In 1875 she moved to Illinois with her parents, and in 1894 she married Chas. J. Awick at Edinburg, Ill.

Deceased is survived by her husband, two sons, her sister Miss Rachael Ginther, and four brothers.

She united with the German Lutheran Church in 1893 and was a consistent member until her death. She was a faithful and devoted wife and mother and devoted her life to her family. Her husband and sons and sister, who lives with the family, have the sympathy of the community in their bereavement.

But Some Can Do It.

How does an old bachelor make love, anyway? Surely after one has been encrusted with the dust and toughness of three-score years or more he can't reel off that baby talk that is so foolish and sweet in the ruddy morning of life.

DIAMOND.

Mrs. CHARLES ELTING.

The wolf hunt that took place Tuesday was not much of a success as far as the killing of wolves, but the men and boys came out and the lines were much stronger than the last hunt. There was thought to have been about 250 men in the hunt. Two wolves and one red fox was seen, but they were near the outside of the circle and the lines were not strong enough then to keep them in. Mr. Senseney of near Nashville, brought a wolf over he caught, and had kept for a year. A circle was made by the men and it was turned loose and some hounds belonging to Mr. Wright and Chas. Mc Daniels were turned loose to catch it, but it was a tame race. A collie that had been on the hunt all morning caught it. The great trouble with our wolf hunts is that too many like to see the round-up and don't start in on the lines and make them strong enough.

Sam Parkerson is visiting with home folks.

B. Ingle and wife entertained the following Sunday: Chas. Elting and family, Jessie, Nellie, and Rachel Hane.

Mrs. Deniston is much improved. She is able to be up some now.

Theo. Mitchell and family visited relatives Sunday.

Chas. Nett is having some hedge cut on his farm this week.

Mr. Parkerson is erecting some new buildings on his farm and is planning to move to same in a short time.

Your Last Chance.

Recently we published in these columns an offer of The Youth's Companion and McCall's Magazine, both for a full year, for only \$2.10, including a McCall Dress Pattern. The high price of paper and ink has obliged McCall's Magazine to raise their subscription price February 1 to 10 cents a copy and 75 cents a year—so that the offer at the above price must be withdrawn.

Until March 31 our readers have the privilege of ordering both publications for a full year, including the choice of any 15 cent McCall Dress Pattern, for only \$2.10.

The amount of reading, information and entertainment contained in the fifty-two issues of The Youth's Companion and the value of twelve monthly fashion numbers of McCall's at \$2.10 offer a real bargain to every reader of this paper. This two-at-one-price offer includes:

1. Youth's Companion—52 issues.
2. Companion 1917 Home Calendar.
3. McCall's Magazine—12 fashion numbers.

LITTLE DANGER OF APPRAISING IT TOO HIGHLY

So Hannibal Woman Says of Tanlac—"Best on the Market," She Declares.

Hannibal, Mo., January 25. "Tanlac is the best medicine ever put on the market," was the convincing evidence recently submitted by Mrs. Martha Frisby, well known Hannibal woman of 414 Riverside street. "I can't praise it too highly," she added.

"Stomach trouble was my chief worry," Mrs. Frisby continued, "Rheumatism bothered me at times and my kidneys were out of shape. My appetite was poor and the little food I managed to eat didn't agree with me. I couldn't sleep at night. My condition became so severe that I was unable to do my work."

"A friend told me about Tanlac and I bought a bottle of the medicine. The rheumatism is a great deal better and my stomach feels fine, now. I have a hearty appetite and can eat anything I care for as the food digests properly now. My kidneys are in much better condition, also. I can do my work without any trouble now."

"Tanlac is certainly wonderful and I want other people to know about it."

Tanlac is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, sleeplessness, loss of appetite and the like.

Tanlac is now being specially introduced and explained in Jasper at H. F. Pitts'.

His Vocation.

"I gave that youngster of mine a toy printing-press, a steam engine, a xylophone, a box of paints, and some other things to find out whether his tastes were artistic, mechanical, literary, or what—but the test didn't work." "Why, what did he do with them?" "Smashed them all up." "Why man, it's as clear as day—he's going to be a furniture mover."—Boston Transcript.

Pebble Industry.

The flint pebble industry gives occupation to many women and children along the French coast between Havre and Dieppe. The pebbles collected in and near Havre are selected for their spherical shape, and are used for pulverizing in certain industries, particularly in the manufacture of cement and in copper mines, being employed in the interior of large cylinders.
