Instruction for Young Farmers.

The short winter courses in Agriculture, Animal Husbandry and Dairying offered by the College of Agriculture at Columbia will open January 4th and continue eight weeks. Tuition is free. The facilities for instruction have been very greatly improved in the last few years, and all indications point to the largest attendance in the history of the college. The period of the winter covered by these courses is a comparatively idle time for the farmers, and the expense is so slight that no one can afford to miss this opportunity to become acquainted with the most up-to-date practice in his specialty of farming. The instruction is altogether lectures and practical demonstrations, no text book study being required. Work is offered in soils, corn judging, seed selection, crop rotations, judging horses, cattle, sheep and swine, milk production, milk testing, butter making, orchard planting and pruning, and all of the other practical subjects required, etc. A handsomely illustrated pamphlet descriptive of these courses will be supplied upon application.

MRS. F. MARTIN.

The old-fashioned way of dosing a weak stomach, or stimulating the heart or kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop to strengthen a weak stomach, heart or kidneys, if one goes at it correctly. These nerves fail then the organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days.
