You can't afford to laugh, dear girls, unless your teeth are white as pearls—Unless your mouth is pink and sweet, And your two lips in rosebuds meet; And you cannot supply this want, Eat through the use of SOZODONT!

MONSEES' STOCK

Premiums Captured—Piedmont, a Noted Stallion, Makes a Fine Showing.

In the state fair just closed, L. M. Monsees, proprietor of Limestone Farm, was a large exhibitor in both of horseflesh and in swine.

In the stallion ring showing his get, Mr. Monsees exhibited Piedmont and took the first premium. The horse is well known and enjoys an enviable reputation throughout the country.

For the best horse mare or gelding—sweepstakes, Piedmont took second premium.

For the best stallion under two years old it was awarded to Evermont, owned by Mr. Monsees and sired by Piedmont.

Edna, a very fine five year old mare owned by Mr. Monsees and ridden by his eleven year old son, Nicholas, took the first premium, competing with some of the best animals in the state and ridden by some very excellent horsemen.

For the best mare or gelding three years old the second premium was awarded LeRose owned by Mr. Monsees. She is a very fine animal sired by old Montrose.

Best colt of either sex the second premium was won by Monsees. This is one of Piedmont's colts.

The colts shown at this fair, all that took any premium, whatever, in the roadster and saddle rings, but two were Piedmont's get which shows that blood will tell.

Mr. Monsees offered in the catalogue a special premium for colts sired by Piedmont. There was a fine ring of them, probably as good as was ever exhibited in Pettis county. William Sneed carried off the first premium and J. R. Stewart took the second premium.

Piedmont has proven beyond a doubt that he is one of the best getters and has no equal in Missouri as a roadster or saddle animal.

In the swine department Messrs. Monsees & Wiley carried off nearly all of the premiums offered for Poland China hogs.

Mr. Monsees will have a public auction of his stock at Limestone Farm on September 8th next, when some most excellent stock will be sold without reserve.

A SAVING TO FARMERS AND TEAMSTERS.

The crown Axle Grease awarded the premium at our State Fair. Is certainly the best for all as it does not gum or freeze and will wear twice as long as castor oil.

NOTICE.

The undersigned assignee of Henry V. Leist hereby gives notice that at the next term of the circuit court of Pettis county, Missouri, to be holden at Sedalia, Mo., on the first Monday in October, 1892, he will apply to said court for his discharge as such assignee. W. P. KING, Jr., Assignee of H. V. Leist.

HE TOOK STRYCHNINE.

Suicide of Frank Turner Yesterday Morning—No Cause Assigned for the Act.

Frank Turner, who lives with a widowed mother, brother and sister at 505 West Fourth Street committed suicide at 2 o'clock yesterday morning by taking eight grains of strychnine which he had purchased at Mertz & Hall's drug store. On purchasing he said he wanted the poison to kill some rats.

He came home at 1 o'clock and proceeded to bed with a brother, Addison. An hour later, the latter was awakened by his brother's groans and cries of "good-by." The family was aroused and Dr. Russell summoned, but all remedies proved useless and an hour later he was a corpse. No possible reason is known for the act. He was a young man of 24 years, single and engaged in the M. K. & F. blacksmith shops.

A coroner's inquest was held at 2 o'clock last evening and a verdict returned in accordance with the above. The jury was composed of J. H. Goohey, A. B. Hoss, F. Weeks, Geo. Kahrs, W. H. Ritchie and R. Ritter.

SOME FINE HORSES.

John R. Gentry Has a Stable of Which the People are Proud.

Pettis county has just reason to be proud of its deserved and excellent reputation for fine stock, and no one has done more to bring about this desirable state of affairs than Jno. R. Gentry, of Hughesville. In the races of last week he had several splendid animals on the track which won the admiration of the assembled thousands. The second money in the \$5,000 race was won by his beautiful bay mare, Bertie R. In addition to this, John R., and Winston both made admirable records. Mr. Gentry has, altogether, a stable of horses of which he may justly be proud, and which is a matter of congratulation to all Pettis county people. He is a lover of fine horses and is doing much to improve the breed in the county.

KNOWS HIS BUSINESS.

One of the Best and Most Reliable Horse Trainers in Central Missouri.

Every one that knows L. D. Bolton—and he has a legion of friends—knows that he is a natural born horseman, and there is very little about an animal of that kind with which he is not familiar.

Mr. Bolton has a breeding and training barn at 418 Osage street, where he is ready at all times to attend to any business in this line, always guaranteeing satisfaction. He had magnificent success with the animals he entered at the fair just closing as evidenced by the following animals receiving first premiums: Aleyon Denmark, George Lexington, Charlie Holden, Miss Ames, Alice Scott, Bay Rose, with Link Burr and Aleyon Denmark receiving second premiums.

Mr. Bolton is a resident of Sedalia, thoroughly understands his business and takes great pride in converting the untamed steed into a perfectly trained animal. He has always been successful, which is a magnificent tribute to his skill.

As a consequence his stables are not only well patronized but patrons have the greatest confidence in his ability as a trainer, and he is necessarily one of the busiest men in the city. He has a genuine admiration for a fine horse and very few persons are better judges of an animal. His great fund of information in this respect is not only valuable to himself but useful to his friends. Call at his barn on Osage street.

Bread in France.

There is a usage general in France that bread before being out must be marked with the sign of the cross. The neglect of so marking the bread is supposed to involve misfortune. In Lille to step on bread is a blame-worthy act. It is a common superstition that the falling of a piece of bread on the buttered side is fatal to luck.

The World's Inhabitants.

This globe has had 66,627,842,237,075,255 human inhabitants since the beginning of time. To even bury this vast number the whole landed surface of the globe, every inch of it would have to be dug over 120 times.

The Locality Considered.

"Mr. Chestnut is married." "Why, that was quite sudden, wasn't it?" "Well, suddenly for a Philadelphia man. He was engaged five months."

Alec Larrimore, charged with vagrancy, had his case continued until Aug. 22.

A TIP-TOP TRACK.

The kite-shaped track has undoubtedly won many laurels for Sedalia,

and the Missouri state fair. Notwithstanding the amount of work and expense the managers have been placed at, they are fully repaid for their trouble. All the records, that is, nearly all—have been lowered, and the Sedalia track and the pneumatic sulky have been a great boon to divers and horsemen. Last Tuesday the second day of the fair, three of the fastest heats ever trotted in Missouri were made on the kite-shaped track. All time made on the Mexico track, was bettered here. The summary taken from the American Trotter, shows that the best time made at Mexico, in 2:15, in the free-for-all pace, was lowered here Friday, to 2:12. All horsemen pronounce the Sedalia track par excellent to any in the country.

EXPECT 40,000 VISITORS.

George P. B. Jackson of Sedalia was at the Democratic State Headquarters this morning and presented to Secretary Sam B. Cook, a glowing account of the preparation under way for the Stevenson-Stone demonstration to be held in that city on the 30th inst. Mr. Jackson reported that all the railroads running anywhere near Sedalia had assured small rates and had promised to run special trains if necessary. The plan is to have the meeting in the Fair Grounds in the afternoon and have it run into the night. Gen. E. A. Stevenson will speak first and Senator Vest is expected to follow. Col. Stone and Dick Dalton will come next and Congressman John T. Heard will very probably make the closing speech and confine himself to the tariff.

According to Mr. Jackson's figures there will not be less than 40,000 visitors in the city on that day.—Post Dispatch.

VERY FINE STOCK.

An Opportunity to Buyers That Rarely Occurs.

There was a great deal of fine stock at this year's meeting of the State Fair association and one of the most successful exhibitors was Mr. B. F. Swaggard, of Sweet Springs, Mo., whose representative animals did themselves credit in several of the principal races.

Mr. Swaggard has a stable of horses of which any man might be justly proud—high pedigreed animals such as are always in demand.

Mr. Swaggard will hold a closing out sale of standard and highly-bred trotting stock, at Sweet Springs, Mo., on Saturday, September 3d—the sale to begin at 10 o'clock a. m., rain or shine. Some forty or fifty head, carefully selected and of the very best blood, will be sold without reservation. Mr. Swaggard is a good stock raiser, a perfectly reliable gentleman, and his sale will undoubtedly be a success. Don't miss the opportunity to buy a fine animal at reasonable prices.

STRAYED.

"BARKIS" WRITES.

For the People Now on Earth, and Disseminates a Good Doctrine—The Poor House Investigation—A Good Word For Mayor Noonan—A New "Simon-Pure Democratic Paper."

ST. LOUIS, MO. Aug. 19, '92.

EDITOR BAZOO: It may not perhaps, be regarded as exactly orthodox by some of your readers, but I believe in what is and don't trouble myself about what is to be. I belong to "the people now on earth" and I think our first duty is to see that we get a fair show and then—if we don't avail ourselves of it, why it is our own fault. I make this remark simply as a reminder to those men who call themselves democrats and have acted with the party heretofore, but who now, with half an ear open to utopian notions promulgated by conglomeration, half the work of knaves and backed up by ignorance, honest but credulous, are disposed to act in a manner that will make them tools in

REDUCING MISSOURI TO A BONDAGE similar to that in which she languished under the Draconian Code. There is no future for Missouri, unless her citizens make it and it can be made only by continuing in power the party that has made her the fifth state in greatest union of states that the world has ever seen. There are but two parties in this great country, the party of plutocracy and the party of the people—the so-called republican party and the democratic party. You may deem me, sir, extravagant—a pessimist, even, when I say that upon the result of the next presidential election, (I don't say national, for national is a word that should not find place in an American dictionary)

DEPENDS THE FATE OF OUR REPUBLIC.

We must down monopoly or the time is not far distant when we will be the slaves of a moneyed "aristocracy", the victims of a grinding tyranny that knows and acknowledges nothing but the power of gold. Let all Missourians consider well, before voting—that is all that is necessary.

And now about local matters. Mayor Noonan has returned to St. Louis and once more assumed the duties of municipal government. There are those who find fault with him and his administration, but there is no man who can consistently accuse him of a failure to do his whole duty when he is not hampered by parties who have systematically and persistently sought to bring him into disrepute.

The smelting stone contract for the trimmings of the new city hall, which will save the tax-payers of St. Louis many thousands of dollars, has been approved by the city council and the work will proceed at once.

THE POOR HOUSE INVESTIGATION

mentioned in my last, will as I said, result in naught. The only new feature introduced is the vindication of the ex-superintendent, Barney Taate, which is so utterly "too too" as to inspire renewed sympathy for the present incumbent "old man Gallagher and his wife."

St. Louis for the past week has been in possession of the negro Masons and Grand Templars—you see and smell them everywhere. They had a grand procession to-day and, thank the Lord, the delegates from other points will leave to-night and to-morrow.

I notice in to-day's papers that Mr. B. H. St. Clair, an imported "journalist" and acting proprietor of a job printing establishment and the author

of two or three dime novel serials, has disappeared under distressing circumstances and it is feared he may have committed suicide. No danger of it.

LOOK OUT FOR HIM IN SEDALIA, he is pretty well posted and would likely go to a live place to seek fields and pastures new.

I am told that a long-left want is to be supplied in St. Louis. We are to have a genuine old Dr. Jacob, dyed in the wool and up with the times daily morning democratic newspaper. The editor has already been selected and the money is being rapidly raised. It is coming, and when it comes, it comes to stay. There isn't a simon-pure Democratic newspaper published in St. Louis now and never has been since the death of the old St. Louis Union, that Foy and Gilbury made famous to the serious damage of their own pocket books.

The business Men's Democratic club promise us a grand demonstration on the 25th inst. I hope they'll carry out the program. We want a stirring up here the worst kind. BARKIS.

Looking for Wild Ones. During the session of the Maine Methodist conference at Augusta a lot of ministers out sightseeing mistook the statehouse for the asylum for the insane and asked some clerks in the vestibule where the patients were. "Oh in the different rooms; pass around and you will see them," the young man answered, and the country parsons proceeded to stare the occupants of the various offices out of countenance inquiring at last, "Have you any real wild ones?"
