

WAR CLOUDS AGAIN.

THE CHILIAN SITUATION BY NO MEANS SATISFACTORY.

THE PRESIDENT MAY ACT SOON.

A Message to Congress on the Baltimore Outrage Expected—A Private Interview With Minister Montt Chilean Allegations Declared False—Navy Department Preparations.

WASHINGTON, Jan. 12.—President Harrison has never put much faith in the talk of Chilean apologies and reparation, and in view of the unsatisfactory report of the procurator, fiscal investigation of the riot and its contradiction by the report of Captain Schley and the testimony by Colonel Remy at Mare Island, it is reported that he will send a message to congress asking for authority to enforce the reparation which Chile will not make willingly.

Nothing but the concern of the president to know about the attitude of Chile could make a current story appear at all credible. It is not considered proper for a foreign minister to call upon the executive. It may be proper, but it would be unusual for the president, having a secretary of state, to ask a minister to call upon him in order that information might be obtained which the secretary of state ought to be able to secure.

Yet it is related here that Minister Montt was at the White house Saturday, the president having sent for him through Assistant Secretary of State Wharton. When the Chilean diplomat arrived at the White house the president asked him whether he had any intimation, either directly or indirectly, of the intention of the Chilean government to make reparation to the United States for the reparation of the seamen on the Baltimore. The president also asked whether the Chilean government or any person in official connection with that government had ever in any way intimated that Chile would propose that the issue between the two countries be submitted to arbitration in any form.

To both these questions the minister is said to have given diplomatic but negative answers. The story is an extraordinary one, but Mr. Montt neither affirms or denies it. A naval officer of long experience and great prominence said: "The public should be acquainted with the real gravity of the controversy with Chile. This investigation at San Francisco is developing some very startling facts and it will be well for us to appreciate the situation thoroughly. The evidence taken out there shows conclusively, to my mind, that the assault on the sailors was a prearranged affair and that the inquiry into the case at Valparaiso was a mere farce. That inquiry, it is said, developed the fact that the riot occurred between the hours of 4 and 5 in the afternoon and it was alleged that the American sailors were drunk. Now I happen to know as a matter of long experience that sailors do not get drunk so early in the day. It may seem an odd or even a joking observation, but it is none the less an important fact, with a strong bearing on the sailors on shore liberty do not get drunk before midnight. They never in a body become intoxicated early in the evening. The more I hear from other than Chilean sources of information, the more thoroughly convinced I am that the assault was premeditated and that it was intended as an insult to this country."

It has been ascertained beyond the possibility of a doubt that the navy department has, since the receipt of the first news of the San Francisco inquiry, redoubled its preparations for trouble. The activity at the navy yard in this city has increased and the navy department is pushing every means of saving time. The Post publishes a synopsis of the testimony given at San Francisco of the inquiry into the case of Patrick Shields, a fireman on the steamer Keweenaw, who was arrested in Valparaiso and brutally maltreated. From the place where he was caught to the prison was between a quarter and a half mile, and the two policemen beat him continually along the entire distance. One man had a bar of iron three feet long, and while he did not hit him with it, he threatened to split his head open. The other man carried a stick about three feet long with some leather on the end of it so as to carry it on his arm, and with it he beat him all the time on his back and head. Finally they drove him into the prison yard where Shields says he was subjected to the most inhuman treatment, being rendered unconscious by the blows given him. When he recovered blood was running from his nose and ears. They made no accusation against him. Finally he was released. His body was in a pitiable state.

CHICAGO, Jan. 12.—Mortimer McRoberts of this city, who has the contract to furnish all the dynamite cartridges for the army and navy, said yesterday that his factory, which is located at Dubuque, has put on double force of workmen and is working night and day and turning out their product. No less than 2,000 men have been engaged for the work and it is stated that the payments made by the government will foot up into hundreds of thousands of dollars. The prospect of a possible war with Chile is assumed to be the cause of pushing the manufacture. Until a year ago the United States purchased all her cartridges of England.

Shot Dead by a Bogus Woman. EUREKA, Kan., Jan. 12.—A stranger dressed in woman's clothing and wearing a sunbonnet and a heavy veil went to the house of William Coulter, a farmer in the Flint hills, about twenty miles northwest of here, Saturday evening, drew two revolvers and with one of them shot Coulter through the heart. The frenzied wife sought to tear off the veil, but without success, and the mysterious person beat a hasty retreat, but not until Mrs. Coulter had convinced herself that it was a man in female apparel, but there is no clew and the case is a mystery.

Snow Beneficial to Wheat. ARCHISON, Kan., Jan. 12.—Reports received at the Western Union telegraph office from all points in Northern Kansas are to the effect that the snow is general and will be of considerable benefit to the wheat crop. A gang of counterfeiters of gold money has been captured at Salt Lake City.

KANSAS MILLERS HAPPY.

Low Rates to New Orleans Secured—Galveston Also in the Field.

EMPORIA, Kan., Jan. 13.—A special meeting of the Kansas millers association was held here yesterday to hear the report of the special committee sent to New Orleans last November to arrange for cheaper rates for Kansas flour to tide water ports because of the great discrimination by railroads in favor of Minneapolis and other places as against Kansas points.

The committee report showed that they had succeeded in obtaining a virtual reduction of between 15 and 20 cents per hundred weight by opening up a new route by way of the Crescent city. As soon as the Eastern roads became aware of their object in visiting New Orleans a cut was made which was met by the Southern roads, and the Gulf route now is the cheapest to European ports by from 2 to 4 cents per hundred weight.

Galveston has also entered into competition and has appointed a committee of citizens to meet with a committee of the Kansas millers in St. Louis next Monday and Tuesday to consult with representatives of the Southern steamship and railway company and see if they could not do even better than New Orleans. This invitation has been accepted and a committee will be appointed to attend.

The sense of the meeting, however, while no definite action had been taken, seems to favor New Orleans, several of the most prominent shippers to foreign ports in their remarks stating that the latter city now had deep water and all the facilities necessary and was in a position to make it the cheapest and best port for shippers.

The convention adjourned late this evening to meet at Hutchinson on the second Tuesday in July next. Many railroad representatives were present.

No Ghost Dances Among the Sioux. OMAHA, Neb., Jan. 13.—Colonel Carr, in command at Fort Niobrara, yesterday had an interview with Iron Shoes, a Brule Sioux who came down from Rosebud agency. He informed the colonel that there was no more Indians at the Rosebud or Pine Ridge agencies had held ghost dances this winter. At Pine Ridge there had been an Omaha dance, which was social merely.

The Senate Day Rather Quiet.

WASHINGTON, Jan. 14.—The last day in the ranks of the senate was filled yesterday morning. Mr. Jones of Nevada, under the escort of his colleague, Mr. Stewart, taking the oath of office for his fourth senatorial term. A bill to prevent the adulterating of food and drugs and for other purposes was reported and placed on the calendar. This is the pure food bill. After Mr. Mitchell had spoken his resolution to relieve his court of claims, calendar bills were passed, among them one to authorize the secretary of the interior to convey certain lands to the state of Kansas. A brief executive session closed the day.

The Late Senator Plumb's Place.

WASHINGTON, Jan. 14.—The senate republican caucus committee has disposed of the vacancies in the senate committees caused by the death of Senator Plumb. It was decided to reduce the membership of the appropriations committee, so that that vacancy was thus disposed of. Senator Dolph of Oregon was given the chairmanship of the committee on public lands and relinquished his place as chairman of the committee on coast defenses to Senator Squire of Washington. Senator Galinger of New Hampshire was made chairman of the committee on transportation routes to the seaboard, formerly held by Senator Quay.

Speaker Crisp Able to Be Up.

WASHINGTON, Jan. 14.—For the first time since he was seized with the grippe, Speaker Crisp was able yesterday morning to get up and leave his bed. He sat in his room for quite a little time in a dressing gown and slippers. He is progressing toward recovery as well as any one expected.

Three Places for Mr. Perkins.

WASHINGTON, Jan. 14.—Senator Perkins has been appointed to three committees— to Mr. Plumb's place as a member of the important committee on the District of Columbia and to the committees on patents and transportation of meat products.

Kansas Stock Breeders' Officers.

TOPEKA, Kan., Jan. 14.—The Kansas improved stock breeders' association elected officers yesterday afternoon as follows: President, H. M. Kirkpatrick of Leavenworth county; vice president, O. E. Morse of Linn county; secretary and treasurer, W. P. Popenor of Shawnee county; executive committee, E. Herrington of Brown county, J. R. Clark of Miami county, L. M. Pickering of Cherokee county, O. P. Updegraff of Shawnee county and S. A. Sawyer of Riley county.

A Remarkable Woman Gone.

KANSAS CITY, Mo., Jan. 14.—The life of one of the most remarkable women in the West ended Tuesday when Mrs. Elizabeth C. Wallace of Lexington, Mo., laid down the burden of 95 years. A sweet voiced old mother was a guide and a guardian for a score or more of her descendants and relations who live in Kansas City. Almost a centenarian, her life and history is part of that of the republic. It is that of the West; it is wrapped up with that of the history of Western Missouri.

FOR THE CHILDREN.

"In buying a cough medicine for children," says H. A. Walker, a prominent druggist of Ogden, Utah, "never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. I particularly recommend Chamberlain's because I have found it to be safe and reliable. 25 and 50 cent bottles for sale by Aug. T. Fleischmann, druggist."

RECORDS ECLIPSED.

THE GREAT GAINS IN DECEMBER BREADSTUFFS EXPORTS.

A MOST ASTONISHING SHOWING.

\$100,000,000 Increase for the Last Six Months of '91 Over the Same Period of '90—Over \$20,000,000 Gains in December Alone—Unprecedented Exports in all Kinds of Cereals.

WASHINGTON, Jan. 13.—Maj. Brock, chief of the bureau of statistics, to-day completed the compilation of exports of breadstuffs for December. Exports on this line for October and November were surprisingly large. The figures for December are even more gratifying.

Exports of barley during December reached the unusual value of \$37,238. For December, 1890, the value of exports of barley was only \$28,218. Barley exports of the last six months of 1891 reached \$1,231,443, against \$190,769 for the corresponding period of 1890. The increase was more than \$1,000,000.

Exports of wheat flour for December were valued at \$7,620,737, and for December of 1890 they were \$4,533,747. The increase on the month was nearly \$3,000,000. On the six months the comparison was striking. Wheat flour exports in the last half of 1891 reached \$33,390,439 and in the last half of 1890 they were \$3,733,232. The increase was nearly \$10,000,000.

The exports of rye for December were \$9,524, and for December a year ago \$2,524. The exports of rye for the last six months were \$2,464,327, and for the last six months in 1890 they were \$203,411, an increase of \$2,261,116.

The exports of wheat for December were \$16,686,301, and for December a year ago \$4,155,228, an increase of more than \$12,000,000. The exports of wheat for the last six months of 1891 were \$99,600,303, and for the last six months of 1890 they were \$30,385,911, making the increase over \$70,000,000.

The shipments of corn for December were \$1,329,837, as compared with \$914,738 for December, 1890, an increase of nearly \$2,500,000. The shipments of corn for the past six months were \$11,565,110, as compared with \$9,323,545 for the last six months of 1890. Corn, it may be stated, has just begun to move on a large scale.

The exports of oats for December just passed were \$1,178,949, and for December a year ago only \$10,983, a gain of over \$1,000,000. The exports of oats for the past six months were \$1,953,721, and for the same six months in 1890 they were \$298,520, a gain of \$1,600,000 round figures.

The total exports of breadstuffs for December were \$99,341,593, a gain of about \$8,000,000 over November, which was a record for the month. The total exports of breadstuffs in December, 1891, aggregated \$10,145,738. The gain was over \$20,000,000 on a single month. For the six months closing 1891, the total exports of breadstuffs were \$155,989,193, and for the same period of 1890 they were \$4,806,413. In the last half of the year just closed gained over the last half of the year preceding in the exports of breadstuffs \$100,000,000.

LA GRIPPE!

The tendency of this disease toward pneumonia is what makes it dangerous. La Grippe requires precisely the same treatment as a severe cold. Chamberlain's Cough Remedy is famous for its cure of severe colds. This Remedy effectually counteracts the tendency of the disease to result in pneumonia, provided that proper care be taken to avoid exposure when recovering from the attack. Careful inquiry among the many thousands who have used this remedy during the epidemics of the past two years has failed to discover a single case that has not recovered or that has resulted in pneumonia. 25 cent, 50 cent and \$1 bottles for sale by Aug. T. Fleischmann, druggist.
