

SEDALIA.

The Coming Capital of the State.

An Epitome of its Resources as a Wholesale Market and Manufacturing Centre.

We take pleasure in presenting to the patrons of the BAZOO a Classified Business Index, embracing a large portion of our professional, manufacturing and Mercantile interests.

We make a special request of our business men that they retain this index and post it in a conspicuous place in their office or place of business, as it will prove of inestimable value as a ready reference sheet, being carefully compiled, convenient in form and comprehensive in character. To the general reader the index will not be without general interest, affording as it does an indication of the expansion of the business of Sedalia during the past few years, and supplying them with reference whereby they may easily locate business houses with which they may have business to transact. In fact, we consider the business index herein contained of sufficient moment to every person having the interest of our city at heart to insure it a widely extended circulation, and for that purpose have printed a large edition so that all may be supplied.

Parties can obtain the same for mailing purposes at this office.

This issue is duplicated on card board to make it a permanent directory of the places represented and will be distributed all over the country.
