MODERATE RALPH ROSE DISCOURSES ON COE

California Shot Putter Doesn't Think Much of Easterner's Record

HEALDSBURG, Cal., March 26.—In a letter received recently by an intimate friend of Ralph W. Rose, the young phenominal shot putter from this city, who holds several amateur world's records for tossing the 12 and 24 pound shot, and until March 16, the 16 pound shot record, the well known athlete, who is now in Chicago, says in part: "I suppose you have no doubt seen in the papers where an eastern shot putter named Wesley W. Coe Jr., who is from Somerville, Mass., succeeded in smashing my 16 pound shot put record—which was 48 feet 7 inches—by 'shoving the pill' a distance of 49 feet 2 inches. "Now, as to the shot itself, instead of weighing the required 16 pounds, it only weighed 15.6 pounds. The meet in which Coe put was in his home town. Now, not wishing to brag, I am going to say that if I was making a record in Healdsburg I could make 60 feet like a 'pibe' (i. e., if you had hold of the tape, 'ain't it?")

WILL PLAY LACROSSE

Colleges Form League to Determine the Championship

Special to The Globe NEW YORK, March 26.—Lacrosse is likely to gain considerably this year through the merger effected between the two heretofore separate college leagues which has been completed. By the new arrangement the Intercollegiate Lacrosse League, comprising Harvard, Cornell, Columbia and Pennsylvania, and the Intercollegiate Lacrosse League, made up of Yale, Swarthmore, Johns Hopkins and Princeton, have formed a joint body to be known as the United States Intercollegiate Lacrosse Association. The new organization will act as yet another league. A separate schedule between the colleges will be maintained for the north and south, but the winners in each season will meet at the close of the season. At another meeting of delegates, to be held soon, officers for the new association will be elected, and uniform playing rules provided for.

TALKS OF HAS BEENS

Willie Keeler Says Game Is Much Faster Today

Special to The Globe NEW YORK, March 26.—"Willie" Keeler of the New York American league team, who is now teaching the baseball candidates how to bat, does not believe the players of ten or twenty years ago were so good as those of the present day. "It is quite natural," said Keeler, "for the crack players of twenty years ago to think they played the game a little better than the present generation of boys. No doubt the oldtime players were just as athletic, strong, speedy and brainy as any of the players in the ranks now, but the difference in the science of the sport. That has improved so much that the old fellows would be long if they were to attempt to play the game as it is played today. "For example, suppose the Chicago White Stockings of the early eighties, composed of Anson, Kelley, Gore, Doolittle, Pfeiffer, Burns and others, could be brought back today and put on the field in their championship form in those days. Let them play the game just as they did when they were champions. Then take the Boston or New York Americans or Giants, or any other first class modern team of twenty years ago and new teams play a series. What would be the result? Why, the old chaps would be smothered. "Modern tactics would be altogether too much for them. The wider sweep a man makes with his bat, the less certainty there is of meeting the ball at the proper point of the stick, and that is a few inches from the bat. By taking a short hold on the stick and not making a wide swing the batter is able to hit a sharp curve and at the same time avoid all danger of smashing his fingers."

CRACKS WILL BOWL

Wolf and Mountain to Meet for Purse and Side Bet

DAYTON, O., March 26.—Secretary Sam Knapp of the national bowling congress tonight announced the arrangements of the series of thirty games between Phil Wolf of St. Joseph, Mo., and Charles Mountain of Chicago for \$500 a side with a side bet of \$1,000. The first series will be played at New York, Philadelphia, Pittsburgh or Fort Worth between May 10 and 15. The return series will be played at New York, Philadelphia, Pittsburgh or Fort Worth between May 15 and 20. The money will be posted at Chicago May 4 with Frank E. W. Strachan, secretary of the series, who will investigate the alleys from which bids were made.

HEMPHILL IS BALKY

Ball Player Refuses to Sign Contract With Saints

YOUNGSTOWN, O., March 26.—Charles Hemphill, who was sold by the St. Louis American league team to the St. Paul American association team, has refused to sign the contract forwarded by the St. Paul team. It is understood that there is a difference of some \$300 in the figure on the contract and what he thinks he should receive.

BRITISH POLITICIANS TO PLAY FISHERMEN

Novel Golf Game Has Been Arranged for Members of Parliament

Special Cable to The Globe LONDON, March 26.—A Macconachie member of parliament has arranged a novel golf match between a team of members of the house of commons and one of the north of Scotland. It has Mr. Balfour's sympathy, and he probably will play part in the game, which will be played in April. Sir Henry Seton-Farr, M. P., has promised to captain the politicians and Mr. Macconachie will bring his fishermen to the course which will be chosen either at Sandwich, Deal or Mitcham. The teams will be either eight in number or not fewer than six. The fishermen are from Gairnburgh and Inverloch, and are members of a golf club numbering 300. The club has never been beaten on its own course, but when a team visited Prestonsians it was defeated.

STAPLES HIGH SCHOOL WINS

STAPLES, Minn., March 26.—The Staples high school basketball team defeated the Perham high school team at this point last night by a score of 18 to 12. The Staples team recently defeated the staff team of Atkin by a score of 27 to 21. The Staples team has won three out of four games played the season and has one of the strongest teams in this part of the country.

Marathon Race Course Picked ST. LOUIS, March 26.—After the several proposed courses of the St. Louis Marathon race had been thoroughly inspected today by a committee of the Amateur Athletic Association, under the auspices of the race will be run, route for the contest was officially selected. The start will be from the Y. M. C. A. clubhouse in St. Louis, thence over the Eads bridge into Illinois, through the city of St. Charles, to the county finishing at the clubhouse. All except two miles of the course is level.

PLAN DOUBLE TEAM

Wolverines May Send Relay Bunches to Pennsylvania

ANN ARBOR, Mich., March 26.—That Michigan will send a four mile relay team to the Pennsylvania meet is almost certain. Now the half mile runners want to arrange a team for the two mile relay race and be taken there also. "They will have to show me that they can average 2:02," said Director Fitzpatrick, "before we can consider it." Last Saturday night Hamey ran the half in 2:01, with Wait close behind him. On their present showing they should be able to do under 2:00 outdoors. "I would not mind two places there is good material. Waldeck did under 2:05 in the varsity indoor meet, and another fast man could be picked from among Capt. Rebeck, Goodwin, Warner and McKinney. The record in the two mile relay was made by Pennsylvania in 1902, when that team covered the distance in 8:04 4-5, an average of 2:01 1-2.

PASS UP WINNIPEG

Voters Pick All Canada Hockey Team in East

Special to The Globe MONTREAL, March 26.—In a general vote for the all-Canadian hockey team for 1905 the following players were selected: Morgan, goal, Quebec; Palford, point, Ottawa; Moore, cover, Ottawa; Bowie, cover, Victoria; McCree, center, Ottawa; Russell, left wing, Ottawa; and Gilmour, right wing, Ottawa. Two substitutes, one for defense and the other for the line, were also chosen. W. Strachan, of the Wanderers, was the substitute selected for the defense, and Westwick of the Ottawas for the line. In the number of players selected from our club, the Ottawas, the Stanley cup holders, were easily first, securing four of the seven positions on the team. The Victorias of this city were second with two players, the other going to Quebec.

RUSSIAN MILLIONS BORE BRITISH CORRESPONDENT

LONDON, March 27.—The St. Petersburg correspondent of the Mail reports that he accepted the invitation of Finance Minister Kozlovskoff to inspect the reserves of gold in the state bank, and describes his visit to that institution. He says: "The bank officials made much ceremony of unlocking the gates of the strong room, but the actual view of \$325,000,000 of gold was found a supremely uninteresting, tedious and depressing spectacle. Over 12,500 sacks of gold coin stacked in rows on the floor of the long vault looked no more impressive than sacks of merchandise in an ordinary warehouse, whilst 15,913 gold ingots closely packed on shelves like a library less suggested their value than the shelves of an ironmonger's store. It had the effect of a dodo in a subdued yellow tone, not unattractive as a color scheme taken in combination with the gray canvas sacks and the white ceiling. The officials invited the correspondent to count and verify the contents of the sacks and shelves. That naturally was impossible, but he had not the slightest doubt that the amount represented in the reserve figures was there."

LISTEN TO STYLES FOR DOGS THIS SEASON

Canines Must Have Kid Boots, Silk Laces and Motoring Outfits

LONDON.—The coming season will emphasize the craze for miniature dogs in general, and Foxgloves, in particular. The season's outfits for these pampered pets of society are now on view. "There is a constant change in fashion for pet dogs," explains a well known dog's outfitter yesterday. "This season the dog of smart society has its kid boots fastened with silk laces which make the color of its coat. "There is an unusually large variety of dog coats, made in Scotch plaids for everyday wear, and in white cloth for pet dogs. The most elaborate are brodered in gold thread for smart occasions. "Motoring outfits for dogs are another thing. They include gaiters, a tiny pair of goggles and a coat of gray flannel coat finished with narrow blue ribbon braid and little brass buttons. For instance, a dog's collar, which may be turned up to protect the back of the little dog's head. "Some of the newest dog's coats are made of kid, with a high wind collar, which are engraved with the names of the dog and its owner. Another pretty novelty is of soft green leather set with turquoises.

HOME OF WIDOW, ENEMY OF SALOONS, DYNAMITED

Opposition to Them Is Reason Assigned for Attempt on Woman's Life

HAZLETON, Pa.—Because she had been a witness in several remonstrances against saloons in the borough of West Hazleton, in which the court refused to renew the licenses, is the reason assigned for the dynamiting of the home of Mrs. Antonia Boettger being dynamited at an early hour this morning. Mrs. Boettger is a widow with three children, and has been a prominent applicant for licenses was dynamited the dynamite was thrown on the porch roof, and had Mrs. Boettger gone to the home of Mrs. Antonia Boettger being dynamited at an early hour this morning. The house was wrecked, and the woman cut by flying glass.

WHOLE WORLD USES BARREL FOR ITS MAIL

It is Nailed to a Tree on Island in Straits of Magellan

WASHINGTON.—The postoffice department has received a curious inquiry from a man in Ohio who wants to know if there is any place where a barrel is used as a postoffice. He says he is preparing for a vacation, and the postoffice is the matter was looked up in the department, and a reply was sent saying that a postoffice in a barrel was used on the southern coast of South America, and used as a postoffice. Ships passing there drop their mail in the barrel, and it is taken out and forwarded by the next ship which comes along bound in the direction of the letter's address. Sailors have found it a great convenience. It is interesting in character, and all flags carry the mails from it free of charge. It is probably the only legitimate postoffice in the world without a postmaster.

PEASANTS DECLARE WAR

TIFLIS, March 26.—As a climax of a fortnight's rioting in villages of the Schorapan district, a band of 800 armed men presented the authorities a formidable list of demands for local secretaries declared themselves in complete solidarity with the revolutionary party and fixed March 27 as the time limit for the satisfaction of their demands, after which they would accord themselves freedom of action. A battalion of troops has been sent to restore order.

TRIP TO CORNER FIREARMS

WARSAW, March 26.—A revolutionary movement of considerable proportions is making itself manifest in connection with the industrial strike in the region around Siedlec, Bielsk, Wlodzlawsk, Rodin and Lukow, south and southeast of Warsaw. The country has been flooded with proclamations of day en route to the Naraham barracks. They were transferred at the Omori station, avoiding the city. There were no crowds and consequently there was no demonstration. The prisoners are poorly clothed.

PEACE TREATY WILL KILL RUSSIAN NAVY

Continued From First Page Paris may have been the channel through which the results were transmitted to St. Petersburg and Tokyo. However, it is not clear whether there has not been the slightest reference in French newspapers to the peace movement having taken tangible form here or elsewhere, except in continued academic discussion of the peace propaganda and a few vague St. Petersburg dispatches showing that peace is in the air.

RUSSIANS INCREASE TAXES

ST. PETERSBURG, March 26.—The Gazette of Commerce and Industry states that a 2 per cent tax will be levied on the salaries of officials from May 14. The death tax is increased 50 per cent, the tax on beer 23 per cent, on matches 100 per cent, on foreign goods 71 per cent, and on homemade yeast 100 per cent. Naptha refuse will be taxed 60 kopecks per pound.

BOY AND GIRL UNIONS CAUSE INFANTS' DEATH

Expert Says Weddings of Immature Lead to Race Suicide

LONDON.—In his annual report, which has just been issued, the medical officer of health for Tottenham, Dr. Butler-Hogon, refers to boy and girl marriages, which he says, are so common in the district. He states that these contribute largely to the infant death rate, as well as to the poverty of certain quarters of Tottenham. "It is a sad sight to see the red Indian in a woman's English towns. He chose a woman for his squaw who could cook his food, suckle his children, make his moccasins and even repair his wigwam. The wretched lad of our towns married a tawdry girl, who could, as a rule, do none of these things or what corresponded to them in civilized society. The savage of the prairie was truer to the animal, the savage of the pavement falsified to the man. It was from the latter class that those children proceeded who were 'bold, pert and dirty as a London sparrow,' who were precocious in all the 'smart' vices of a new century, who checked the 'governor,' who despised or ignored the 'old woman,' who tolerated their teachers, who abhorred their superiors and who, in a word, were virtuously wanting in the old fashioned virtues of truth, courtesy and reverence.

PRESIDENT PLAYS JOKE ON CULLOM

Makes Bargain With Senator, Then Shows Him Illinois Has Fared Too Well

WASHINGTON.—The joke is on Senator Cullom. It is a good, big joke, which the senator from Illinois enjoys as heartily as does the president of the United States, who perpetrated it. Mr. Roosevelt is very fond of Senator Cullom. He always is willing to do anything he can for the Illinois statesman. Since the adjournment of the senate Mr. Cullom has done quite a little prospecting in the interest of constituents who desire jobs. He went to the president a day or two ago with a request that one of his Illinois friends be taken care of in a consular place. "Senator," replied the president, "it would please me greatly to do it, but do you know that Illinois' quota already is more than full some rasicals have been securing appointments and charging them up to us when they don't belong to us."

Makes Bargain With President

"All right," said the president, in response to this offer and very positive dictum of Mr. Cullom. "I'll tell you what I'll do. You make up a list of the appointments that have been run in on you without your knowledge and consent and you and I will divide them."

"It's a bargain," said Mr. Cullom. Perhaps the Illinois senator did not observe the merry twinkle in the president's eye at any rate, he left the white house with a serious purpose in view, and that very day he had his clerical force begin an exhaustive examination of the records to find how many positions Illinois has in the government service, and whether or not any of the incumbents are improperly charged to Illinois. When the list was presented to Mr. Cullom its length startled him. In fact, it was an outrageously long list of names.

"But wait," said the senator. "Here's a fellow I never heard of before. He doesn't belong to us." "Are you sure?" asked his secretary. Cullom Astonished at Illinois List

"Seems to me, since I come to think of it, that I have heard of that name," he said. His secretary reminded him that he had been in congress long time, and on—in fact, since back in 1865. "Yes," Mr. Cullom reluctantly admitted.

Magistrate Ommen Refuses to Permit Accused Man to Be Photographed

NEW YORK.—Magistrate Ommen established a precedent in refusing to permit Oscar E. Johnson, accused of arson and robbery, to be photographed in the rogues' gallery. Johnson was held in \$10,000 bail on the charges in connection with the fire in the home of W. Gould Brokaw, the millionaire automobile and club man, at 774 Madison avenue, on Feb. 21.

Magistrate Ommen told Detectives Maguire and Bouser it was improper to put a man's picture in the rogues' gallery until he was convicted of a crime.
