

# The Great Round Oak

## The Stove for the Millions.

**A**RE you bothered with clinkers? Then you'll rejoice to learn that there's a stove that doesn't make them. The ROUND OAK, with its double fire pot for coal, with con- grate at bottom, makes the formation of Clinkers a chemical impossibility.

Won't your stove keep fire? Will it keep it from Saturday night to Monday morning? Does it burn a steady, even fire? There's a stove that will—the Round Oak.

Will your stove burn Anything—hard or soft coal, slack, wood, ANYTHING in the way of fuel—and give you absolutely no trouble? The Round Oak will do that very thing, wonderful though it seems.

Does your stove burn ALL the fuel? The Round Oak does, and does it economically.

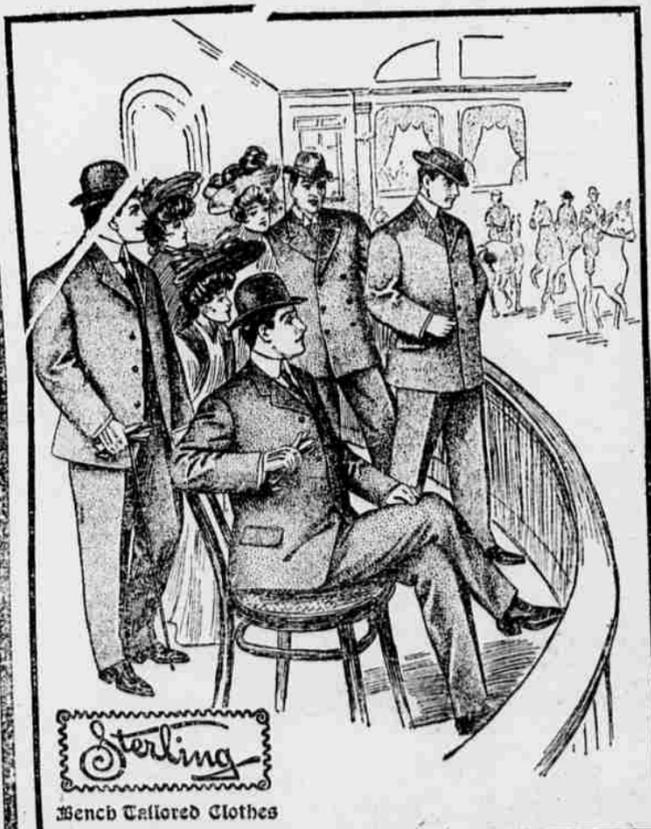

**Yes, the ROUND OAK does all these things, and it does more:** It burns all the gases and black smoke. It makes a hotter fire from the same fuel. It is the simplest, easiest handled stove made. **It has the famous ROUND OAK single-piece bottom, and outside ash-pan,** the value of which will at once appeal to anyone who has to attend to a stove. It disgusts you with inferior stoves that will neither keep fire nor maintain a uniform temperature, that fatten the fuel bill and make no end of trouble; and convinces you in less than no time that the Round Oak is the stove to buy. **BUY IT NOW.**

**5-A Horse Blankets:** We know of no article sold in which quality counts inferior blanket that will fall to pieces after a little hard usage is virtually to throw money away. "5-A" Horse Blankets, by virtue of their length-of-wear are really the cheapest blanket sold.

# Wolf Hardware Co.

Jasper's 2 Big Days--Oct. 25 and 26

## Why You Should Wear STERLING Clothes

**Sterling**  
Men's Tailored Clothes

**B**ECAUSE they are backed up by a house with an established reputation for strictly honorable dealing. Briefly put, they are honestly made.

**B**ECAUSE the maker's and dealer's guarantee goes with every garment. Clothing insurance, as it were.

**B**ECAUSE they look better, wear better and fit better than any other clothes sold at anything like the price. Wearing quality considered, they are really the cheapest clothes you can buy.

There are other reasons, too—plenty of them.

## Add Joyce.

How about that new Raincoat? Get it now.
