**Do You Know What You  
Get When You  
Buy Milk?**

THE TEST IS WHAT TELLS. THE TESTS BELOW WERE MADE WITH MILK BOUGHT OFF THE DAIRY WAGON IN THE REGULAR WAY. WE DID NOT KNOW THAT THE TEST WAS GOING TO BE MADE AND DID NOT KNOW IT UNTIL A LONG TIME AFTERWARD. READ WHAT PROFESSOR COWARD SAYS:

**MONETT HIGH SCHOOL**  
L. H. COWARD, Principal

MONETT, MO., May 25, 1916.

To Whom It May Concern:

Upon request of the owner of the Jersey Cream Dairy, I will state that my class studying agriculture made the Babcock Test of the milk sold by this Dairy on two different days and on two different samples and found in both instances that this milk showed 5.5 per cent. butter fat.

Respectfully,  
L. H. COWARD.

Thirty cows were milked and all the milk put together. These tests were made from a part of this milk, which is sold daily in Monett. We challenge the world to beat the above record under like conditions.

This same kind of milk is delivered at your door daily upon request.

Get the best. The butter fat, or cream, is what you want. There is only 13 per cent. of food product in skim milk; the other 87 per cent. is water. You have this water in your hydrant.

There is more food in a quart of good rich milk than anything else you can buy for the money, provided you get the cream. We do not extract the cream from the milk we sell. YOU GET IT PURE.

Respectfully,

**Jersey Cream Dairy Co.**
