides with his parents. The family has lived on the West side two years. An accident similar to that of last night's three weeks ago, when Mrs. Anna O'Donnell, sixty-eight years old, was run down and one of her arms was so badly crushed that it had to be amputated.

Mrs. Bell was returned to her home, and when about the cross the tracks she found her way blocked by a freight car which stood on the crossing. She waited a while, a string of cars was pulled along a track near the freight house, and when it was switched onto another track she made an effort to hurry over before it reached the crossing. STREET RAILWAY TAX CASE IS SUBMITTED

Judge Kelly Will Decide Dispute Between Ramsey Co. and Corporation

The dispute relative to an increase of Ramsey county's taxes against the St. Paul City Railway company made by the state board of equalization, was submitted through counsel to Judge Kelly in the district court yesterday afternoon, and the matter taken under advisement.

The first return of the company called for taxes on an assessment of \$2,145,705, while the state board increased the amount to \$2,128,758. The taxes, on this amount, \$31,645.55, have been increased by the addition of the 10 per cent penalty to over \$100,000. The company was represented by Attorney M. D. Munn.

The national and state elections are not the only elections interesting Northwest people, for today the Dominion of Canada settles the question of the Laurier government's continuance in power, and what is regarded as even of more importance, the building of the Grand Trunk Pacific railroad from Nova Scotia to Winnipeg.

If the present government is sustained the road will be built within the next few years. Timothy Foley, of the St. Paul railroad contracting firm of Foley Bros., which has large railroad contracts, present and prospective, in Canada, is interested in the result of the balloting in the dominion today.

"The elections tomorrow throughout Canada will settle the question of the building of the Grand Trunk," he said yesterday. "If the Laurier government is sustained the road will be built, and I think it is a safe proposition that both questions will carry. The Laurier government will be returned and the big railroad project will be immediately entered upon. Not only we, but many other Northwestern firms are interested in the outcome of the elections in Canada tomorrow."

Woman Wanders Barefooted (Continued) "Having made up my mind that the plan should be tried," said Mr. Haas, "I did not believe that there was anything to be gained by having a hearing. It will now be possible to learn whether the competition will reduce the bids for paving."

Butt's Campaign Cost Him \$120 (Continued) Charles Butt, who was a candidate for district judge at the recent primaries, filed his expense account yesterday afternoon at the county auditor's office. Mr. Butt's plunge into the political game set him back just \$120, the greater part of which was for lithographic work.

F. W. BERGMEIER Who Acted as Toastmaster at Banquet.

the interests of our international commerce but to establish closer relations between Germany and America. I am to you as a draft—the value of the paper is all the true value lies in what it represents. Whether this draft is a good one or not is left for you to determine. Time will tell, and I think that I can assure you that I will strive to prove of worth to all and be accepted as face value. It was due to the good work done by your central bund during the trouble in Samoa, and in the Philippines that open rupture was averted between my country and the United States, and this consulate represented by me was established by the emperor to further the good feeling that exists between the Germans of this country and the United States together, Germany and the United States together, can withstand the world, and no European power can sever the present friendly relations.

Dr. G. Stamm, consul for Switzerland, spoke in a witty manner of the universal use of the German tongue, and stated that it was spread more by the common immigrant than any other class. The manner in which the Germans cling to their old folk songs and their catechism, he said, was responsible for the perpetuation of the tongue in countries foreign to them.

Prof. B. W. Boenish spoke of the German-American press as the apostle of culture and instructor of the German immigrant, teaching him the ways and manners of the new country.

Hermann Scheffer praised the German household, speaking of her as the ideal wife and mother. "Die Deutsche Frau," he said, taught the American mothers how to decorate the Christmas tree.

Versatility of Germans P. H. Middents spoke of the German turners and of the good work they had done in this country, and welcomed the new consul on their behalf.

Julius Morsch told of how the German-American had always stepped to the front in the times of crisis in their adopted country, and how thousands of them had laid down their lives for their country, might still exist as a union, and said that the present generation was willing to do it again. He called the attention of those present to the fact that the man who subdued the Spanish fleet at Santiago was of German extraction, and cited numerous other instances in the lives of famous men, showing that a strain of German blood was not a detriment.

Carl Harpke outlined the purpose and history of the German Sons Lodge, and was followed by Louis Eitz, city councillor, who spoke of the German as an ambitious man, showing that the German by his truth and steadfastness was invariably selected to hold public office.

Dr. Justus Ohngren, in a tremendous round of his value, mentioned the resolution passed by the central bund at the time of the Samoan difficulty with Germany, asking the government to ease the difficulty amicably at all costs. This was done and much credit reflected on the central bund.

The committee in charge of the affair consisted of: H. Niensdett, Julius Morsch, Oscar Schuler, Hugo Eitz, L. F. Schulz, F. O. Schulz and H. C. Schuler.
