WILD-EYED AND WOOLY

Was the Game of Ball Between the Y. M. C. A.'s and M., K. & T.'s Yesterday.

The Y. M. C. A.'s Beaten by a Score of 21 to 5—A Fair Attendance.

Notwithstanding the rain of the past two days the diamond was in very good condition yesterday, save a couple of pools of water in the vicinity of second and third bases and a little soft ground on the catcher's base.

About six hundred people were in attendance, expecting to see a well played game but were somewhat disappointed. Mason's pitching for the Y. M. C. A.'s in the first two innings was very poor, and with the poor support he received, nine runs were made.

Baldwin was in the box for the M., K. & T.'s and did very well, only allowing three base hits and one two-base hit to be made.

GAME BY INNINGS.

The M., K. & T. won the toss and took the field. Espencheid opened the game for the Y. M. C. A.'s by striking out Johns went out on a fly to Redmon and Mason retired the side on strikes.

Canton commenced the game for the M., K. & T.'s by sending a hot grounder to Kennedy which was fumbled and allowing the runner to make second, and scored on passed balls. Bowen received his base on balls, advanced to second by ball hitting the batter, and scored on passed balls.

SECOND INNING.

May got first on balls, received second on account of Eston being hit by a pitched ball and scored on passed balls. Easton went to first on account of being hit by a pitched ball, went to third on passed balls and scored on account of Mullay's missing Jacob's third strike.

Stryker came up for the "Kats" and knocked a grounder to Johns, whose error allowed him to make first, made third on Wansbrough's base hit in right field and scored on Canton's two-bagger to center field. Wansbrough stole second and scored on a two-bagger made by Canton, who scored on Newell's two-bagger.

THIRD INNING.

This was the best played inning of the game, not an error or bad play made. For the Y. M. C. A.'s, Espencheid fouled out to Redmon, Johns retired on three strikes and Mason made a light hit to Baldwin, but was left on first.

Mason was placed in center field and Clark placed in the box. Wansbrough struck out, Canton fouled out to Jacobs, while Bowen retired on three strikes.

FOURTH INNING.

May sent a hot grounder to Newell, but was put out on first. Easton secured his base on balls, stole second, got third on a passed ball and scored on a wild pitch. Edwards got his base on balls, stole second, secured third on a wild pitch and scored on Kennedy's base hit. Kennedy went to second on Jacob's base hit, but was caught

while attempting to steal third. Jacobs made a clean base hit over short stop's head, but was left on first by Clark making the third goose egg on strikes.

Table with columns: NAMES, A.B., R., S., P.O., A., E. Rows include Canton, Bowen, Newell, Kelsey, Redmon, Mullay, Baldwin, Stryker, Wansbrough, Treiselman.

BASE BALL NOTES.

J. H. Heinrichs was on hand with his nine bats, which he presented to the M. K. & T.'s.

Jimmie Tyler, former pitcher for the M. K. & T.'s, viewed the game from the grand stand.

The absence of Manager Bixby and a lame arm prevented Mint Johns' appearance on the diamond yesterday.

E. E. Bixby, manager of the Y. M. C. A., is visiting friends in Galveston, Tex. His place was filled by W. Mint Johns.

Would it not be a pious idea for the managers of the park to provide a suitable place for the scorers and representatives of the press?

This is the first game I ever played in that I never saw first," remarked "Jerry" Espencheid during the latter part of yesterday's game.

It was feared by the Y. M. C. A.'s, that Sam Johns' chinblain would prevent him from paying yesterday's game.

Baldwin pitcher for the "Kats" in yesterday's game, is a professional and is on his way to join the Houston, Texas, club. While it was not right for the "Kats" to run in professional, the Y. M. C. A.'s did not desire to back out as game had been so extensively advertised.

MY ROOM MATE.

Drills With the Flambeau Club; Expects to Take in the June Races and Contemplates Matrimony.

"Halt!" "Right-a-b-out!!" "Four's-in circle!!" "Right wheel!!" "Forward march!!"

The orders were issued in rapid succession by Captain Glenn and the prompt response they met with by the flambeau club gained for "our boys" a hearty and deserved recognition from the crowd of spectators that thronged Ohio street.

I glanced along the line and finally spied my room-mate marching beside Butler Dixon. His head was well up in the air and from the proud manner in which he kept time to the rattle of the snare drums, am confident that he would not have exchanged places with our worthy mayor.

Jake may have been under the impression that the admiring glances of the fair sex were centered upon him—If so he was very much mistaken, for to my certain knowledge said glances were bestowed upon two very plump and very good-looking fellows who followed in Jake's wake.

Between these two such a striking resemblance existed that they would have passed for twins, so I was considerably surprised to learn that they were not related at all—I asked a bystander who they were and he replied "the near man is Jim O'Brien of 'La Pluma' fame, and the off one is Charlie Conrad; they trot well together don't they? and do you know just as you asked who they were I was thinking what a nice meal they would make for a half dozen cannibals, my how juicy they must be," and from the manner in which the wretch smacked his lips concluded that it would take but little to make a man-eater of him.

My room mate came home very tired that night, mopping his brow, he threw himself full length on a settee and said, "You might think it requires no exertion to drill for two hours at a stretch, if so you are very much mistaken, it is not only work but very hard work at that." After a short pause he added in a self satisfied tone, "well there is one thing I'm proud of and that is the treatment we receive at home. It goes to show that our labor to advertise the town is appreciated. "All work and no play makes Jack a dull boy" however, and at our next meeting I intend to suggest a visit by the club to the opening of the St. Louis Exposition, there are lots of our members who have never been to St. Louis and a trip of this kind would be appreciated by all, the expense would not be much as the Mo. Pacific intend, I understand, to make cheap rates again and we will be more than repaid as the Exposition this year will be conducted on a much grander scale than ever before."

I asked Jake if he intended to take in the spring races in St. Louis and replied, "You can bet your bottom dollar that I will, why do you know I would not miss them for the world. Fun? why a man can have more fun in the 'Future Great' during race week than he can have in a year here. However, I intend to see George Arnold, who is a particular friend of mine and knows all about horses. He will give me 'tips' that will make me a 'pile' of money." I inquired if Arnold's tips would do to bank on and he said, "Most always, now last year he told me to back Will F. in the trot here for all I was worth, during the race Will F. went sick, so did I, he had a congestive chill, I had dumb ague. We both received the same treatment, i. e., were compelled to walk. They made the horse walk to keep up circulation, I walked because I did not have money enough left to pay car fare." After finishing his discourse Jake yawned several times, tossed from side to side and finally sprawled out flat on his back and began to sing in his cracked voice:

"I'd like to sleep all night, I'd like to rest all day; Your bet your money on the bob-tail nag; An' I'll bet mine on the gray."

Last evening my room-mate asked me to take a stroll with him out to Sichter's park. We passed a group of men at Farnham's corner who were doubly occupied in gazing at the old rickety deserted dwelling directly opposite and listening to a tall, round-shouldered man who possessed a bright black eye and a jet black beard. The spokesman was saying "There's no ques-

tion, gentlemen, but that is the proper site for the new custom house. It is not only the most central location offered but it is the choice of a majority of the business men of the town and you may rest assured that it will be located there. Why we have not been notified ere this of the decision is more than I can understand." Saying this our tall friend spit out a cloud of tobacco as large as one's fist.

I asked Jake who the spokesman was, and he replied, "that is one of our largest property owners. I have been told that he owns in the neighborhood of 100 houses, his name is Captain Gold, a good shot, a good fisherman and a right good fellow generally."

Having reached the park hotel my room-mate called for a couple of lemonades and while we were engaged in sipping the same he imparted to me his scheme to become rich. Said he: "It is just impossible for me to save money and there is but one way for me ever to be wealthy, and that is to marry money. I have at last thought of the right person and if she secures the divorce she has applied for and I can 'down' a dozen or more rivals why my fortune's made." I reminded Jake of the school marm, "his own dear Peach Pie" and he replied testily.

"I suppose you were aware of the fact that case is off and you're the very one to blame. Your last letter was more than she could stand, and after reading it she quit me cold. However, I don't care now, especially if I can capture Mary Jane—with her \$50,000 worth of property." I informed Jake that "a faint heart never won a fair lady," also stated that he was certainly mistaken about there being other Richmonds in the field, that the lady referred to was never very popular with the boys.

My far-seeing room-mate replied. "The only reason that she was not more eagerly sought after was a certain provision in that will. The boys possessed confidence in themselves but they lacked courage."

"As you know the will was overthrown in court lately, so that if the divorce is secured it will be a free for all trot."

I have noticed that my room-mate of late has treated Tom Kehoe, Will Courtney, Capt. Gilbreath, Nagle and several other of the boys very coolly, and I asked him if they were on the list of rivals he had referred to.

After gulping down the very last drop of lemonade in his glass, Jake answered curtly. "Ax me no questions an' I'll tell you no lies" and leaving me to pay for the liquid refreshment, he struck across the field to inspect a lot of fine horses belonging to Mr. Holoway.

JOHN JONES.

R. A. Gunn, M. D., Dean and Professor of Surgery of the United States Medical College, said: "I am willing to acknowledge and commend thus frankly the value of Warner's Safe Cure." The late Dr. Dio Lewis, writing to the proprietor of Warner's Safe Cure, said, over his own signature: "If I found myself the victim of a serious kidney trouble, I would use Warner's Safe Cure."

Police Court.

Four prisoners were in the dock yesterday morning when Judge Brady started the judicial machinery of the city to going.

George Watson, an able bodied young man was fined \$5 for begging.

William Hawthorn for riding blind baggage on the Missouri Pacific, was assessed \$5.

D. D. Ferrey and R. A. McKinney, two Chicago & Alton brakemen, were taken off the blind baggage on the east bound Missouri Pacific passenger train Friday night. The first named had a pistol, watch and \$59.15 in money on his person and the latter had a revolver and \$10.20 cash. They were arraigned for carrying concealed weapons and were fined \$25 each. McKinney said they had been working on the U. P. and were trying to get back home where he had a wife and three babies awaiting his return. He had some money but his family needed it and that was his excuse for trying to ride free. Their story excited considerable sympathy and the court made the fine the lowest he could under the ordinances. The men have good letters and some of the brakemen here will make an effort to get the mayor to remit the fines and let the men resume their trip homeward.

HAS HE RESIGNED?

Rumored That J. D. Russell Has Placed His Resignation in the Hands of Friends.

Judge W. S. Shirk left last night on the owl train for Washington, where he goes in company with W. H. Smith, of the Windsor Mail company, to straighten out some of the charges made against the company. They go "loaded to the guard" with documentary evidence to refute the charges of irregularities made a few days since.

It is understood that Judge Shirk has another mission to the nation's capitol. He carries J. D. Russell's resignation in his pocket as postmaster, and he resigns in favor of Harry Demuth, all of which is in opposition to the edict of Col. Joe Upton.

Russell and friends were in consultation with Shirk and others yesterday, and a "mouse on the wall" gave the snap away. It is understood that Russell was prompted to resign because he saw that, in the light of recent events, he had to vacate at an early date.

He can't go too soon to suit the people. As for Harry Demuth, he made a very acceptable deputy postmaster, several years ago, and no doubt will suit the most of the patrons of the office.

A PUBLIC BENEFACTOR.

"Who is H. H. Warner, of Rochester, N. Y., whose Safe Remedies, especially Warner's Safe Cure, have attained such success and celebrity at home and abroad?"

The question is inspired as much by affection as curiosity, since through his instrumentality hundreds of thousands, in both hemispheres, have been restored to health and happiness.

Hon. H. H. Warner, then is a leading and honored resident of Rochester, not only, but a prominent and influential citizen of the United States.

On several occasions chosen by his party as a National delegate to nominate a President of the Republic, he has been a member of the Republican State Committee and of its Executive Committee. He is a member of the American Institution for the Advancement of Science; President of the Rochester Chamber of Commerce; a successful and upright business man. He has given away fortunes in charities. The celebrated and costly Warner Observatory of Rochester was conceived, endowed, and is maintained by him. His munificent prizes for the discovery of comets has been at once the wonder and delight of the scientific world.

The yellow fever scourge in the South, the Ohio floods, the fire disasters of Rochester and other cities awakened his profoundest sympathies and in each instance his check for from \$500 to \$5,000 swelled the several relief funds. Where other wealthy men gave tens and hundreds he gives hundreds and thousands.

His charities are as ready and magnificent as his enterprises and public spirit are boundless.

The world has need of more such men.

An incident led him into the manufacture of medicine. Seized some twelve years ago with what the ablest physicians termed fatal kidney disease, he was miraculously restored to health by what is now known as Warner's Safe Cure. He then resolved to make known the merits of so potent a remedy, and the consequence is that to-day he has immense laboratories and warehouses in the United States, Canada, England, Germany and Austria, Australia and Burmah. Sales of his Safe Remedies are enormous, and their power over disease simply marvelous.

The merit of a production is in exact keeping with the character of the producer. An honest and reliable man himself, Mr. Warner makes honest and reliable medicines—a fact abundantly attested by their phenomenal efficacy and popularity.
