### DEWEY

Mrs. May Matthews

The Philathea Class of Salem Sunday School was delightfully entertained at the home of Misses Augusta and Vena Kyte, Saturday night. Fifty or more of the members and their friends were present and a splendid time was reported. The evening was spent playing lively games, and refreshments of ice cream and cake were served. The young ladies were reminded of the fact that this is leap year and acted accordingly. The class is carrying on a contest now for new members. The losing side will entertain the winners so come in on the winning side. The class motto is "We can if I will."

## Use the Better Grades of Fertilizer

Some are asking what effect so much rain will have on the fall wheat. We don't know, but our opinion is that it is better to have it before sowing if we must have it. One thing: it will sure pack the ground, and we must have that to get any good out of fertilizer. We believe that this is the fall to sow bone goods, we have a 44-ton car of 3-24-0 to be here this week. Nothing better on the market. We have a car of 88 tons Bone and Phosphate mixed. The Phosphate starts it in the fall and the bone dissolves later. That is a good fertilizer. We have a 33-ton car of Blood and Phosphate. We have sold this brand 10 years and some of the best wheat raised has been with that brand. Barton County has had the best luck with Monarch and we have a 33-ton car on the road of this kind. South of town they prefer Old Steer Diamond K 1-12-1, and we have 83 tons of it, 33 tons of Phosphoric acid and 4 of Potash. We are to-day unloading a 20-ton car of Raw Bone here and at Carytown 30 tons of Monarch. Don't forget to sow rye for fall pasture. This is sure the fall to sow Timothy, Clover, Orchard grass, Blue grass, and Red Top.

Come to Jasper, Mo., and

Come See Your Humble Servants.

P. S. Uncle George Johnson said the best turnip he ever raised the seed was sown September 12, and that they were as sweet as water melons, Oh Boy!
