TOO MUCH MONEY.

In Chicago, recently, a thirteen year old boy found the door of a grocery store to be unlocked, and the store deserted. He entered and found \$1,100 in the safe. As he told the judge in the juvenile court, that was too much money, so he put it back and locked the safe so burglars wouldn't get it. He found \$50 in a till, this being nearer his size, he took it and made his departure.

Two young men in Ohio are said to have solved the problem of aerial navigation, which they are keeping a secret for some reason that is not fully explained. They claim to be able to fly when they want to, but perhaps they are like the toper who can stop toper when he wants to. He never wants to.

THE United States District Court for Oklahoma has decided that possums are not game animals, and may be hunted at any time. If the colored brother is paying any attention to the fitness of things he will at once extend to that court assurances of his distinguished consideration.

BECAUSE he thought he could not be a Christian and a politician at the same time, a man in Wyoming declined a political office. He has an erroneous idea. A man may be a Christian and a politician at the same time. It merely depends on the kind of a politician he is.

THE big corn crop in Kansas is causing some of the farmers in that state considerable trouble, as they are unable to get sufficient men to husk the crop. Already requests have been sent out from a number of counties for corn-huskers.

Too Much

A letter mentioning a certain gentleman as good material out of which to make a candidate has been received at this office. We consider it as the quintessence of gall, inasmuch as neither the name of the writer nor that of the party boosted appears on the subscription list of the Democrat. We are ready to do our share, and then some, toward the election of the ticket, but to ask our assistance in boosting for office a man too stingy to take a county newspaper is carrying things to a point where the line has been drawn and all beyond is dead stuff.—Ocala (Mo.) What The Editor Gets.

"A child is born in a neighborhood; the attending physician gets \$10. The editor gives the mouthed youngster and the happy parents a send off and gets \$0. When it is christened the minister gets \$10, the editor gets \$0. It grows up and marries. The editor publishes another long winded article, and tells a dozen lies about the 'beau' and accomplished bride; the minister gets \$10 and a piece of cake and the editor gets \$0. In the course of time it dies. The doctor gets from \$25 to \$100, the undertaker gets from \$50 to \$100; the editor publishes a notice of the death and an obituary two columns long, lodge and society resolutions, a lot of poetry and a free card of thanks, and gets \$0.00. No wonder so many editors get rich."—Ex.

Pays to Advertise

The advertising account of the Jones dry goods company of Kansas City with the Star and Times last year amounted to \$156,000 or an average of \$127.30 a day. The Jones company began business a few years ago in a modest way and today their store in Kansas City occupies one block and their business is something enormous. Yet some people say newspaper advertising does not pay. Ask Jones.—Ex.

Modern Thrashing.

Thirty years ago thrashing time was the most strenuous occasions that came to the farmers annual experience and was something that was dreaded as much by the women of the house as by the farmer himself, as it required two or three days to thrash the common crop; With fifteen and twenty men and as many teams to be fed and housed. The stacks of fried chicken and apple pie that disappeared during those troublous days, was something wonderful to behold. This is now all changed. The thrashing crew come down the road with their whole outfit on train, pull in alongside of the stack and in ten minutes are at work, and no one is surprised if they are thrashing ten bushels a minute. The sheaves being fed automatically the thrashed grain runs directly into the farmers wagons, the straw being stacked automatically, taking away most of the laborious and dirty part of the work of the old times. For the average farmer one day cleans up the whole job, and the thrashers move on to the next setting.—Implement Age.

The Roosevelt Riding Habit.

The horse reigns supreme in that part of the country where fashion is dominated by high officials set in which Mrs. Roosevelt reigns. Those who cling to the lazy method of the auto car are hopelessly out of it this autumn. The habits worn by Mrs. Roosevelt and her friends are extremely simple and correspondingly becoming. The yellow, the red, the green and white robes of seasons past are no more. Mrs. Roosevelt, who takes a twenty to twenty-five mile ride every pleasant afternoon, wears a snug fitting black cloth, cut along conventional lines, with a small sailor of black straw and a loose flowing veil. A linen collar and four in hand tie of dark green and white are the only embellishment. The same attire is worn by Mrs. Roosevelt's companions, usually Mrs. Lowndes and Miss Tucker-mann. Miss Ethel Roosevelt, who has been promoted from her calico pony to a pretty little bay mare, wears a habit of mixed black and white tweed, with an Alpine hat of white, with Scotch plaid ribbon rosette. She always has a knot of red, white, and blue ribbon attached to her whip.—New York Press.
