WASHINGTON LEADERS AGREE ON BONUS MEASURE

Washington, Jan. 7.—A general agreement for the enactment of a bonus bill for former service men in the present session of congress was reached at the conclusion of a White House dinner tonight between President Harding and a number of senators, representatives and members of the cabinet.

The plan contemplates, it was understood, that the cost of the bonus will be defrayed if possible from receipts from the allied debts to the United States. If these are not sufficient it was said, it was tentatively suggested that a sales tax might be supported by the administration for the purpose.

All the agreements reached tonight were provisional, it was emphasized by those who attended, and subject to revision if a further canvass of sentiment among Republicans in the house makes it necessary.

Other items of legislation under discussion included the permanent tariff and the refunding bill for the allied debt.

The conference lasted from 7 p. m. until midnight and the report said that every detail of the legislative situation was discussed, although it was not the decision to outline definite plans or a definite program until other conferences have been held. It was indicated that President Harding would call in other representatives and senators later to give a broader scope to the discussions.

The bonus bill, it was said, would probably be brought up in the senate in the very near future as a result of the negotiations tonight.

FEDERAL MOVE AGAINST GRADE CROSSINGS

The country railway grade crossing has been tabooed by the Federal Government. No new legislation is proposed to bring about elimination of this cause of 13,000 casualties last year, but aid which the United States Treasury bestows upon road building will in the future go chiefly to those projects from which the dangerous crossing has been removed.

Co-operation of the various States is necessary, to be sure, in carrying out this policy fully. It is announced by the Agricultural Department that perfect accord with the movement is evinced by every Commonwealth with whose Highway Department the matter has been discussed. Indeed State officials could not well object to this plan, for they are yet nearer the victims of accidents at grade crossings, and know the great need of banishing this agency of death.

Three methods of dealing with the problem are being employed by Government road-building experts. Where an important highway skirts a railroad for a long distance, crossing it at grade level, an effort is made to change the route to follow but one side of the rail line. This is expensive, but frequently results in a shorter, straighter course—and, of course, always a far safer one. The other means represents overhead and subway crossings.

The grade crossing in town or country must give way before the rapidly increasing traffic, which adds as fully to the hazard of travel. Some menaces to public safety are difficult to wipe out, but this is not true of the railway-highway intersection. Its elimination is a matter of expenditure of money only, and as a rule the cost of making the crossing safe is not burdensome. Objection to thus buying safety cannot withstand the demands of public welfare.—St. Louis Times.

JURY FAILS TO PLACE BLAME

Open Verdict Returned at Sarcoxie at Probe Into Collision in Which Two Meet Death.

Sarcoxie, Mo., Jan. 7.—A coroner's jury at an inquest here this morning failed to place the blame for a tragic rail crossing crash here Thursday afternoon in which two boys were killed and two other persons were injured.

The jury's verdict follows: We the jury, find that Paul Wild and Alva Wyatt came to their deaths by reason of injuries received, resulting from the collision of a Frisco passenger train and a coupe motor car at the Central street crossing in Sarcoxie, January 5, 1922."

Engineer T. L. Holland, Fireman H. A. Cochran and four witnesses to the accident testified at the inquest which began at 10 o'clock this morning.

Holland testified that he gave the usual signal as he approached the crossing, and that he sounded the whistle when a short distance from the crossing. He said he did not see the motor car until a moment before the crash, as it approached from the fireman's side of the engine cab. He said he saw the radiator of the car when he was about twenty feet from the crossing and that he threw on the brakes. He testified that the engine hit the motor car squarely and dragged it about seventy-five feet down the tracks before he was able to bring the train to a standstill.

Fireman Cochran said he rang the bell as the train neared the crossing and that he saw the motor car coming and saw the driver sidling the wheels in an effort to stop it. He said he threw up his hands and shouted to the engineer and that the engineer applied the brake immediately.

The motor car, he said, slid onto the tracks and was at a standstill when the engine crashed into it.

Witnesses of the tragedy testified that the motor car was being driven about fifteen miles an hour. They said tracks in the road showed the wheels of the car had skidded about twenty feet before the car went onto the tracks.

The inquest was conducted by Coroner Perry K. Hurlbut of Joplin.

Alva Wyatt, son of Mr. and Mrs. Walter Wyatt of Sarcoxie, was 14 years old. Paul Wild, son of Mr. and Mrs. Gilbert Wild of Sarcoxie, was 13 years old. Both youths were riding in the rear seat of the car at the time of the accident.

The injured, Miss Ella Lambeth, 15 years old, and Walter Wyatt, 43 years old, are reported on the way to recovery. They are at their homes here. Both sustained a number of bruises and scratches, but neither was seriously injured.

The funeral of Alva Wyatt will be held at 2:30 o'clock tomorrow afternoon at the Dudman church. Burial will be in Dudman cemetery.

Funeral services for Paul Wild will be held at 11 o'clock tomorrow morning at the Presbyterian church. Burial will be in Sarcoxie cemetery.
