TEMPERANCE COLUMN

Conducted by the W. C. T. U.

Whats the matter with Mr. M? He's got the chills. What gave him chills? Mosquito bites. Where did the mosquitoes come from? The rainwater barrel. Why didn't he keep a lid on it? He did on Sunday and after midnight. How is he going to get cured? Why he has learned that if he puts coal oil on the rain water it will kill the mosquitoes by decaying the water. What made him get drunk? Alcohol in the water. He drank and the mosquitoes took. Did he hurt any one when drunk? Yes. He beat his children and broke the best dishes his wife had and frightened her nearly to death. Does he know when sober what made him drunk? Yes, and then he does nothing but get drunk again. How is he going to get cured of Alcoholism? Can he cure himself? Can Uncle Sam cure him or prevent the disease by denaturing all the alcohol made? Isn't drunkenness more dangerous than chills and fevers? Shouldn't Christian America try to have a man when he dies die sober? When graves are decorated with a black flag would be put on every drunkards grave it would be a startling sight and the Bible says, "No drunkard shall enter the Kingdom of Heaven." (As far as the Liquor Traffic is concerned we wish "Every day will be Sunday bye and bye."

Notice To The Public

I wish to announce to the citizens of Jasper and vicinity that the report being circulated that I agreed with anyone to handle nothing but Bakery goods is false.

The statement was made as an excuse for selling 8 loaves of bread for 25 cents, and to prejudice the minds of the people against a home industry that every loyal citizen should take pride in and give it their support.

Thanking the people of Jasper and vicinity for their liberal patronage in the past and soliciting a share of their trade in the future, I am.

Respetitfully yours for "A Squar Deal."
