A. H. T. A. News

Quite a length of time has elapsed since giving news of Monett Sub-order No. 184. The order has been quite busy the last few months. Its membership is gradually increasing and is at present one of the strongest sub-orders in the Southwest, giving Joplin and Carthage sub-orders the lead.

Everything is moving nicely, no depreciation of any character has happened of late, but the order is ever ready at moments notice to act should occasion require it.

On the 31st of March W. M. Cox, a valuable member and one who was esteemed and liked by all who knew him departed this life. Mr. Cox was the first member the order lost by death since its organization. Our charter is draped in mourning for the first time, and all the members feel deeply his demise from our midst. Resolutions of respect were adopted and a copy of same was published in the Weekly News of Girard, Kansas, which is the official organ of the A. H. T. A.

The organization of the orders not allowing any hunting on the premises of the members was of great benefit this last winter. Reports of farm animals being shot by careless hunters were few compared to former years.

It is rumored that a gang of chicken thieves are prowling in Lawrence County and Barry. Watch, it will not be long before a species of bipeds will be cooped up but the kind I mean is featherless.

Not Bad Laws

An exchange says: "When a bank fails in China they chop the president's head off; when a child is convicted of crime they send the old man to jail; when a man molests another man's wife they tie a rock to his neck and throw him into the river; and when a man insults a girl he is punished in a way that he will not do it again." The officials would be kept busy if that were the law here.

WORK THAT TELLS.

Plenty of It Has Been Done Right Here In Monett

Cares that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Monett. People who testified years ago to relief from backache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. How can any Monett sufferer longer doubt the evidence?

J. W. Snyder, Harvey House, Monett, Mo., says: "I was a victim of kidney complaint for at least ten years and my back was lame and painful. The kidney secretions at times became too frequent in passage and dizzy spells and headaches were common. About four years ago when suffering in this way I began using Doan's Kidney Pills, procured from Knapp's drug store and before long they completely cured me."

The above statement was given in December 1906 and was confirmed by Mr. Snyder on December 9, 1908, he said: "I can still recommend Doan's Kidney Pills highly, although two years have passed since I used them. I cannot say too much in favor of this excellent remedy."

Charm of the American Girl.

Here, girls, listen to what London Society says of you! "The charm of the American girl lies in her beauty and social talents. She is an ideal partner to dance with, to take in to dinner or to sit out a picnic with, and she usually makes an active and successful hostess. But when her husband discovers that she is never happy except when going to parties, is bored in the country unless with a housefull of guests, and is always craving to tear from one fashionable resort to another—no real, no genuine—it is then that trouble comes in." Much London Society knows about it, eh? Granted you are an ideal dancer, a beauty and a charming dinner companion, did you ever "sit out a picnic"? Picnics are believed to be obsolete, as far as the type of girl referred to here is concerned.
