CROSS ROADS.

Corn cutting is the order of the day, as wheat ground is too wet to work.

W. T. Sanders returned home from Springfield, Ill., on Thursday of last week. He was accompanied home by Mrs. Wm. Reading and son, who will visit her parents, C. F. Kraft and wife, and other relatives for a few weeks.

C. W. Fuhr attended a sale near High Hill Friday.

W. H. Berg returned home Saturday from a week's visit in St. Joseph, Mo.

Fred Kraft and wife and Mrs. Wm. Rearing were in Wellsville on business Tuesday.

T. B. Wood and wife visited Mrs. M. J. Merritt Sunday.

H. A. Stone's pony and dog show was in Buell Monday night and furnished quite a lot of amusement, especially with the bucking mule.

Riley Collins and family arrived at Buell Friday from Manitoba, Canada, where they had located last spring. He says that country does not suit him.

Mrs. L. Faulhaber and family visited Fred Kraft and family Sunday.

W. T. Reed and wife were visitors at the Illinois State Fair last week.

D. B. Sailor of Buell was in St. Louis Saturday.

N. W. Clark, one of Buell's merchants, returned home Monday from a two weeks' visit in Iowa.

J. J. Maupin and wife visited C. F. Kraft and wife Sunday.

If you want to paint anything, call on D. Sneath and see what he will do for you.

WANTED—An experience colored pastry cook in Family Hotel. \$30.00 per month room and board. Usana Hotel.

Kingshighway & McPherson, St. Louis, Mo.

Doan's Regulents cure constipation, tones the stomach, stimulates the liver, promote digestion and appetite and easy passages of the bowels. Ask your druggist for them. 25 cents a box.

PEYTONIA.

Walter Weant and family visited Geo. G. Frank and family Sunday.

Robert W. Penn and family visited John W. Willis in Callaway county Sunday.

Columbus Penn was in Montgomery City last week.

John C. Hart sold some molasses recently at 60c a gallon.

Jas. A. Dodds cut 29 shocks of corn last week for Chas. M. Penn at 10c a shock.

Chas. M. Penn and Geo. Frank bought 5 shoats each from W. G. Davis last week at 11c a pound.

It's The World's Best
No one has ever made a salve, ointment or balm to compare with Bucklen's Arnica Salve. It's the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Bolls, Ulcers, Eczema, Salt Rheum. For Sore Eyes, Cold Sores, Chapped Hands, or Sprains, it's supreme. Infalible for Piles. Only 25c. at Crump & Kidwell's.

The members of the bar of Montgomery City have sent a petition to the Democratic state committee asking that Judge H. W. Johnson be made the nominee for the supreme bench to fill the vacancy occasioned by the death of Judge Fox. Judge Johnson has been judge of this circuit, state senator, representative, and has served on the Democratic state committee several times. His recent service on the state committee ought to be a strong recommendation for this place on the supreme bench.

Dental Notice.

Dr. H. A. Yocum will be at Big Spring Monday, Oct. 10, and remain six days; Americus Oct. 17, six days; Mineola Oct. 24, six days; Truxton Oct. 31, six days; Olney Nov. 7, six days. All wishing repair or plate work call first day of week. Odontunder for painless extraction of teeth. Crown and Bridge work a specialty. Remember the dates and call early. Yours for Business, H. A. YOCUM, dentist Residence, Warrenton, Mo.

It is reported that Tom Atterberry, formerly of Montgomery, shot himself to death at his farm near Olney Monday. Rumor says that he recently sold his farm and invested in U. S. bonds, and that the bonds had been secreted before his death, and the money cannot be found. Mental aberration is supposed to be the cause of his act.

S. C. Rhode Island Reds

Have a few Cockerels left. Cheap while they last. Come early and get a fine one. MRS. ANNIE K. GILL, Residence-Opposite High School.

Morse's Napoleon Chocolates, the best in the world, at Hassler's.

ADMINISTRATOR'S NOTICE

Notice is hereby given that letters of Administration on the estate of Annie E. Icking deceased, were granted to the undersigned by the Probate Court of Montgomery County, Mo., at Montgomery City, Mo., on the 3rd day of October 1910.

All persons having claims against said estate are required to exhibit the same to the undersigned for allowance within one year after the date of said letters, or they may be precluded from any benefit of said estate; and if such claims be not exhibited within two years from the date of this publication they will be forever barred.

H. S. Baker, Administrator of estate of Annie E. Icking, deceased. Dated this 7th day of October 1910

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weakness they are the supreme remedy, as thousands have testified. **FOR KIDNEY, LIVER AND STOMACH TROUBLE** it is the best medicine ever sold over a druggist's counter.

Women Suffer

much needless pain when they delay using Cardui for their female troubles. Cardui has been found to relieve headache, backache, pain in the side and dizziness, arising from deranged organs. It does more than relieve,—if used persistently,—many have written to say that it cured them.

TAKE CARDUI

It Will Help You

Mrs. Maxwell Johnson, Tampa, Fla., writes: "Cardui cured me after doctors and everything else had failed. I had been suffering with numb spells ever since I was 16 years old. One day I decided to take Cardui. I have now taken 5 bottles and I can say that it has cured me. I advise all suffering women to give Cardui a long and fair trial."

Mrs. Johnson suffered years. Have you? Do you wish to? But why suffer at all? Take Cardui. Give it a fair trial.

AT ALL DRUG STORES

THE FARMERS' INSTITUTION.

Missouri Agricultural College of Great Help to Soil Tillers.

The Missouri Agricultural College, a department of the State University, is conducting hundreds of experimental fields for the benefit of the farmers of Missouri, the results of which are sent to the farmers of the state free upon request. Not only is there a state farm in Columbia, but in 96 of the 114 counties of the state there are University experimental fields. Over 300 farms of the state contain co-operative experimental tracts on which important agricultural discoveries are being made and valuable work done.

As a result of work of this character, the College has demonstrated that the yield of corn in southwest Missouri may be increased 25 bushels per acre, the yield of wheat in the same section 12 bushels, the yield of wheat in northwest Missouri 15 bushels, the clover yield from one-half to two tons per acre, and the yield of peaches 25 per cent. In 1910 the University Agricultural College will have furnished judges of live stock and corn to over 100 county fairs and other associations in Missouri; it has organized schools of agriculture in various parts of the state; it has interested 3,000 boys in the work of growing fine corn; it has instructed 28,000 people from trains in the last few weeks, and 25,000 persons in Farmers' Institutes; in the last year it has saved to the farmers of the state \$500,000 by inoculating 40,000 hogs against hog cholera.

A vote for the Eleventh Constitutional Amendment, the last amendment on the ballot, is a vote for the Agricultural College.

PROFESSORS CALLED AWAY.

Lack of Funds Causes Loss of Excellent Men from University.

Missouri University has in recent years lost many able professors because of lack of money to pay their salaries. Such men as Dr. Frank Thilly, Prof. Raymond Weeks, Dr. William Westerman, Prof. Arthur Greene, Dean Henry J. Waters, Prof. W. W. Cook, the late Judge E. H. Roberts, and a dozen others may be cited as instances of men whose ability has commanded salaries the University of Missouri could not pay.

Shall such states as Kansas, with less than half the population of Missouri, and 1,500 million dollars less in taxable wealth, be permitted to take such men as these from Missouri because our University lacks the few hundred dollars necessary to meet the salaries offered by a neighbor state?

The difficulty in Missouri University has been the lack of a definite and certain means of support. Amendment No. 11, the last on the ballot to be voted on in November, provides such support, and does so by a method which will impose no burden upon and citizens of Missouri.

Both the Democratic and Republican state platforms indorse the amendment, and it is receiving the support of both parties throughout the state.

A BUSINESS PROPOSITION.

Missouri As Able to Support Her University as Any State.

It costs the state of Kansas 35 per cent more to support Kansas University than Missouri gives to her University; it costs Iowa 90 per cent, Wisconsin 95 per cent, Minnesota 100 per cent, and Michigan 200 per cent more money to support their respective universities than it does Missouri. The average population of the above states is only three-fifths that of Missouri.

In the long run it costs just as much to employ competent professors and instructors in Missouri as in another state. As a business proposition, Missouri is able to support her University as amply as any of the states named above. As a business proposition it is certain that if she does not do so, the universities of these other states will forge far ahead of Missouri University in efficiency. Constitutional Amendment No. 11, the last amendment on the November ballot, will provide a stable and permanent means of adequate support for our University. As a business proposition that it what the institution needs.

Yield of Corn Increased.

An increase of five bushels of corn per acre of Missouri corn land for one year alone, with corn at sixty cents per bushel, would support the University of Missouri, including its Agricultural College, on the present standard, for thirty-seven years. On the Lamar experiment field, in Barton county, the Agricultural College, by scientific, progressive farming, has increased the yield of corn twenty-five bushels per acre. As a practical proposition, the University and Agricultural College are entitled to adequate support. Constitutional Amendment No. 11, to be voted on in November, guarantees such support at an insignificant cost to the people of the state.

Helpful Correspondence for Farmers.

During the year ending June 30, 1910, more than 40,000 letters of inquiry have been answered by members of the Missouri Agricultural College Experiment Station Staff. One in every five of the farmers of Missouri have received help directly from the College in this way. A vote in favor of the Eleventh Constitutional Amendment, the last one on the ballot, is a vote for the Agricultural College.

Cattle For Sale

Seven head of registered Hereford cows and calves; will be sold stock sales day if not disposed of sooner.

Lake Bentley

Advertised Letters.

Oct. 8, 1910.

Following is a list of letters remaining unclaimed in the post office at Montgomery City, Mo., and if not called for within two weeks from date, will be sent to the Dead Letter office:

Miss Lottie Bishop
Mr. H. Bodkins
C. Bentley
Miss Margaret Keegan
Miss Eunice Kemp

G. E. Muns, p. m.

EVERY HAPPY FAMILY WILL BE INTERESTED

The housewife who has her own work to do is the one who will appreciate the many handy features embodied only in Cole's Hot Blast Range. There are fourteen (14) special and patented features embodied in this new range construction which are not to be had in any other make or style of stove or range at any price. Remember, this is the first real improvement made in 20 years in range construction. We want you to examine it in every detail. We want you to note its finish, its appearance; then we want to show you how convenient and simple it is to operate. This is the only range equipped with Cole's odorless broiler and toaster—an addition which cannot be had on other ranges. (B-64)

FOR PRESIDING JUDGE.

Wellsville, Mo., Oct. 11, 1910.

To the voters of Montgomery County:

The Democratic Central Committee has selected me to fill the vacancy which existed on the Democratic ticket for presiding judge of the county court. This honor was not sought, nor solicited by me, but since my party has seen fit to repose that trust in me, I have concluded to accept the nomination and make the race.

The nomination not having been made until Oct. 1, will handicap me to a certain extent, as I am busily engaged in sowing wheat and with other farm work, and will not have the opportunity of making the thorough campaign I would like to. I would deem it a great privilege, if time permitted, to make a thorough canvass of the county and become personally acquainted with each and every voter. But, as the time is so limited, it will be impossible for me to do so.

As the voters of Montgomery county, no doubt, know, I am a farmer, 48 years of age, a man of family, and reside on my farm about three and one-half miles northeast of Wellsville. I was born and raised in this county, and have spent my entire life here, and am a son of J. R. Shocklee, who served one term on our county court bench as district judge, and who was well known to the older citizens of this county.

I feel that I am qualified for the position, or I would not ask the suffrage of my fellow-citizens. If elected, I will endeavor to discharge the duties of the office to the best of my ability, without fear or favor or partiality to any individual, men or set of men. I assure the people of Montgomery county that I believe the affairs of my county ought to be administered in an economical manner, without extravagant expenditure, yet, at the same time, keeping up, as well as the finances of the county will permit, the roads, and bridges, and schools and public buildings of the county, and at the same time distributing public money and labor equally throughout the whole county, without favoritism to any particular section.

It is my belief that on all occasions and under all circumstances, the county court ought to be guided by the law as written on the statute books, and under all circumstances and at all times, without exception, I expect to be guided in my official duties by the laws as made and enacted by the legislature, and by correct motives and a spirit of fair dealing in all matters which may come before the court.

Assuring you that, if elected, I will appreciate the honor conferred upon me, and will ever have in mind the best interest of the people of this county, and soliciting your support, I am,

Very truly yours,
James Willis Shocklee.

The Best obtainable in the way of Meats is our constant aim. Choice cuts of Beef, Pork Mutton, Veal Etc. always on hand. You will find us always ready to serve you.

J. E. O'DONNELL, Prop.

ANOTHER WONDERFUL DISCOVERY.

Electricity, telephones, airships and all the wonderful inventions of this scientific age seemed impossible a few years ago. But it seems there is nothing so impossible but what some scientist will discover the means of accomplishment. Prof. Emerson has now discovered a preparation which will really grow hair. Iowa people are amazed and astounded by Emerson's new discovery for the hair. Emerson said that one bottle of his new discovery would grow a full head of hair and restore gray or faded hair to its natural color. The people did not believe him. It was too much to expect and too good to be true. They had tried all the highly advertised hair restorers and had always been disappointed and they could not believe one bottle would really grow a full head of hair. But now comes the most startling part of all—for Emerson proved it—yes, absolutely proved it. What do you think he did? He made the bold and remarkable statement that he would give five dollars to any person who used one bottle of his new discovery and failed to secure a new and satisfactory growth of hair. The people were astounded by the unheard of offer, but they knew that he was financially responsible and would do as he agreed if it cost him his fortune. Thousands bought bottles of his new discovery, though most of them had little faith and expected to be paid five dollars for using the bottle of new discovery. But of the first thousand bottles sold only seven claimed they were not entirely satisfied, and they immediately received the five dollars without question. The rest of them were overjoyed to find that Emerson's New Discovery had really promoted a new and healthy growth of hair. What is this remarkable new discovery? Emerson won't tell, and chemists have tried to analyze it and have failed to find out what it is. Emerson asks us to publish this same offer to the readers of this paper. He states that with every bottle of his new discovery, the price of which is \$1, he will send a written agreement to pay you five dollars if you are not entirely satisfied with the result which is invariably a new head of healthy, vigorous hair. The new discovery is not sticky, oily or greasy and is very pleasant to use. This is the most remarkable offer ever made by a responsible firm, such as The Emerson Chemical Co. which is backing Emerson in his offer. Just send \$1 bill (money order not necessary) to the Emerson Chemical Co., Scottsbluff, Neb., and secure a bottle of the New Discovery and the agreement to pay you \$5 or grow a full head of hair with only one bottle of this new discovery. July 8-11.

DR. P. J. CANNON, OSTEOPATHIC PHYSICIAN
