TEMPERANCE COLUMN

Conducted by the W. C. T. U.

Don't you know a Real Estate agent will boom up a town and tell of the number of churches and schools and business facilities and never say a word about the saloon?

What would you think of a Chautauqua Assembly having a saloon on the ground?

You can take any number of Magazines, Journals and Newspapers including the Jasper News and never see a whi-key advertisement in them.

You can get sick and go to hospitals such as Battle Creek and W. C. T. U. hospital in Chicago and get well without the use of whisky as a medicine.

You can go to the polls and vote. (The men people of the U.S.) and there find an Anti-Saloon ticket.

You can go to the State Penitentiary and find there twenty-six hundred men who never taste a drop of whiskey.

So taking all these things under consideration there must be something the matter with the whiskey business. Come out to our institute on April 22 and 23 and wake up an interest in this great problem before the American people today. We need your prayers, your help, your influence. This question will never be settled until settled right. The sooner it is settled, the better it will be for our children.
