SOUTHWEST MISSOURI FRUIT GROWERS UNION

First Annual Report of the Secretary, Philip B. Davis, of Monett

The annual report of the secretary of the Southwest Missouri Fruit Growers Union, with headquarters at Monett, shows that there were sold by the Union this year 41,111 crates of strawberries and that there was received for the same \$77,636.45. Of this amount \$30,880.91 was paid to the Monett growers.

The price received per crate by the different local associations were as follows: Monett, \$1.84; Purdy, \$1.93; Peirce City, \$2.15; Wentworth, \$1.84; Fairview, \$1.75; Verona, 1.86; Anderson, \$1.83; Exeter, \$1.75.

This is a very good showing considering that this was the first year of the existence of the Union.

KEEPING OUT THE RATS

In the current issue of Farm and Fireside appears a department entitled "The Headwork Shop" in which various contributors report "handy kinks that will save you time and labor." Following is a contributor's account of how one man fought the rats:

"A Wisconsin farmer estimated that for years the rats got from fifteen to thirty bushels of barley every season from his granary. He tried every known way to get rid of the rats, but failed. He tried every season to stop all the rat-holes, but still they gnawed through.

"Last year, while putting concrete floors in his barns and granary, it occurred to him to make his granary rat proof.

"On the walls of his granary he tacked laths perpendicularly, a foot apart. Over these he stretched and tacked chicken wire. Then put on a coat of cement about an inch thick. The chicken-wire holds the cement until it hardens. He now has a solid cement granary, unbreakable and rat-proof. The cost was insignificant."

DAVIS—JACQUES

W. W. Davis and Miss Edith Jacques were married Sunday, December 14, at the home of the bride's parents, Mr. and Mrs. John Jacques, southeast of town. They will make their home on Mr. Davis' farm four miles southeast of Monett. Only a few relatives and friends were present at the wedding.

DRY KANSAS SAVES MONEY

Topeka, Kas., Dec. 13.—Although \$5,000,000 worth of intoxicating liquors was consumed in Kansas last year, Kansans are saved more than \$29,000,000 a year by prohibition.

This is the story told by figures gotten by Gov. Hodges from the County Clerks and made public today. The report was compiled by the Methodist Temperance Society of Kansas.

The State, according to the report, consumes an average of three and two thirds gallons for each resident, while the average consumption in the United States exceeds twenty-two gallons.

Kansas has a population of 1,690,949 and the total amount of alcoholic beverages consumed is placed at 6,230,601 gallons costing \$5,303,966, an expenditure of \$3.04 per capita.

Asserting the expenditure for liquors averages \$21 per capita in the country as a whole, it is figured that the saving to the people of Kansas is \$18 for each person.

Mrs. E. B. Wright, of Peirce City, was shopping here, Monday.

B. P. McCaslin has returned from Kansas City.

Some mischievous boys went into Porter Smith's barn, Sunday, hitched his horse to the buggy and drove to Purdy without asking permission. Such pranks are risky for the boys as everyone might not be so lenient with them as Mr. Smith and they might get into serious trouble.
