A Batch of Interesting Proceedings in the Circuit Court.

Contest for the Medal Offered by the Chess Club of the Vine Clad.

River News—Building Boom—Picnic Season—Central Bank and Minor Mention.

Correspondence of the BAZOO.

BOONVILLE, Mo., July 21.

Circuit court is still in session here. A number of very important cases have been disposed of during the week. The case of Kneele vs. Scott, for balance due on threshing machine, and which had been decided for plaintiff, was appealed to the supreme court. In the case of the state against Blanchard and against Stacey, charged with swindling our farmers, defendants gave bond and were released. The famous case of Rohever vs. Tevis, for possession of a strip of land between the two farms, was gained by the plaintiff. The case of the State versus Rock Moore, charged with disturbing a religious assembly, was tried Tuesday. Defendant entered a plea of guilty and was fined \$25. He also pled guilty to carrying concealed weapons and was fined \$5. The case of the State versus Tom Jones, for acting as policeman when he had no legal authority to do so, was dismissed by consent at the cost of defendant. This suit grew out of the squabble in our city politics in the spring of 1882, and as Jones was only a tool and not really responsible for the trouble, the case was dismissed. 'Tis a pity the real parties to blame couldn't be reached. The case against the proprietors of the City hotel and mansion house for providing fire escapes were dismissed. Barker, of Buncheon, pled guilty to seven indictments each charging him with selling liquor without license and was fined \$40 in each case. State against Ed. Joplin, charged with grand larceny, was enjoined by the defendants pleading guilty and being sentenced to five years in the penitentiary. Judge J. B. Strother of Saline county, presided a day or two this week. Our railroad attorneys desiring to take a change of venue from Judge Edwards, the latter in order to remove the cause to Judge Strother to try the cases which he did. The cases against McClanahan, Bernard, Wagouer and others for violating the Sunday law were continued.

CHESS CONTEST.

The chess contest for the elegant gold medal offered by the Boonville Chess Club to the best player will commence Tuesday night, July 31st. The person who wins the medal three times in succession secures it as his own private property. Entrance fee to contest, twenty-five cents. Entries may be made with John Wade, secretary of the club, at Hannasia's jewelry store, where the medal may be seen. Mr. Wade informs your correspondent that quite a number of persons have already entered, and that the contest promises to be an exciting one. The contest will take place at the T. P. C. Hall over the Commercial bank, where all are invited.

RIVER NEWS.

Work was commenced this week on the erection of pile boats for use in repairing the railroad bridge over the Missouri river at this point. The iron girders will be replaced by stronger and heavier ones. All parts of the bridge will be strengthened by being replaced by new iron or timbers or by being braced. The draw rests will also be repaired. The work all promises to be thoroughly done. Though there is just now no pressing necessity for any repairs of the kind mentioned. The bridge company show a commendable forethought in providing against any emergency that might arise. The Electric Light Kansas City Through Line, and the Kansas City Packet company, the two lines of steamers that have heretofore been running in opposition to each other on the Missouri river have consolidated. This will give the Missouri river two boats a week to Kansas City and intermediate landings. This will be much more convenient for passengers and persons sending freight and much more lucrative for the boat owners.

BOONVILLE'S BOOM.

We are enjoying a boom this year in the staid and substantial old town of Boonville and when the vine clad does wake up from her lethargy and go to work there's music in the air. Her houses dot the town in all directions and still there is not a dwelling house to be had for love or money. The Lambert flouring mill, the largest in Central Missouri, is running night and day. Our iron foundry and wagon shops have more work than they can possibly do. Every branch of business is feeling the effects of the boom. Much is due to the moral effects of the water works construction. Two new projects are now being talked of. The first is prospecting for coal oil, which men of experience in such things say, without doubt, be found in Cooper county. The establishing of a creamery is also spoken of, and an enterprising man could make money by running such a concern near this city. Verily, Boonville booms as she never has before for many years.

THE PICNIC SEASON.

This is the picnic season, with all its accompanying pleasures and discomforts. Scarcely a day passes without there being a picnic of some kind near Boonville. Choteau Springs attracts a large crowd of visitors daily. It is a pretty and comfortable place to spend a day or week this hot weather. With a small outlay of money it could be made a fashionable and frequented watering place. Its natural advantages are equal to those of Sweet Springs and if man would help in the springs development what the result would be is plain.

CENTRAL NATIONAL BANK.

United States Bank Examiner Owen was in town this week on his customary tour of examination and inspection. He dropped in on the Central National Bank when they were least expecting him and taken the keys made a thorough investigation, which was most searching in its character, was concluded, the BAZOO corre-

pondent interviewed him on the results. "The bank is doing splendidly," said Mr. Owen. "I am very well pleased with it. The condition of the bank speaks volumes for its management, their financial ability and business qualities. The securities are of a better class than ever before, and I propose making a flattering and yet deservedly excellent exhibit of the bank's condition to the United States treasurer. I have met with no bank in my travels which is safer or stronger." Coming from a man of such experience, the words bear testimony to the standing of the old Central National, and its efficient and accommodating officials, Speed Stephens, J. M. Nelson, Harvey Bunce and others.

Written for the Sunday Morning BAZOO.

A SONG OF THE STREET.

BY ROSA PEARLE.

A song of the street from some window near, Ringing aloud with its glad refrain, Oh! "Life 't's young and gay and free, What care we for its tears and pain."

A song of joy, but the passer-by, Pause to list to the singer sweet, Whose voice floats out on the summer breeze, And echoes far through the noisy street.

And some, just smile at the singer's song, And careless go their onward way— As sunbeams dancing o'er the waves, But lighte nought the shining spray.

But others sigh, for well they know, Though "life be young," it must grow old, And frosted locks must take the place, Of o'ra ven tress and curls of gold.

And tears, alas! no life but knows, And careless go their onward way— As sunbeams dancing o'er the waves, But lighte nought the shining spray.

A song of the street; but the song, we know, Is set to the music of wrong and sin, And yet out of life with its mad despair, How little of heaven we try to win.

MRS. T. W. CLONEY'S COMPANY.
