**Daily Thought.**  
 As turning the logs will make a dull  
 fire burn, so changes of studies a dull  
 brain.—I n-fellow.

**To Keep Books Fresh.**  
 To prevent mold on books, place a  
 few drops of lavender and Canadian  
 balsam in the back corner of each shelf.  
 This will not injure the bindings of  
 leather books as sulphur compound  
 do, but helps to preserve the bindings.  
 The two substances are easily ob-  
 tained.

**Putting the Clock Ahead.**  
 How times have changed. The old-  
 fashioned girl who used never to sit  
 up later than nine o'clock has a daugh-  
 ter now who just starts out at nine  
 o'clock for the evening.

**Curing Insomnia.**  
 On the theory that insomnia can be  
 cured by keeping the moisture in the  
 lungs, an Englishman has invented an  
 apparatus sending warm, dry and steril-  
 ized air to be breathed.

**DEWEY.**  
**MRS. MAY MATTHEWS.**  
 Harold Estey came from Adrian and  
 spent several days visiting at home.  
 The heavy rain Sunday interfered  
 with the Sunday School session.  
 Mrs. Karis' sister, Mrs. Wolf, re-  
 turned to Illinois Saturday after a visit  
 with her brother and sister of several  
 weeks.

Mrs. Bull and Mrs. Rusk were called  
 to Mrs. Lane's in Barton County Sun-  
 day on account of her being very sick.  
 A surprise dinner on Albert Berry  
 Sunday was headed off by a heavy rain.  
 Everybody in the community was  
 ready and dinners all prepared to go to  
 his home after Sunday School. Never  
 mind, Mr. Berry, we hope you'll have  
 many more birthdays.

We are so thankful for the rain even  
 if Mr. Bob has to let his new clod masher  
 have a rest.

**Daily Thought.**  
 The formation of culture, as of char-  
 acter, is at last the moral sentiment—  
 Emerson.

**Beginning the Quarrel.**  
 Mr. Styles—"So you have changed  
 your mind?" Mrs. Styles—"Yes, I  
 have." Mr. Styles—"When did you  
 change it?" Mrs. Styles—"While I  
 was changing my dress." Mr. Styles—  
 "But it doesn't usually take as long as  
 that, dear."—Yonkers Star.

 Put some resin in an iron spoon and  
 hold it over the gas or on a hot stove  
 until thoroughly melted; then pour it  
 into the cavity in the handle and put  
 the steel rod into it. Hold it firm un-  
 til the resin is cold.
