The prison board of inspectors has adopted a set of rules for guards and convicts at the penitentiary. The rules for the guards and those for the convicts are in book form and each officer and convict gets a copy. If the rules which the board has formulated are enforced by the prison authorities there will be little trouble in that institution.

James F. French, an eccentric merchant of Ashley, Mo., who recently died of heart failure, was said to have been the most peculiar man in Boone county. His hair and skin was as blue as indigo the result of an overdose of mercury taken over twenty years ago. It is said that no man has seen the inside of his store for over ten years as he always kept the doors locked and when his customers wanted to buy anything, they would go into the store at the rear and emerge with the article. He absolutely refused to sell to some people.

Clarence Douglas in his Musakoon, (I. T.) Phoenix moralizes upon the subject, "No Kick Coming."

Old Nineteen Hundred and Five  
You was not so worse;  
Of course all men can't thrive,  
Some had to lose, and curse,  
But 'twas your fault  
If they drink maud  
And booze, and things like that,  
And snore—and don't succeed.  
You give them all they need,  
And if they pass the hat  
And whine, and blame their luck  
And say they're stuck,  
Why that's their sore to nurse.  
You sure was good to me,  
And I can't see  
No reason why a man  
Who wants to turn his hand  
And get busy, don't get his  
In these here pipin' times of  
peace.

It's slick as grease.  
To hit the chute and slide,  
And lose your hide  
And go perplunk—  
For them that stunk;  
But them as says they will,  
Climb up the hill  
And after while they ride  
Right by the ones who growl,  
And always have to walk  
Because their only talk  
Sounds like a howl—  
And as I said before,  
I kinder like the fix  
I'm in, and I won't roar  
If coming Nineteen Six  
Brings no more kicks  
Than going Nineteen Five;  
And some way I'll contrive  
To keep the coyote from the door.
