

Dependable Power

With a Type "M" Coal Oil Burning Engine you are sure of power when you need it. A Windmill gives power only when the wind blows; and you have no doubt noticed that during the dry hot weather there is often no wind. Then is when you need the water most. Type "M" Engines cost about one-half the price of a windmill. They are much cheaper to operate than a Gasoline Engine. Call and let us figure you a water system for your farm.

MONETT SHOPMEN JOIN IN WALKOUT

Craftsmen at this Point Vote Unanimously to Stop Work Until Settlement is Reached.

The Frisco shopmen walked out at noon today and met at the Elks club house at 1:30 o'clock, to consider the question of remaining out until a settlement of the wage question and other grievances is reached. A vote resulted in unanimously deciding to remain out until matters are settled satisfactorily.

The walkout includes, machinists, boiler makers, electricians, blacksmiths, carmen, sheet metal workers and pipe fitters. The men contend that on account of the high cost of living they are entitled to higher wages.

The question of higher wages has been pending since January, 1918 when the railroad shopmen asked to be paid at the rate of 85 cents an hour, the same as the shipyard men in the same line of work. On being assured that their claims should be considered, they continued to work at the old rate of 68 cents. Their petition was renewed in January, 1919 and no settlement having been made they have decided to force a decision by a walk-out.

The Sapulpa, Okla., shopmen went out at 9 o'clock this morning; the Tulsa men at noon Sunday and Birmingham, Memphis and Amory walked out Saturday. All these points are on the Frisco. Other roads are doing the same.

Carl Majors, Killed in Argonne.

TELLS OF SON'S DEATH

Mrs. A. L. Hodson has received the following letter from the Captain commanding the company of which her son Carl Majors was a member. The letter tells of Carl's death, and is as follows:

West Plains Mo., June 23, 1918.

Mrs. A. L. Hodson, Afton, Okla.

Dear Friend: In answer to your last letter will write you again about your dear son, Carl. I have been trying to find out more about him than I already know.

From Sept. 26, to Oct we were in the Argonne drive and during that time we lost 5 men killed and 60 wounded and Carl was one of that number.

We had advanced about seven miles when we were relieved and taken back about twenty-five miles for a two weeks rest. When we were relieved on the battle line on Oct. 1 there were two men who we didn't know for sure just what had happened to them, Carl was one of them.

We afterwards found out that Carl was hit by a big shell and one arm and one leg was badly hurt, and was carried from the battle line back about a quarter of a mile to a dressing station where they gave the wounded some treatment, put them into an ambulance and sent them to a hospital.

It seems that Carl was so badly hurt that he died in this first dressing station. You may be certain however that he had good treatment and the best of doctors.

The Lieutenant that Carl was with most of the time (Lt. Boles) took sick a week later and died of pneumonia.

The place where Carl was hurt was in a woods known as Montrebaugh Woods about one mile north of Charpeny, France. He died about one and one-half miles north of Charpeny. All of these places are in the Argonne Forest.

During the six days we slept on the ground or in German dug-outs and were under shell fire all the time.

About Sept. 20, Carl showed me some fine pictures which he had just had taken and was sending them to you. I hope you received them as they were very good.

You may be sure that Carl was wounded while fighting bravely and died in defence of his country. These losses are very hard to bear but I know it must be some satisfaction to you to know that he was a good soldier and often spoke of you, and seemed very anxious to come home and see you.

If there is anything else that you want to know be sure and let me know. Yours Truly,

W. D. Springer.

Carl Majors was a brother of Mrs. Ed Hundley, of Monett.

Mr. and Mrs. A. W. Gilbert and sons will leave, Sunday, for a visit to different places in California.

Mr. and Mrs. Mace Jacques are expected home tonight from a month's visit at Kansas City and Tonganoxie, Kan.

WHAT SALARY ARE YOU WORTH

A man went into a store and applied for work. He wanted a salary of \$1,500.00; he was told he was not worth the money and he naturally asked the reason. He was told the reason as follows:

Each year has 365 days. You sleep 8 hours each day, which equals 122 days. This leaves 243 days. You rest 8 hours each day, which equals 122 days; this leaves 122 days. There are 52 Sundays each year that you don't work equals 52 days; this leaves 69 days. You have a half-day off each Saturday, which equals 26 days; this leaves 43 days. You have one and one-half hours for lunch, which equals 28 days; this leaves 15 days. You get 2 weeks' vacation each year, which equals 14 days; this leaves 1 day that being the Fourth of July, and we don't work on that day.—Exchange

A GOOD FRIEND

A good friend stands by you when in need. Monett people tells how Doan's Kidney Pills have stood the test. Mrs. John Suttles, of 410 Euclid avenue, Monett endorsed Doan's six years ago and again confirms the story. Could you ask for more convincing testimony?

"I suffered for several years from inflammation of the bladder and kidney complaint," says Mrs. Suttles. "There was a hard steady backache and I had nervous headaches and dizzy spells. It hurt me to stoop or lift anything. I doctored but got no relief at all until I began using Doan's Kidney Pills. They made me strong and free from kidney trouble." (Statement given September 30, 1911.)

On April 4, 1916 Mrs. Suttles said: "Doan's Kidney Pills have never failed to help me. I have told others about them for I know they are a reliable medicine."

PATRONIZE PEIRCE CITY PICNIC GROUNDS

Many of the people are taking advantage of the picnic grounds the park at Peirce City affords and during the summer several hundred people have visited there, seven picnic parties from here were there in one day.

It is a place to be proud of, situated in a picturesque spot with rustic benches and bridges, small stream of water in which the children can wade and beautiful scenery with plenty of shade, and especially pretty is the sunken garden, where the flowers of our grandmothers days are blooming profusely. They are bachelor buttons, pinks, Goldenglow, poppies, zenias, dahlias and cannas.

For recreation and amusement there are teeter-totter boards, swings, sand piles and slides for the children and five lawn swings, also horseshoe court and such games for the comfort and amusement of the older folk.

It is very conveniently arranged for the picnic meal, there being tables to seat 200 and benches for all, with a well of good water and a concrete stove for cooking, being lit by electricity so one can spend the entire evening in this beautiful picnic place.

They have added many new tables and benches, twelve benches have been added lately and are making improvements as fast as their funds will permit, this park being kept up entirely by donations from the public in an amount from a 5 cent piece from the child to 25 cents or more from the grown-ups.

The management would like more bird houses and are in need of chains for the swings to replace the rope as there has had to be five new sets of ropes thus far.

Every need is trying to be provided for as there is even a shelter house for protection in case of rain.

Anyone wishing ice cream or soft drinks can have same by phoning 196 Mrs. Joe Ferguson, and she will have the stand open and ready for business.
