JOHN REX WINS.

Jury Gave Him Verdict in Suit Over A Horse

The famous horse trial between Hon. E. L. Moore and Ex-Treasurer Rex came to an end about 11:30, Wednesday evening. The jury brought in a verdict for the defendant. Two witnesses were examined, at the session after supper. Mr. Rex was placed upon the stand by the defense and Mr. Moore followed him in rebuttal. The general trend of the evidence seemed to show that the mare, which the defendant sold to the plaintiff, was a gentle animal when the sale was made, and that she unquestionably did misbehave while the plaintiff owned her. The point at issue in the arguments of the attorneys was whether the mare actually was as Mr. Rex represented her when the sale was made. Hon. Thos W. Martin and Hon. S. N. VanPool addressed the jury upon behalf of the defense and City Attorney Timmonds and Hon. John B. Cagle spoke for the plaintiff. The jury seemed to be convinced that Mr. Rex was telling the truth about the animal, when he sold it as they deliberated about fifteen minutes and brought in a decision in favor of the defendant. The jurors were Alderman Lockwood, Frank Trace, Wm. Clemens, Irvin Broadhurst, W. H. Hedge and John Young. We are informed as to whether or not Mr. Moore will appeal the case. It is worth while to observe that the case was tried strictly upon its merits. There was no bitterness or personal feeling exhibited upon either side. Mr. Rex now owns the mare having purchased her for \$120, from Del Campbell, to whom Mr. Moore traded her.—Lamar Democrat.

Chas Stith the well known farmer living a mile east of the city has our thanks for some fine apples which he brought in Saturday. They were the finest apples that we have yet seen this year and was grown in Mr. Stith's new orchard. They were large yellow apples as free from defections as it is possible to see. Mr Stith was unable to tell as to the variety of the fruit, and the only thing he regrets is that there were only a small number on the trees.

WETTEST JULY ON RECORD.

Nearly 16 Inches Of Rain During Month Just Closed.

The month of July which ended Tuesday, says the Press was the wettest July on record in this part of the country. The total rainfall for the month was 15.71 inches of which 7.53 inches, or just about one half, fell in the last third of the month. The heaviest rainfall in any one period was on the night of the 19th and the morning of the 20th when it measured 4.29 inches. "This was the rain which was followed by the disastrous flood in Spring river and other neighboring streams on the 20th. The month has also shown more variation in temperature than usual, including some of the hottest and coolest July weather ever known here. There have been an unusual number of hot nights here lately too, cool nights being the rule here all through the summer, almost without exception. Last summer there was an unusually wet period in which something over 14 inches of water fell in a little less than 30 days. But the period was not included in any one month. It occurred the latter part of June and first part of July, hindering wheat and oats cutting so much it will be remembered."

The features of the game were four double play and a triple play by the Jasperians. A triple play is seldom heard of in base ball and this one was made by Fields stopping a grounder and throwing it to third, and the third baseman throwing it to second and second throwing it to first in time to put the batter out.

Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at Webb Bros. drug store price 50c

A WOMAN HOBO FOUND.

Is Camped On A Lonely Byroad South Of Town—May Be Insane.

Jasper parties who happened to be on the freight train on their way to Carthage Thursday noticed a woman seemingly well dressed muddle up under a tree near the railroad track evidently taking a nap. This was probably the woman spoken of by the Press in the following: "Yesterday Mark Jacobs, the hobo buyer of this city reported to the police that he had noticed what appeared to be a woman hobo camped beside a lonely byroad about three miles north of town. He had noticed her in going to his farm which is reached by this road. It so happened that word had been received here yesterday to look out for a crazy woman from Columbus, Kansas, and this woman answered the description. Officer Drake and Mr Jacobs drove out to the woman's camp yesterday evening, expecting to find her, but she was away, probably on a foraging expedition. In the weeds and brush beside the road the woman has arranged a sleeping place under a big tree. The weeds are woven after a fashion into a sort of screen. Here probably judging from appearance, the woman has been for a week or 2 months a rude rustic bower of her own construction. Remains of a fire among the rocks near by showed where she had been cooking her meals. Some remnants of bananas and roasting are showed that she had drawn on both town and country for sustenance. The place will be watched and it is thought that the strange woman will be found later, and some reason found for her adopting such a primitive mode of life."

TEMPERANCE COLUMN

Conducted by the W. C. T. U.

From Munsey's August number is quoted the following: "If you wish to know the present political strength of prohibition take a map of the United States, purchase it with forty-five hundred pins, and place it with 400 pins of ink and distribute it with three lines ribbon. Every pin hole represents a town or city in which no whiskey is sold. For every blue there is a prohibition society. For every blue ribbon there is a prohibition society. One of 25,000,000 people in the month 11 million are for prohibition. Illinois heads the list with seven hundred non drinking communities. A Dr. Lousday said the selling of liquor either on Sunday or on week days is not a necessity."

VALISE FOUND.

One Lost By Mr. Dacher Is Back Branch.

James Webb and H. Mott two Carthage young men went out on back branch Sunday afternoon looking for a cow, and at a point on the branch about a half mile below Chas. Ross's farm they discovered a suit case bearing the name of H. M. Dacher, a Jasper man. Mr. Dacher it will be remembered is one of the Nebraska friends of H. T. Frost of this city, who had a cow upon and the house destroyed in Ross branch at the Chas. Ross crossing the day of the flood. The name was of course faintly water soaked and faded when found Sunday. It was not open and left behind and the clothes were taken out and saved. The contents were five dollars, a tin of underwear and some other articles of clothing. They were brought to town and Mr. Dacher notified by mail.
