Doggone the Dogs

Of all the pests Jasper ever had the howling dog is the worst. They bark all night, they chase our cats, in fact they are a curse. If we could have our way and make it to our mayor clear we would have ever last one of them ground into fertilizer.

We notice the increased freight rate granted by the commission amounts to about 85% and will probably take effect in September. If it does it will add more to the price of fertilizer. It will pay you to contract it now and have it home before the raise is made. We sell Swift's Red Steer brand of Fertilizer, the highest grade of Bone Goods sold, also the V-C or Monarch brand, the largest southern manufacturer of Fertilizer. We furnish the goods when others fail. We just received a carload of American Wire Fence, Barbed wire and nails and can make you a good price.
