

HEARD HIT HARD.

The Farmers' and Laborers Union Congressional Committee Met Here.

Hon. W. C. Aldridge, of California, Nominated as Candidate for Congress.

A Platform Adopted and New Congressional Committee Appointed.

A County Convention to be Held and Possibly a Ticket Nominated.

The congressional committee of the Farmers' and Laborers' Union for the Sixth congressional district met at Labor Exchange hall, on West Second street, at 10 o'clock yesterday forenoon, and remained in session until 4 o'clock p. m.

The object of the meeting was to nominate a candidate for congress to succeed John T. Heard, and Hon. W. C. Aldridge, editor of the Newspaper, published at California, Moniteau county, was chosen unanimously, amid much enthusiasm.

Eight of the twelve counties in the district were represented, and each and every member was enthusiastic in the cause.

S. A. Wright, of Marshall, officiated as chairman, and R. H. Garretson, of California, was chosen secretary.

After a permanent organization had been effected, a platform was adopted, it being identical with the one adopted by the Farmers' and Laborers' Union and Knights of Labor in St. Louis in December last.

Nominations for congress being declared in order, the name of Hon. W. C. Aldridge was presented and he was nominated unanimously.

A new congressional committee was then appointed, as follows: J. B. Hedges, of Pettis, chairman.

- R. H. Garretson, of Moniteau. A. D. Zeigle, of Cooper. Dr. J. C. Heberling, of Howard. J. G. Jones, of Boone. John Sims, of Morgan. K. S. Brownlow, of Dallas. Boyd Miller, of Polk. C. H. Gist, of Benton. Joseph Whitaker of Hickory. J. G. Aldridge of Saline.

Camden county was left blank, but the vacancy will be filled at an early date.

On motion, the name of the party was changed from Farmers' and Laborers' Union to Independent.

After discussion it was decided that the county committee of the party should meet here next Saturday, when a call will be issued for a county convention, and it will then be decided whether or not a county ticket shall be put in the field this fall.

There being no further business to transact, the meeting adjourned.

Struck by Lightning.

The residence of Lige Fletcher, colored, the second door from the colored Baptist church, was struck by lightning this morning, and a number of weather-boards and shingles knocked off.

The new residence of Mr. Chas. H. Hughes, in the southern part of Lamonte, was struck by lightning Sunday morning, about 10 o'clock. The house had just been finished and insured, but the family had not moved into it yet. The end of the house was badly demolished.

The residence of Mr. Rippey, north of the track in East Sedalia, was also struck yesterday morning, and the roof and chimney damaged.

A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stage of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For further particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial bottles of this wonderful Discovery Free at MERTZ & HALE'S Drug store.

A Lady Assaulted.

Miss Lizzie Mangles, a respectable young lady of Hannibal, went on an excursion on the steamer Park Bluff Sunday night and as she was returning to her home, between 11 and 12 o'clock, she was assaulted by a colored man at the corner of Eleventh and Lyon streets. She was knocked to the gutter and had it not been for the timely interference of some young men, it is believed that the villain would have accomplished his hellish purpose. The young woman recovered and went on towards home, but she was again accosted by the same man. She is badly bruised about the head from the heavy blows she received.

The scoundrel will doubtless escape unpunished, as the young lady was too badly frightened to remember enough about him to identify him, should she see him.

A century of progress has not produced a remedy equal to Ely's Cream Balm for catarrh, cold in the head and hay fever. It is not a liquid or a snuff, but is perfectly safe and easily applied into the nostrils. It gives immediate relief and cures the worst cases.

Don't say there is no help for catarrh, hay fever and cold in head, since thousands testify that Ely's Cream Balm has entirely cured them. It supersedes the dangerous use of liquids and snuffs. It is easily applied into the nostrils and gives relief at once. Price 50c.

McNALLY'S DEATH.

How the Collision Happened—Further Details From a Local Paper.

A collision of two freight trains at Providence last Sunday night, in which Engineer McNally was instantly killed and his fireman seriously injured, delayed the north bound passenger train about 12 hours. The cause of the accident seems to be due indirectly to an old system of train orders, which is still in vogue on the Monon, but which every progressive and advanced railroad has abolished years ago. The engineer on the north-bound freight had received orders at New Albany, to run to Providence and take siding for extra south, while Engineer McNally had received no orders at all or information that there was a north-bound extra on the road, but the order was to be given him at Providence to meet the train at that point. There is where the system of dispatching is condemned. A method that does not issue an order to a trainman to meet another train, until after he has reached the point of meeting, is both dangerous and unreasonable, especially when applied to meeting points at small stations. It is supposed, as engineer McNally had no orders to meet at Providence, he was endeavoring to make Broom Hill, a small station south of Providence, when rounding a curve, at a great rate of speed his engine dashed into some freight cars which had been pushed on the main track by the north-bound extra, heading in the siding. The engine was almost completely demolished, and the cars reduced to kindling wood. As engineer McNally reversed his engine and whistled for brakes it plunged its way into the cars, upsetting the engine and burying the engineer underneath the wreck. It took three hours to recover his mangled and crushed remains from beneath the debris. The fireman jumped but received severe injuries internally. Conductor Brown of the extra says he started flagman when he heard the train approaching, but too late to avert a disaster. He explains the presence of freight cars on the main track, by the fact that the siding would not hold his train and he was clearing the south end of the track expecting train No. 4. It is difficult to explain who was the real cause of the accident as so many conflicting reports are circulated, but the railroad authorities will investigate the matter thoroughly, and discover on whom the blame justly rests.

Engineer Richard McNally, formerly resided here with his parents, but moved to Sedalia, Mo., when about 10 years old. He is well remembered by several of the young men of Mitchell who were his school-mates. Mr. McNally was regarded by the company as one of their trust-worthy and reliable engineers, by the trainmen as a clever and sociable companion, and an affable and pleasant gentleman. He leaves a father and other relatives, together with a host of friends to mourn his untimely death. The remains were taken to Sedalia, Mo., for interment. Mitchell (Ind.) Review.

WARNING CATHOLICS.

The Ancient Order of Hibernians In Ireland

A cablegram says: In a discourse at the Armagh Cathedral, Dublin, Ireland, last Sunday, Rev. Dr. McNece denounced the secret society known as the Ancient Order of Hibernians, which was founded in America. He said the society was seeking to obtain members in Ireland, and he warned all Catholics to avoid it.

Father Murphy, who was found this afternoon at his residence, on Fourth street, said to a BAZOO reporter: I read the report in a St. Louis newspaper and was very much surprised at the same and the Rev. MacNece has taken towards the Hibernians. In this country the order has never been considered a secret one. In fact its membership in Lawrence, St. Louis, Kansas City and elsewhere comprises some of the best and most influential members of the Catholic church. It is true I do not know whether the lodges to be instituted in Ireland are to be secret or not. If the society there is like the mother institution I cannot understand what grounds the clergy can take in opposing Catholics from joining the Hibernians.

Quay and Archer.

The Pittsburg, Penn., Leader, a republican paper, says editorially of Quay and Archer:

"It is curious how fate deals with men. The telegraphic dispatches announce that Stephenson Archer, late treasurer of the state of Maryland and ex-chairman of the democratic state committee, who embezzled about \$130,000 from the funds under his control, has been convicted and sentenced to five years in the penitentiary. With the embezzling treasurer of her sister state and nearest neighbor in a felon's cell, how must Pennsylvania blush when she reflects that one of her ex-treasurers is accused, without denial, of stealing from her funds double the amount, and instead of being in the penitentiary or having proved the charges unfounded, is at the head of the republican party of the nation, and has the effrontery to say to her, 'Here is my candidate for the highest executive office in our gift. Make me amateur governor or suffer my displeasure.'"

He is a true and loved adviser of our pious nonentity, Benjamin Harrison, and of our still more pious millionaire post-master-general, who takes care to fill his own pockets and grip-sack with both hands, while his mouth drops precious pearls about the blessings of poverty and submission to the will of heaven under its trials.

Maryland is a southern democratic state, she honors herself by calling a thief a thief, while Pennsylvania, a northern state and wheel-horse of the g. o. p., elevates her accused ex-state treasurer to the position of slave-driver, puts a whip in his hand and crouches at his feet to be submissive to his will."

PLUCKY MRS. PARKER.

A Wisconsin Woman Kill Single-Handed a Huge Bear.

Superior, Wis., July 22.—Mrs. Harriett Parker, who lives with her husband and little daughter at Dedham, fifteen miles down the eastern road, had an exciting experience yesterday morning. While her husband was absent about 6:30 o'clock, she heard the little girl, who had gone out in the yard, scream, and a second later the little one came running into the house, saying that there was a big bear out there. Mrs. Parker took her husband's Winchester rifle and went out. The bear was within twenty feet of her when she fired, sending the bullet into the brute's head. The bear started for her and she fired again, breaking the bear's back. A third bullet struck the animal in the head, killing it. The brute weighed 400 pounds and was very thin and savage.

When Mr. Parker got home the bear was skinned and the meat all dressed. Mrs. Parker is quite a huntress, having frequently accompanied her husband on his trips.

A Vicious Dog's Attack.

An unusually large Newfoundland dog, belonging to the Texas house, corner of Third and Engineer streets, has recently bitten a number of persons. The police have been appealed to, but they claim that as the animal wears the city tag they cannot kill it.

Last evening, John Sullivan was passing the Texas house when the savage brute attacked him, inflicting a very severe wound on the left ankle. The dog's teeth went through his pants, tearing the skin and flesh. Sullivan got away from the brute but the dog was not satisfied and jumped for Sullivan's neck. The latter threw up his arm as a guard and the Newfoundland sank his teeth in Sullivan's coat and tore it to shreds. He then changed his tactics and bit Sullivan in the thigh. Sullivan was released from his perilous position by a number of men, who came to his assistance, else he might have suffered further and perhaps fatal injuries. Sullivan's wounds were dressed with a strong solution of carbolic acid and it is thought no bad result will follow. Mr. Sullivan appealed to Chief Prentice to have the dog killed, but that official claimed he had no authority to kill the animal. However, he gave Sullivan perfect freedom to shoot within the city limits if he could obtain an opportunity to kill the canine. The owners of the dog say they will kill him and Sullivan intends that they shall keep their word.

ANNA IS AN HEIRESS.

A Legacy Awaiting a Girl Who Cannot be Found.

Chicago, July 22.—Pretty little Anna Holte, who five years ago flitted down the dim, quiet halls of the Palmer house as a chambermaid, has a fortune of \$100,000 in cash awaiting her in St. Paul. An anxious relative has been inquiring for the girl at the hotel, but no one knew what the fates have held for her since she left the house five years ago. A year or two before she came to Chicago she ran away from a happy home in Bavaria to follow her lover to America. But her quest was sad and useless. Failing to find him she lived awhile unhappily with distant kinsfolk in Minnesota; and then went out in the world to work her own way.

The fortune that now comes to her through the sudden death of an old aunt in Munich, who had a preliminary "von" to her name, has made her suddenly dear to the Minnesota relatives; but all trace of her was lost when she left the Palmer House.

Heir to an Unexpected Fortune.

Independence, Ia., July 22.—Henry Hillberg, a baker and restaurant keeper of this city, may be worth over \$1,000,000 in a short time. One hundred years ago wealthy John Brand died in Amsterdam. In 1791 his wife also died, leaving no heirs, and the government converted all her property into money, which has been accumulating ever since. Mr. Hillberg has recently received official notification from Germany claiming that after a century relatives of the Brands have been found. The circumstances of the case are not clear. Mr. Hillberg says that Mrs. Brand was his father's aunt, and that the living relatives on that side of the family are few. The estate is enormous.

Murdered His Rival.

Wheeling, W. Va., July 22.—Last Thursday, while Wood Dews and his sweetheart, Miss Annie May, were crossing a railroad trestle near Bramwell, Monroe Jones, Dews' rival, overtook the couple and assaulted them. A desperate struggle took place between the suitors at the centre of the trestle. Jones had the best of it, and drawing a revolver put a bullet through Dews' heart and the body fell into the creek. He then fired a couple of shots at the girl but missed her. Jones has disappeared, and no trace of him can be found.

Sewed Up the Infant's Mouth.

Mount Holly, July 24.—Emily Banks, a colored woman, alleged to be the mother of the child which was found dead on the banks of the river at Burlington, was arrested to-day and lodged in jail on a charge of infanticide. The infant's mouth was sewed up with thread so that it could not make any outcry.

Valuable Tin Mines.

San Francisco, July 21.—Near San Jacinto, San Bernardino county, twenty-seven years ago, tin deposits were found, but the value of the discovery did not seem to be appreciated. Negotiations have just been concluded whereby the San Jacinto tin mines will pass into the hands of an English syndicate with large experience in the treatment of these ores. These men, who own the tin mines in Arizona, Wales, pronounce the California ores nearly three times as rich as the Welsh ores they have been operating with fair profit. Within a radius of a few miles there are over fifty veins bearing ore.

A Strange Tribe, Ruled by a Woman.

Pierre, S. D., July 22.—A new colony of strange people are farming southeast of here. They are under the leadership of a woman, and hold their property in one common lot. The woman is rather hands-me and of a commanding presence, and rules over the colony of about two hundred in rather despotic manner. Their religion savors somewhat of the Mormon and old Jewish religions, and on last Saturday night they offered burnt offerings in the way of calves, etc. They positively refuse to allow strangers who will not be one of them in their midst, and all attempts to gain any information from them by the ordinary means have failed. They have called their town Moab.

A FAT GIRL DEAD.

She Weighed 470 Pounds and Had to be Carried to the Show.

Paris, July 22.—The fattest girl in Paris, by name Victoire Fantin, died last Sunday and was buried to-day with great ceremony. She was only nineteen years of age, and weighed 470 pounds. Her limbs were enormous. She was engaged at the Eden Theatre, but her size was such that she made very few appearances. It required seven strong men to assist her from her house to the stage.

Catarrh,

Catarrhal 'Deafness—Hay Fever. A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N. B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp to post office, by A. H. Dixon & Son, 337 and 339 West King street, Toronto, Canada.—Christian Advocate.

Sufferers from catarrhal troubles should carefully read the above.
