## Farmers & Merchant's Telephone Co.

### The Home People's System

We will give our patrons all the exchange we can get by honorable means. We would like to offer them more than we can at the present but the fact of the matter is that we have been boycotted by all the commercial systems north and west of us. When the people in our neighboring communities throw over the telephone trust then we can make the service what it ought to be. A telephone trust may be small but it's nasty.
