W. C. Kyle is preparing to move his family out to Los Angeles about Oct. 15th. On Tuesday next, the 12th, he will hold a public sale at his farm to dispose of his stock, farming machinery and household goods. Mr. Kyle will not engage in farming in California, preferring for the present to make his home in town. Later he thinks he may try orange farming, but the price of land out in those parts is so terrific that very few buy land except as an investment and it doesn't look like the best investment in the world at that. Mr. Kyle prefers to leave his money here on interest to spending it on California land.

The Red Sox didn't go to Carterville to play ball Sunday. The Carterville management called the game off on account of the Joplin-Kansas City game at former place on the same day. It was feared the attendance would all be drawn to Joplin and the Carterville team thus put "in the hole."

The list is valuable on any farm whether the grower intends to be an exhibitor or not, giving as it does the classifications of grains and grasses in a standard way.

Hi Vincent will probably be laid up for several months as a result of an accident that befell him one day last week out on his farm north of town. He was painting his house when the accident occurred, and was high up on a ladder, which stood on a bench. This bench overturned and Mr. Vincent got a very heavy fall, suffering an ankle fracture and dislocation. Dr. Schooler says, of the worst nature. He is doing very well at present, but, as stated, will not be able to be about for some time to come.

Cut Prices on "Square Deal" and Elwood Fencing

"Square Deal" is the ideal wire fencing. It is the strongest, most durable fence made, because of its patented features, the one-piece stay and the wave-line strand, possessed by no other fence. In Square Deal fence the stay is ONE PIECE from top to bottom, giving an increased power of resistance that enables it to stand with less posts or give better service with same posts than any cut stay fence. Elasticity, expansion and contraction are secured by the wave-line strand, which keeps it tight and trim at any temperature and enables it to withstand shocks that would injure a less elastic fence.

Until Oct. 1st we will sell Square Deal fencing at these figures:

20-in., with 6-in. stay, per rod, 17c.
26-in., " 6-in. " " 23c.
32-in., " 6-in. " " 25c.

ELWOOD FENCE.

18-in., with 6-in. stay, per rod, 16c.

Plenty of barbed wire at prices that will look good.
