Photographs AT Belle Johnson's Studio

Second Notice.

All persons owing the late firm of Wood & Umstadd are requested to call at the store of Wood Bros. and settle same as the change of business necessitates the closing up of the old Books.

We make choice farm loans at 5 per cent interest.
Davenport & Co.

A. Jaeger has met with a very painful accident that might easily have been a very serious one. He attempted to step from a tall step ladder onto the counter and missing the counter raked the right leg against it, from the ankle to the hip, bruising quite badly. The limb was so sore that it kept him at home several days.

City Election.

The city election is not far off and those who have staves to fix or re-election to look after had better be about it. If there are any Crows they had better be weeded out for this is not a sleepy town.

Entertained.

Miss Belle Johnson entertained twenty of her young friends at her Studio Thursday evening. The flooring is not quite finished in part of it so that does not make a perfect floor for dancing, then we do not know. One thing is sure, the young people thought so.

Broken Foot.

T. M. Carrico, a prosperous farmer was in the city on crutches Saturday and it was the first time in several weeks. He was so unfortunate as to let the wheel of a wagon loaded with 95 bushels of oats run over the instep of the left foot and break some of the small bones.

Banks.

The State Exchange Bank of Macon, Missouri, occupies a half page of the Times this week with a statement of its financial condition. This progressive bank understands the value of printers' ink and also appreciates the good work the newspapers of Macon are doing in building up that rapidly growing town.—Hambill Journal.

Pillows To Rest.

Saturday we dropped into Dr. C. A. Noland's office and there saw some twelve or fifteen fancy lounging pillows that would put the heart of any of the fair sex in a flutter. They are beauts and prized highly by him for each of them is the handiwork of a lady friend. If he don't look out some girl will abduct him to get the pillows.

Howard Terrill, of Warren, who came to this city a few months since to learn telegraphy at the State Normal, has returned home. He was in the city when he completed the course, he would not be able to follow the profession because his eyes are weak. He is a nice young man and was rapidly making friends in this city.

Skinned Nose.

Major Maddox, one of the fore handed farmers of near Shiel, was in the city Saturday wearing court plaster on the bridge of his nose. The brake on a wagon and the air brake don't work just the same. As the Katy passenger pulled into the city he left the seat to leave the car, whiz, went the air, chug, went the wheels and Mage pitched against the door jam. Well, that beats the wood pile any way.

School Fire.

Cooperville came within an ace of losing its school house by fire Thursday night. Y. Bird and C. Miner had been attending a dance and returning by the school house saw a light there and supposing that a crap game—why they supposed that we did not learn—was on they went to the door to see, and then to the window they saw the floor was burning and a space of 4x6 feet was destroyed. They promptly extinguished the fire by carrying in large blocks of frozen snow and dumping it on the fire.

A new stove had been taken out to replace the old one, but had not been set up. Some of the boys think the new stove was burned up.
