Big Cattle Shipment.

Twenty thousand dollars worth of stock shipped out in one week is doing pretty well for a town the size of Paris, with only one railroad, but that is the official figure for the week just passed and is believed to be a record-breaker. The shipment consisted of mixed stock, cattle and hogs and the money paid for them is now deposited in Paris banks to the credit of a half dozen or more successful Monroe County feeders. The record made shows again the supremacy of Monroe County as a stock center. Among the cattle were the McKamey, Sanders and Howell herds. The McKamey cattle brought \$5.20, the Saunders \$5.15 and the Howell \$4.76. Byrd Bros. and Buford had shipments of butcher stuff in the lot.—Paris Mercury.

Cards are out announcing the marriage of Miss Ursula Durst and Byron McFarland at the home of the bride's parents, Mr. and Mrs. Henry Durst at 12 o'clock noon Wednesday Oct. 5. Mr. McFarland is one of Monroe's best young men, steady, industrious, reliable and is a model young man in ever respect. Miss Durst is one of Marion county's most charming young women and possesses all those noble traits of character to be found in a true woman. In advance the DEMOCRAT wishes this happy young couple a pleasant journey down the stream of life.

A Big Snake.

No the dratted big snake was not ours, for it was H. Frank Potterfield who caught it in the woods west of Ely and brought it to this city Tuesday in a box with a wire screen top, so he could show the natives a real live snake that was a snake.

It was a diamond back rattler and a beauty if that kind of a thing can be called beautiful. It measured 5 feet 9 inches long and 6 inches in circumference. Frank wanted to sell, but failed to find a purchaser.

Dream Filled.

Monday night we had a queer dream and before 8 a. m. Tuesday, as a leading merchant will verify, it came true. That morning we walked into his place of business and said to him: Say, I dreamed last night that you had fixed up a nice big adv. for me and it was nearly all of cuts, what's in it? His reply was: By, Jove, hear's your dream to a letter and gave us just what the dream called for. You will readily recognize the adv by its being composed of four cuts.

Farmers should bear in mind that the way to prevent stock being killed by lightning passing along the wires of a fence is to ground the wires. It wont cost much in money or labor. Attach a wire long enough to wind around the top wire of your fence and run a few inches into the ground. See that the short wire touches all the wires of your fence.—LaBelle Star.
