The New Hercules Buggies

THE KIND THAT SELL

It looks like everybody was in the market this spring for Hercules Buggies the "Good Kind." We have always found that when we got hold of something good at a popular price it would sell. It is sure the case with the good kind of Hercules Buggy with the nicest bed on the market, bent corners, strong reach, wrought iron grooved fifth wheel, exceptionable well braced shafts, and the price we are making is right. Look us over and if we can't save you money don't trade with us.

HERETOFORE in this column we have been telling you about good things to eat, but now we want to say that we would appreciate it if a few parties who have been owing us for a long time would drop in and square up. It takes a lot of money to keep up a stock of meat and a large stock of groceries, and we need all that is due us.
