**Knew Value of Contrast.**  
For several evenings after school my small daughter persisted in coming home with an exceedingly unkempt-looking child. Upon asking her why she was possessed to go with such a dirty child she replied: "Oh, mother, I like to go with her 'cause it makes me look cleaner than I am."—Exchange.

**Marvelous Arcturus.**  
Of a deep orange color and of the first order of brightness, Arcturus is a sun that makes our own pale in comparison as a tallow dip pales before an arc lamp. Indeed, it is thought to radiate 500 times as much light as our sun.—National Geographic Society Bulletin.

**Would Have Changed History.**  
One would have said that the momentous event of 1789 was the fall of the Bastille. Yet, on a summer day of the same year a young artillery officer, bathing in the Saone river, was seized with cramps and nearly drowned. If he had drowned, Napoleon Bonaparte would never have added a single line to the history of Europe.

**Clover Barometers.**  
The ordinary clover and all its varieties, including shamrock, are barometers. When rain is coming the leaves shut together like the shells of an oyster. For a day or two before rain comes their stems swell to an appreciable extent, and stiffen so that the leaves are borne more uprightly than usual. This stem swelling when rain is expected is a feature of many flowering grasses.

### SAVED FROM HAREM

Armenian Girls Rescued from Turks Being Taken to Near East Relief Home.

The three pretty Armenian girls in the auto are taking a real "joy ride," joyful having another meaning from that generally associated with auto riding here. They have been rescued from the harem of a Turk after four years of shameful servitude and are being taken to one of the Near East Relief rescue homes. No wonder they are smiling for the first time since their captivity. The Near East Relief is caring for many thousands of these girls until they can find their relatives. Also it is working to save 250,000 orphans and over a million adults from starvation this winter. That is why it is making a nation wide appeal for funds to carry on its noble work.

**Famous American.**  
In 1800, on the 6th of November, Admiral Stewart, an American, who won fame in the battles against French privateers and against the British in the war of 1812, died. Admiral Stewart was the grandfather of Charles Parnell.

**What She Was Making Up.**  
Virginia had been out the night before, and looked tired, so mother suggested she stay in. When John came down from her room mother said: "Well, is sister making up her mind to stay in?" He replied: "Nope. She's makin' up her face to go out."

**Alligators and Crocodiles.**  
Fourteen feet is about the limit of length for an alligator, but the crocodile is a much larger animal when full grown, specimens 30 feet long being not uncommon. Crocodile eggs, which have hard shells and look like goose eggs, are considered good to eat in the tropics.

**Tornado and Lightning  
Time is Here**
