 Assessor—J. M. LOGAN.  
 Administrator—J. R. CLOPTON.  
 Constable—W. D. WALLACE.

Whoop up things! Fall business promises to be good.

Attend the democratic meetings advertised throughout the county.

Don't forget at all times and under all circumstances to speak a good word for Sedalia.

The democrats of Pettis county are on the war-path—as the result in November will prove.

The crowds always naturally come to Sedalia, but Nancy and Martha will help things along wonderfully.

The contractors of Sedalia have more than their hands full, which is an indication that times are getting better all around.

The most reliable reports from Texas state that Gov. Hogg will be elected by a majority of 100,000. Could he want more of the earth?

Sedalia has always been a clean city but just now particularly extraordinary efforts are being made that make her the most dutiful city in all the West.

The democracy will have a grand rally at Lamonte on the 8th, and it is safe to say will be largely attended for the reason that an admirable intellectual feast is in prospect.

Senator Hill is still vigorously engaged in the work of making speeches for Cleveland and Stevenson. And by the way, why can't Mr. Blaine speak a few words in favor of the present administration?

There will be a number of rallies, democratically, and good ones, throughout the county at an early day, as has been already advertised. The people in the immediate neighborhoods, especially should be on hand and help along the good work.

If Nancy Hanks don't again break the record at the October races in Sedalia the gallant little mare will make a desperate effort in that direction. It is understood that Bud Doble, her driver, on that occasion will make the very greatest exertions to prove the superiority of the Sedalia kite-shaped track.

The telegrams from Indiana, of a most remarkable character indicate that the republicans after a very careful poll of the state by townships, have conceded it to the democracy by a majority of 30,000. This may be under the real figures, but at the same time it is good enough for all purposes.

A very prominent gentleman from Kansas City, who was a visitor in the city yesterday, congratulated the people generally on the location of the Chautauqua assembly at this point. He spoke of the benefits, and further stated that the enterprising people of

THIS IS THE WAY IT "PROTECTS" HIM.

Sedalia would never regret their action in this matter.

Col. W. J. Stone has been working a canvass of which the democracy of Missouri are very justly proud. He has always conducted himself in a calm and dignified manner, appealed to his immense audiences on common sense principles, and unlike his opponent, has never said a word derogatory of Missouri and Missourians.

Judge Gibson, of Kansas City, who was an aspirant for the governorship on the democratic ticket, and who so nobly, immediately after his personal defeat, advocated the claims of his successful rival, passed through this city yesterday. He had been making speeches in Southwest Missouri, and was exultant at the aspect of affairs in that section.

As has been announced in THE BAZOO, the county canvass will open this week on the part of the democracy with a series of meetings which have been advertised. It is to be hoped that the meetings will be largely attended. While the success of the ticket, so far as Pettis county is concerned, is certain, at the same time the majority should be made as large as possible.

The projectors and managers of the S., S., M. & N. road are very much encouraged at the outlook, and state that within the next thirty days active operations will begin. In the meantime the people of Pettis county must use their usual energy in raising the subscription necessary from this county. It is a very small amount and should be subscribed without trouble.

**POLITICS AND AMUSEMENT.**

Very often the press has discussed the effect of the recurring presidential campaigns upon the world of finance and business. One great draw back to our system of popular elections, which must always be the foundation of a free government, is the undoubtedly bad effects they produce upon the business interests of the country. The success of one or the other of the two great parties, means that one class of industrial interests will be favorably and the other adversely affected. But the most marked and injurious results of a national campaign, fall upon the amusement world. Base ball has been a colossal failure this year. Many of its devotees who last year could tell club-standing or batting average of any player, this year wander after political gods, saturate their clothes with the oil of leaky torches, and yell themselves hoarse. Who ever saw such apathy on the part of the general public at the wonderful performances of Nancy Hanks and the bicyclist Zimmerman and Johnson in their successful efforts in smashing the world's records. But worst of all the depression falls upon the theatrical profession. Up to election day and until after the subsequent excitement subsides the space before the foot lights will be practically deserted. Thus it will always be—but after November the world of sport, racing, athletics and the drama will again move with its wonted attraction

subject only to the disturbances of the quadrennial political campaigns.

**GERMAN DAY.**

The Attractions that will be Offered October 6th, to the Assembled Multitude.

Every day is bringing us nearer the most enjoyable event of the German day celebration on Thursday, October 6, and from the expression of the various committees, all necessary preparations have been perfected to make it a grand success, and weather permitting, a multitude of people will be highly entertained at Association Park with a program of amusements for young and old. The superintendents of the Mo. Pac. and M., K. & T. shops have kindly acceded to the request of the executive committee to close their shops at twelve o'clock, and it is to be hoped that all other employers will do likewise, and treat their employees to an afternoon of the very choicest entertainment ever witnessed at the park, and which is free to everybody on that day. One of the main attractions will consist of a grand balloon ascension with parachute jump by the most daring aeronaut, Prof. Hastings, which will take place at 3 o'clock p. m.

The professor may justly style himself as the light-weight champion of that profession in the world, weighing only 85 pounds and can therefore attain a higher altitude in his sixty-foot balloon than any man living. He will carry with him his trained cat, "Tommy," which being properly attached to a proportionate size parachute and from the highest attainable altitude the professor will allow his pet make the journey through the air slowly descending to the ground; after which Prof. Hastings will follow with his own parachute.

The Sedalia Turn-Verein (athletic club) has kindly volunteered to contribute nimble limbed performances on the horizontal bar, parallel bar and other acrobatic exercises.

There will also be sack races, walking and running foot races, greased pole climbing and other sports too numerous to mention.

The executive committee would kindly request that all business houses and residences along the line of march be decorated.

The German day celebration being an entirely non-political affair, the grand marshal hereby announces that no demonstrations of any kind of political complexion will be allowed in the parade and no political speeches to be indulged in at the park.

An ample police force will be at the park to maintain the best of order.

The festivities at the park will close at sun down and will wind up with a grand ball at Harmonie Hall at night.

All organizations and lodges will assemble on Main between Lamine and Osage streets and on Osage and Lamine as far south as is necessary, each lodge to be commanded by their respective officers and one division marshal, the latter to be under the supervision of the grand marshal.

**Deserving Praise.**

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits, at Mertz & Hale's Druggists.

—A German baron and a French marquis have been found dead in New

**TEACHERS' INSTITUTE.**

An Important Meeting Held Yesterday at the Broadway School.

The regular session of the city teachers' institute was held on yesterday morning at Broadway school building.

Supt. Smith called the teachers to order exactly at 9 o'clock, and conducted the opening exercises. He then made several announcements and suggestions, after which selections were sung by the pupils of the high school from the high school Music Reader. The singing was unusually accurate and in good tone.

Rev. Mr. Cronce of the First Methodist church, was then introduced and delivered a very eloquent and earnest lecture upon the subject of the Immortality of Character. He first presented his reasons for this belief and then urged the teachers to do their work with utmost patience and sincerity. He touchingly referred to the influence of one of his teachers, and stated that it yet followed him and had caused him to desire above all things to be a true man, strong in the determination to do nothing inconsistent with a nobly perfect manhood. He spoke in all seriousness and kindness and produced a most excellent impression.

The superintendent made some remarks touching the work in the school room, particularly dwelling upon the subject of reading. He strongly defended the phonic method of teaching reading, and urged its further use. He also advised teachers to correct any errors of pronunciation to which they are liable.

The section work was then taken up after which the institute adjourned.

The committee on programme for the year consists of Miss Helen Gallie, Mr. G. W. Horton, Miss Susan Kernoodle, Miss Emma Stosberg and Miss Ella Gentry.

**A Delightful Time.**

D. M. Williams had a royal time at his house two miles north east of Sedalia last week, about seventy-five of his young friends attending. Dancing was one of the features of the evening. Mr. Williams could not resist the sweet music, although his friends say it has been forty years since he danced before. The company all say that the tables fairly groaned with the finest in the land. As entertainers Mr. Williams and family cannot be excelled.

**CASTORIA**  
 for Infants and Children.  
 "Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ANCRAS, M. D., 111 So. Oxford St., Brooklyn, N. Y.  
 Castoria cures Colic, Constipation, Sour Stomach, Diarrhoea, Eructation, Kills Worms, gives sleep, and promotes digestion, Without injurious medication.

**IS CITIZENSHIP TOO CHEAP?**

Chicago Herald.

In theory the foreign-born citizen is led to believe that American citizenship is something to be valued most highly, and that only the worthy elect are admitted to full naturalization.

In practice—especially before an important election—our foreign-born friend is tacitly informed that American citizenship is valued so lightly that it must need no begging for some one to accept naturalization papers. He has learned, as a class, that he need not exert himself to secure American citizenship—that when his vote is needed it will be thrust upon him without even the small expense of the customary court fee. If he is of a convivial turn of mind the embryo citizen may also realize out of the chrysalis process sundry drinks and cigars at the expense of a committee representing a great political party.

Thus it comes about that judges now hold evening sessions to accommodate the ante-election throng of would-be citizens. So many are naturalized in a single evening that even the moderate requirements of the law are hurried through more or less perfunctorily. Doubtless very many good citizens are being rushed through the naturalization mill. It is also reasonable to believe that there are many unfit applicants, and that evasions of the law are not uncommon.

Neither of the political parties has built up this wholesale naturalization process at the expense of the other party. Vote-getting rivalry is too great to permit either of the parties to steal a march on the other. Unfortunately there is danger that increased

party rivalry may open the gates too wide. To lower the value which foreign-born residents should put upon American citizenship, or to invite into fellowship unworthy, ignorant or degraded persons, because they can vote, means that a growing menace is offered to our national strength. If citizenship is worth having, it is worth striving for. But this is to be remembered: The proper place to bar out unworthy foreigners from the rights of American suffrage is at the seacoast.

**A Million Friends.**

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds. If you have never used this great cough medicine, one trial will convince you that it has wonderful curative powers in all diseases of throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money refunded. Trial bottles free at Mertz & Hale's drug store. Large bottles 50c and \$1.

—"That settles it," said the old lady as she dropped a bit of fish-skin into the coffee-pot.

—Louis Gottschalk, United States consul at Stuttgart, has arrived at his home in St. Louis, having been requested to take the stump for Harrison. It is very significant that Gottschalk and ex-Congressman Gunther are the only German-Americans whom the republican committee has secured to stump the west for Harrison, while scores of them are shelling the woods and wire grass for Cleveland. The German exodus from the high-tariff, force bill and prohibition party is a most remarkable development of this peculiar campaign.
