**CENTRAL SCHOOL NOTES**

Report cards will be issued this week or at least on Monday of next week. It is hoped that parents or guardians will carefully examine even the smallest details given on these cards. All very low grades and all failing grades will be marked in red ink. Grades marked in red ink indicate that something is radically wrong. There may be many causes for low grades however. Perhaps your child has missed several days of school. Perhaps it is your child whom the teachers tried to help much, but cannot because the child does little work. Perhaps the child has been promoted too soon. On the other hand perhaps these may be some physical defect. Perhaps your child and the teachers do not understand each other. Whatever the cause it should be removed. The teachers will welcome any kindly comment or criticism which you may give with the expectation of helping your child and us. On the other hand we very much desire to eliminate all absences in order that we may have a better chance. Cooperate with us now and we will have fewer failures.

The boys are preparing to help Mr. McKee in erecting our new giant stride.

The morning class hopes to compete with nearby towns sometime in the spring. The afternoon class had an interesting session last week Eugene Smith won first place in story telling.

Teachers' meeting will be held several nights this week for the purpose of deciding who is to be excused from examinations.

**Catarrhal Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.
