

The Nationally Accepted Wall Tint

No Package Contains Without Cover and Clings Printed in Red

To Get Alabastine Remedy You Must Ask for Alabastine by Name

Beautiful—Sanitary—Durable—Economical
for Homes, Schools, Churches and all Interior Wall Surfaces
Alabastine can be applied to plastered walls, wallboard, over painted walls that have become soiled, or even over soiled wallpaper solid on the wall and not printed in aniline colors.

Alabastine is a dry powder, ready to mix with pure, cold water, full directions on each package. Alabastine is packed in white and beautiful tints. These, by combining and intermixing, enable you to carry out individual color plans in matching rugs and draperies. Alabastine is used in the finest residences and public buildings, but priced within the reach of all.

You will readily appreciate the economy of Alabastine over paint or wallpaper, and its results will be most gratifying.

New walls demand Alabastine, old walls appreciate Alabastine.

If your local dealer cannot or will not supply you, take no substitute but write for Alabastine designs and we will give you name of nearby dealer.

Alabastine Company
1632 Grandville Ave., Grand Rapids, Mich.

MISSOURI State News

EDITORS TO ADDRESS MISSOURI U. JOURNALISTS

St. Louis.—The 1921 Journalism Week at the University of Missouri, to be celebrated from May 23 to May 27, will include lectures, plays, moving pictures dealing with newspaper work, and will be concluded with the annual banquet to be known as the nationally advertised banquet, the nature of which will be disclosed later.

The Missouri Writers' Guild will meet in connection with the program and the Missouri Press Association will meet the latter two days of the week. Several prominent editors and writers are on the program for addresses.

Tuesday will be devoted to discussions concerning the editorial page. Wednesday will be known as Advertising Day, and a collection of exhibits will be shown. Wednesday night the visitors will be shown a moving picture on the manufacture of news print, and on Thursday the Missouri Press Association will convene its convention. A luncheon will be given Thursday by the Columbia Commercial Club in the Daniel Boone Tavern. Several one-act plays, showing the development of the country newspaper, will be presented on either Thursday or Friday. They have been prepared by the advertising department of the Missouri Press Association. A larger attendance is expected than at any similar celebration since the United States entered the war. Editors again have been invited to exchange advertising for their transportation, a custom eliminated when the railroads were under government supervision.

Girl Gets Financial Support.
Springfield, Mo.—Maxwell Hoblitzell of New York telegraphed to Miss Glen M. Ballie, held as an accessory to the murder of Alfred J. Seigfried, Kansas City jewelry salesman, that he would furnish all funds necessary for her defense. He had just learned of the girl's predicament, he said. The girl says Hoblitzell is her half-brother. She was arrested December 24, the day after Seigfried was killed in a local hotel.

Negro Acquitted Attacked in Court.
Frederick, Mo.—An outbreak occurred in the circuit court room when a jury acquitted Charles Henry Dorsey, negro, of criminal assault upon Miss Delia Tweedle of Baltimore. The prisoner was struck by members of the girl's family. An inkwell, hurled at him, struck the clerk of the court, and Dorsey was saved from mob violence by one of the judges. The negro finally was spirited to jail and is protected by a heavy guard.

Buying Stock for Calf Clubs.
Fulton, Mo.—L. W. Holman, of this city, has gone to the Ozarks, where he will purchase a carload of Holstein and Jersey heifer calves for the recently organized calf clubs of Fulton and New Bloomfield. Holman expects to make the Jersey purchases in Jasper County. Money for the shipment has been advanced by Col. N. L. Townsend, of Fulton, and R. L. Smith and E. E. Cline, of Metairie.

Farmers to Hold Fair.
Mount Vernon, Mo.—The second "fair for farmers, not fakers," will be held in Mount Vernon from September 20 to October 1, inclusive, according to Keith McAuse, one of the managers. The Lawrence County harvest show last year was one of the most extensive expositions of the kind held in this part of Southwest Missouri.

Women Raising Hospital Fund.
Louisiana, Mo.—The women of the Century Club of this city are at work raising a fund of \$25,000 to help in maintaining and equipping the Susanah P. Barr Memorial Hospital in this city. Robert A. May, executor of the estate, announces that \$30,000 is now available in the fund bequeathed by Susanah P. Barr for the hospital.

Hopkins High School to Graduate 16.
Hopkins, Mo.—Dr. J. A. Thompson, president of Tarkio College, will deliver the commencement sermon to the graduating class of the Hopkins High School at the Methodist Church, on Sunday evening, May 15. The commencement exercises will be held May 20 at the Christian Church, and 16 will graduate.

Fair to Be Revived.
Paris, Mo.—Paris is planning to revive the old-time Mouse County Fair, and a committee is now at work securing pledges from Paris men to underwrite a guarantee to put the project across. At this juncture the outlook is promising to put the plan through.

Couple Married 50 Years.
Butler, Mo.—Eneb Terry and wife, residing southeast of this city, celebrated their 50th wedding anniversary at their home. They were married at Appleton City, Mo., April 20, 1870, and have resided within 10 miles of where they were married all these years.

Charges Loss of Wife's Affections.
Sedalia, Mo.—Edgar H. Lutman of Frisco, Mo., filed a suit against Ira Fahnestock, who lives south of Warsaw, for \$10,000 damages for the alleged alienation of the affections of his wife, Edna E. Lutman, on April 9, 1921.

One Dead From Wood Alcohol.
Joplin, Mo.—P. B. Smith of Picher, Okla., is dead and several others are reported seriously ill as the result of drinking a concoction which, according to the belief expressed here by P. K. Hurlbut, county coroner, contained wood alcohol.

Boys Stealing Ride on Freight Train.
Clifton, Mo.—Two unidentified boys "riding the rods" were drowned when a Wabash freight jumped the rails near here and landed in a flood creek bed.

Bank Cashier Resigns.
Perrin, Mo.—R. L. McKee has resigned as cashier of the Perrin Bank and his place will be taken by George S. Harris, of Cameron, a large stockholder of the bank. McKee will take a long rest to recuperate.

Society Girl to Wed.
Charlottesville, Mo.—The engagement of Miss Catherine Dameron, the daughter of Mrs. Edward Caspell Dameron, to William Washburn, of St. Joseph, Mo., was announced at the Dameron home here.

Conference to Be at Forestport.
Forestport, Mo.—Forestport has been selected as the city for the 1922 conference of the Charleston District of the Methodist Church. L. D. Baker was elected lay leader.

ROOT AND SALAD CROPS IN FAVOR

Can Be Cultivated With Hand Tools and Take Up Comparatively Small Space.

FRESH THINGS ALL SUMMER

Specialists Suggest That Plantings Be Made a Week or So Apart to Obtain Succession of Various Kinds of Vegetables.

Prepared by the United States Department of Agriculture.

Where garden space is limited plant root and salad crops. No garden, large or small, is complete without them, but they are particularly adapted to small back-yard gardens. Among the root crops are radishes, beets, carrots, parsnips, salsify or vegetable oyster, and turnips. Salad crops include lettuce, common or wild cress, dandelion, Cos lettuce or romaine, Chinese cabbage, and others. They require little space, because they can be planted in rows from 10 to 15 inches apart, and cultivated with hand tools. Many gardeners make only one planting of these crops, but the garden specialists of the United States Department of Agriculture suggest that several plantings of them be made a week or so apart, in order to have a succession of those vegetables.

Radishes are one of the first and best vegetables that come from the garden in spring. They should be planted as early as possible, whether for market or home use. For the home supply small amounts should be planted, and at least two or three plantings made with varieties that mature at different times.

Beets are one of the most important crops for the home garden. Seed can be planted just as soon as the soil is in condition to work. When the plants crowd one another in the row, thin them out when they are young, and cook them as greens. Later, when

they are about an inch in diameter, both leaf stems and young beets can be cooked together. When the beets are larger the leaf-stems become tough and woody. As a rule two plantings should be made, one extremely early and another in about four weeks.

Carrots should be planted just a little later than beets, and as soon as the plants are up they should be thinned. A second thinning will leave the plants one and one-half to two inches apart in the row and give a supply of small carrots, known as baby carrots, for use on the table. The tops of the carrots cannot be used for greens.

Parsnips and salsify are more in the nature of winter crops; that is, they are grown during the summer and kept for winter use. A section of row 20 to 30 feet long generally will produce all the parsnips or salsify that the average family will want.

While it is true that too much lettuce often is planted at one time, not enough attention is given to keeping a continuous supply. Lettuce plants grown in the hotbed or cold frame, or in a box in the house, can be planted in the open ground just as soon as the danger of the last frost is past.

Fresh Things All Year.
By making a study of the different kinds of salad crops offered in seed catalogues one can easily have a continuous supply from the earliest springtime until the late autumn, and even into the winter. Water cress, for instance, is grown commercially in ponds or spring-fed streams in sections where the water naturally contains large amounts of lime. By starting water cress from seeds sown in a box in the house or by getting a bunch of cress in the market and using the stems for plants, it is easy to grow a bed of water cress without the aid of a stream or pond.

Chickory, or endive, is one of the finest of the winter salads. The roots are grown during the summer, and then dug in the fall and packed in the cellar in boxes of moist sand, the roots being placed rather close together in the box with the crowns or tops near the surface. A covering of straw is placed over the box, and the soil around the roots kept moderately watered. Fresh young leaves will be formed beneath the straw, and as they are grown in comparative darkness, these are white, crisp and tender.

WILD DANDELIONS ARE FINE
Some Gardeners Cultivate Them and Get Best Quality for Salad by Covering Lightly.

Thousands of bushes of wild dandelions are gathered from the pastures and meadows for greens every spring. Some gardeners cultivate them, and get the best quality for salad by covering them with a light coating of fine straw which causes the hearts of the plants to develop into a cluster of bleached and tender leaves.

Catarrh Can Be Cured

Swamp-Root is a most effective remedy for Catarrh of the bladder, ureters, and kidneys. It is a natural product of the Great Smoky Mountains, and is the only vegetable that grows in the same soil as the medicinal herbs.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidney, liver and bladder do the work nature intended they should do.

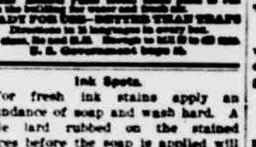

Swamp-Root has stood the test of years. It is used by all druggists on its merit and it should help you. No other kidney medicine has so many friends. Take no chance to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Painters are now getting on their spring overcoats.

ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturing of Monoaceticacidester of Salicylicacid.—Adv.

STEARNS' ELECTRIC TRAP

TAKES CARE OF 5 CHILDREN

Mrs. Taylor's Stomach and Bowel Remedy by Lydia E. Pinkham's Vegetable Compound

My husband and I have five children, and I have been sick for many years. I have tried many remedies, but nothing has helped me. I have heard of Lydia E. Pinkham's Vegetable Compound, and I have bought it and taken it. It has done for me what nothing else has done. I am now well and happy, and my children are all well and happy.

Blood Is the Sap of Life; Keep It Pure

You grow by good blood as a tree grows by sap. Rich blood, robust man. Good sap, sturdy tree. Keep the blood healthy and wholesome; poor, impoverished blood cannot nourish the body or remove the waste as nature intended. When your blood is impure, itching, flaming skin eruptions often break out, and your body gets run down and weak—easy prey for disease. To be safe, keep the circulation wholesome. For this S.S.S., the famous vegetable blood purifier, is excellent. Start enriching your blood with S.S.S. today, and write about your condition to Chief Medical Advisor, 838 Swift Laboratory, Atlanta, Ga.

Where there's a will there is usually a way. Spite enables the fool to believe he is happy in his unhappiness. Important to Mothers: Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fitch*. In Use for Over 30 Years. Children Cry for Fletcher's Castoria.

THIS SINCE WORLD BEGAN MEN WEAR BENEDICT RINGS

As Philosophers Have Said, Devious Are the Ways to the Heart of a Maid. Lo! there was once an artistic maiden who did things cleverly and wore bobbed hair and smocks. Her art was really very bad, nor the maiden unaware of it. She had perplexed until one day suitor No. 1 said, "I shall be frank. Your art is very bad, but I love you." She dismissed him. Suitor No. 2 said, "Your art is very good." The maiden said to him, "Prithee, sir, do you not agree with me that in places it is a bit—er—crude." He answered the maiden, "Now that you speak of it, I agree with you that in places it is a bit—er—crude." And she cast him forth from her father's threshold. Suitor No. 3 spoke unto the maiden in this wise: "Your art is perfect. It delights my soul. It is true art, without flaw. I love you."

The maiden knew in her heart that her lover lied and she straightway married him.—Ruth O'Hanlon in Life.

Who Can Tell? You cannot always tell. The patriot who is quickest to rise when the band plays "The Star Spangled Banner" is often slowest to get up when the government asks for his income tax.—Arthur H. Folwell in Leslie's.

A man always has a funny look in his eyes when you get the laugh on him.

There is certainly a grave misapprehension concerning men's wedding rings which I think should be cleared up at once," said a Broadway jeweler, according to the New York Sun. "I have found that people have a feeling that unless a man wears a wedding ring fashioned something like that worn by the woman, then something is wrong. In fact, I have learned that most people do not even know a man is married when he wears any kind of ring other than a wedding ring on his fourth finger, left hand."

"But that's a fact. Where the types of rings worn by brides are somewhat similar a man may wear anything from a signet to a real wedding ring on his left hand and still be in perfect propriety. As a matter of fact, most men dislike the plain wedding ring and prefer something like a signet. Brides aren't letting their husbands off without equality in rings as much as anything else nowadays and the bridegrooms are wearing all kinds to satisfy their wives' desire in the matter."

Easily Explained. She—"I shall never forget how crazy you looked when you proposed to me?" He—"I was crazy."

Rare Species, However. "Pa, what is a good talker?" "A man who can talk and make you actually want to listen to him."

If Coffee don't agree DRINK POSTUM

There's a Reason

Apple Crop Wholly Destroyed.
Seymour, Mo.—C. Vollenweider, manager of a 50-acre orchard near here, reports that no apples will be raised this year as those buds that escaped the Easter freeze have been killed by later frosts.

Dr. R. B. Wood, of Fulton, Dies.
Fulton, Mo.—Dr. Roger B. Wood, 80 years old, of Fulton, died in the Still Hospital at Kirksville, where he had been under treatment for a week. An infection of the foot, aggravated by diabetes, caused his death.

To Install Storage Plant.
Shelbina, Mo.—The board of directors of the Producers' Cold Storage Company of this city has leased a large building in this city and will immediately install a modern cold-storage plant.

Pettis County Woman Dies.
Sedalia, Mo.—Mrs. Esther Olive Rogers, wife of B. L. Rogers, a Pettis County farmer, died after a two-week illness of typhoid fever. Besides her husband, she is survived by her son, three stepchildren, parents, three sisters and a brother.

Conference to Be at Forestport.
Forestport, Mo.—Forestport has been selected as the city for the 1922 conference of the Charleston District of the Methodist Church. L. D. Baker was elected lay leader.

Charge Loss of Wife's Affections.
Sedalia, Mo.—Edgar H. Lutman of Frisco, Mo., filed a suit against Ira Fahnestock, who lives south of Warsaw, for \$10,000 damages for the alleged alienation of the affections of his wife, Edna E. Lutman, on April 9, 1921.
