

SIX COUNTIES STILL OUT

Secretary of State's Official Count of Returns Delayed.

Jefferson City, Mo., Nov. 16.—The official count of the election returns is being delayed by the failure of the clerks of Buchanan, Douglas, Jackson, Pettis, Washington and St. Louis counties to send in their figures. All other counties have been heard from.

Secretary of State Cornelius Roach is anxious to begin the count as soon as possible, so that he can promulgate the official figures. If any counties are still out by Monday, messengers will be sent after them. The penalty for failure to have the returns in is a fine of \$100 and the cost of sending after them. All under the law, should have been in last Wednesday.

Escapes An Awful Fate

A thousand tongues could not express the gratitude of Mrs. J. E. Cox, of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe, its most reliable of all throat and lung medicines. Every bottle guaranteed. 50c and \$1.00 at A. H. Cox & Co's.

LYCEUM COURSE FOR MONETT

Rev. W. A. Todd, of the Baptist Church, and Rev. H. H. St. Louis, of the First M. E. Church, have arranged for a lyceum course to be given at Monett this winter.

These gentlemen have secured the cooperation of the young peoples' societies of their churches and the pupils of the high school. The profits of the course will go to the societies and a per cent goes to the high school for their library fund.

The young peoples' societies have entered into a friendly rivalry as to the number of tickets each will sell, and what each society receives will depend upon the number of tickets sold by them.

The rate is very reasonable, adult season tickets being \$1.00 and children under fourteen years, 50 cents.

The course is of exceptional merit and our people are giving the project splendid encouragement.

MISSOURI HAS MANY NAMED FARMS

It is said that there are more named farms in Missouri than in any other state in the Union. This is probably due to the fact that Missouri was the first state to have a farm name registration law, the passage of which was secured by W. L. Nelson, present assistant secretary of the Missouri State Board of Agriculture. The cost of registering a farm name is but one dollar, payment to be made to the county clerk. Every farm should have a name. It promotes pride in the home place, and is an incentive to better farming.

A VERDICT IS GIVEN AGAINST DICKERSON

Springfield, Mo., Nov. 16.—The killing of Stanley Ketchel, middle weight champion pugilist on the ranch of Colonel R. P. Dickerson, near Conway, Mo., in 1910 was recalled here tonight when a jury in the circuit court returned a verdict against Dickerson in a suit to collect \$5,000 reward. Suit was brought by three Webster county farmers who captured Walter Duple, who is serving a sentence in the penitentiary for killing Ketchel. Dickerson refused to pay the reward following the capture on the grounds that he had offered it for the dead body of the pugilist's slayer.

"I'll give \$5,000 for the capture of the man who shot Stanley if they bring him in dead. Ten cents if alive," Dickerson says was the way he offered reward. The plaintiffs contended he said he would give the reward for the slayer dead or alive.

The jury upheld them. Not only will the farmers get \$5,000 but also \$500 as interest for two years.

Ketchel was visiting on Dickerson's ranch at the time he was fatally shot. His slayer was captured by farmers next day.

The Demons of the Swamp

Are mosquitos. As they sting they put deadly malarial germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength falls; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malarial germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell, of Lucaena, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c at A. H. Cox & Co's.

MAIL MUTILATED WHEN CARS RUN OVER POUCH.

Aurora, Mo., Nov. 15.—A mail pouch thrown from a train at the Frisco passenger station here was run over by the wheels of the rear coaches and cut to pieces. Considerable mail matter was mutilated, including money that was enclosed in some of the letters. One of the letters contained a \$1 bill. It was folded so that when one of the car wheels cut off a corner of the bill a round hole was left squarely in the center of the piece of paper.

ANDY HAWKINS LOSES HAND

Andy Hawkins, who has been working for several months at the Frisco shops at Springfield, fell under an engine early Sunday morning and a wheel passed over his left arm.

Mr. Hawkins had been working at night and stopped work at 7 o'clock in the morning. At 6:30 Sunday morning he was walking on a platform and accidentally fell over an obstruction, to the track below. Seeing an engine approaching, he had presence of mind to push himself from the track with his left arm. He could not get his arm away in time and the engine wheel passed diagonally across his forearm. He was taken to the Frisco hospital where it was found necessary to amputate the member about an inch below the elbow.

Mrs. Hawkins and sons went to Springfield Sunday morning on receiving the news and Mrs. Hawkins is still with him.

A 120-TON ICE PLANT FOR MONETT

With Proper Effort By Our Citizens This Great Enterprise Can Be Secured

W. E. Ogden, superintendent of the Frisco refrigeration system, and E. S. McLain and M. T. McGraw, of Newton, Kansas, were in the city Wednesday forenoon and made an extended examination of the Callan land, adjoining the Frisco east yards on the north.

Messrs McLain and McGraw are the proprietors of a number of ice manufacturing establishments in Kansas and Oklahoma and contemplate the erection of a 120 ton plant in this city if the ground can be secured at a reasonable figure.

If the Frisco can purchase the Callan property for which they have been negotiating for some time at a fair price a part of the ground will be used for the ice business and the remainder for trackage for the Frisco.

We understand that Mr. Callan has made a very fair offer and surveyors will map out the ground desired this week.

This is a proposition that our people cannot afford to let get away for it will mean much to the future of our city.
