It is important that democrats should this year send to congress the men who can accomplish most for the people. The work which democrats have commenced is of the greatest importance and the strongest and best prepared men should be kept on guard. It is generally recognized that Missouri has the strongest state delegation in Congress. The democrats of the state should see to it that our state still continues the strongest possible delegation. For years the east has had the advantage over the south and west in that they kept true and tried men long in congress. They knew what to do and were men of greater influence because of their longer experience and could do more for the interests which they represent. The democratic members of the Missouri delegation are all representing the interests of the people. Of all the Missouri delegation none are stronger and more useful men in congress than Wm. W. Rucker, the representative from the second district.

Special privileges which were given the few under Republican rule had to be paid for by the Republicans, Progressives, Prohibitionists, Socialists, Democrats who make up the masses.

The Torrens system of land transfers gives the owner a guaranteed title with a guarantee that is good. Let Missouri adopt it.

Under Republican rule the great trusts and monopolies were greatly favored.

Reckless automobile driving is an important object.

Equal rights to all and special privileges to none is Democratic.

The man is greater than the dollars. Place not the dollar above the man.

Our present system of land transfers is very unsatisfactory, uncertain and expensive. Let us adopt the Torrens system.

The Democrats have so framed the laws that it will in the future be impossible for Wall Street to give the country a panic whenever such panic will benefit Wall St.

Democracy has been the shining light from the foundation of our government. It has ever lighted the path by which people obtain equal rights.

Central College Welcomes New President.

In chronicling the inauguration of Rev. Dr. Paul H. Linn as president of Central College at Fayette, The Democrat-Leader says: "Trace the life work of Paul H. Linn since he graduated from Central College, and it is easy to be seen why he is the right man in the right place. His very name spells success. He is a young man with brilliant intellect, large experience, extensive travel, and brim full of energy. Thus far in life his connection with whatever enterprise has meant the success of that enterprise. And so it will be with his work as president of Central College. It is no stretch of the imagination to see 500 boys attending Central College in the near future. President Linn is in touch with the young manhood of Missouri. His motto is a Greater Central. He always succeeds.

On Monday Mrs. John Hubbard started to Palo Alto, California, to see her parents. She was joined in St. Joseph by her brother, Rev. H. C. McPherson, and son Howard. They will be gone about a month. Their parents will have been married 50 years in the fall, and they had not seen them for several years.

Were United In Marriage.

At 10:30 yesterday morning (Saturday) occurred the marriage of Miss Nina Greeves of Lewiston, Montana, and Mr. A. E. Wilson, of Monroe City, the ceremony being performed by Judge Thomas L. Anderson in his office parlor on Broadway. The marriage was witnessed by several spectators who chanced to be present at the time.

The bride is the daughter of Mr. and Mrs. Robert O. Greeves who formerly resided in the western part of Ralls county but who moved to Montana some six months ago. She is a very handsome young lady, about nineteen years old, and will no doubt, make the man of her choice a devoted and faithful wife. The groom is aged twenty five and is engineer at the ice plant in Monroe City. He is a steady, honest and industrious young man and is to be congratulated for winning the heart and hand of such an amiable young lady. The young couple returned to Monroe City yesterday afternoon and will engage in house-keeping.—Hannibal Journal.

Just Wait Until T. R. Sees This!

A party of skaters were once progressing at considerable speed down a certain frozen river in Canada when, to the horror of his companions, one of the party was seen to skate straight into a hole in the ice. Before he could stop himself he had fallen through it, and the sharp edge of the ice cut his head clean off his shoulders. The speed at which he was going, however, caused his head to skim along the top of the ice, while the rest of his body traveled at an equal speed beneath it, until, by a stroke of good luck, the severed portions met at another hole farther down, and joined so exactly that the unfortunate man came out of his accident with nothing worse than a severe cold.—Strand Magazine.

Farm Clean-Up Spirit Winning

The first "Farm Clean-Up Day" suggestion came from Missouri, of course, that is the place from which so many of the good things of America have sprung. The "Farm Clean-Up Day" movement this year won the approval of Governor Major, the Federation of Women's Clubs, the Farmer's Clubs and Community Clubs, and many thousands of thoughtful farmers. Next year let us hope it will become a working holiday throughout rural Missouri and that its efforts may brighten every home, clean up every school house and improve every country church building.

John S. Jayne and wife of Hannibal spent part of the week with his parents. John is one of the city letter carriers of Hannibal. He is courteous and accommodating.

Rev. and Mrs. Sam P. Gott and Miss Mamie Simms of Boonville, have gone to Boston to attend the Northern Baptist Convention.
