

The situation at Albany has assumed a new phase. Chauncey M. Depew, the most prominent half-breed for senatorial nomination, has peremptorily withdrawn from the contest. The half-breed and feather-head after being notified of Depew's determination, held a caucus and placed Warner Miller and E. G. Lapham in nomination for the vacant senatorships. These are the nominees of the majority of the Republican members of the Legislature. Meanwhile Conkling's adherents express their determination of sticking to him, and have picked up Congressman Crowley in Platt's place. The indications are that the fight will be continued with as much obstinacy as ever, notwithstanding the invocations for harmony in the name of the bleeding wounds of the President.

The Hannibal and St. Joseph Railroad company having paid to the State treasurer \$3,000,000, the amount of the principal of the bonds loaned that corporation in 1852 and 1855, and the July interest, amounting to \$90,000, the attorney for the company, Geo. W. Easley, Esq., has made a formal demand of Gov. Crittenden that he shall release the State's lien on the road and franchise. This demand is based on the provisions of the statute of 1865, which has been published in these columns. The governor declined to release the lien, as the statute does not, in his judgment, compel him to do so. An agreed case is to be submitted to the supreme court, or the judges of that tribunal in chambers. Of course whatever the interpretation of the law may be by this court will be accepted by the governor, and will control his action. Gov. Crittenden is acting with judgment and caution in this important financial transaction, that the rights of the State may be maintained in all respects.—St. Louis Republican.

The New Charter. As the people in Oregon will in a few days be called to vote on the proposition to organize Oregon as a city of the fourth class, a few words as to the advantages of an organization under the Statute over our present system will not be out of place. The first advantage the officers will be elected for two years instead of one year. Second, the mayor is presiding officer of the Council or Board of Aldermen, and has a vote in case of a tie and also the power of veto; in a word, under the Statute he has certain rights and duties specifically laid down so there can be no misunderstanding as to what his powers and duties are. Third, there can be no hasty municipal legislation as the Statute specifically points out what the Board of Aldermen can control or affect by ordinance; what they have the power to regulate and prohibit these each ordinance has to go through three separate readings, just as a bill in any legislative body; then any ordinance affecting the finances or appropriating any money, has to be presented or referred after its second reading to the treasurer, and before it is returned to the Board of Aldermen he must endorse on it whether there is or is not money on hand unappropriated to meet the amount asked for in such ordinance, and in case there is not, it is unlawful to pass the ordinance. This is a very safe-guard and will prevent the incurrence of indebtedness. Then if we have only two wards, as we now have, we will at the first election (in next April) elect two aldermen in each ward instead of four and five, as now. In conclusion the Statute provides for and specifically lays down the jurisdiction and duties of each and every officer, also just what subjects are and can be affected by city ordinances.

Who Would Have Thought It? Mr. Editor:—It is whispered on the streets by those who claim to be possessed of the secrets of the Press office, that our great criminal lawyer, Hon. T. H. Parrish wrote the article in the Press of July 2nd, signed "Justice." I told them no; our Tom would never do that; he of all the temperance folks could least afford to play baby and whine because Kyger and Hulst were not convicted. But maybe our Tom has lost his grip and feels that he is much abused because the law was directly contrary to what he said it was and so he flew to Brother Hassness determined to vindicate himself and answer Kelley's opinion in the liquor cases; and such an answer! Such law! Oh Tommy, if it was you! Ye Gods! Prosecute Kyger, fail to prove where the liquor was sold; and then—whine because twelve good men found him not guilty on a technicality! set him free, and fail to prove a case by a blunder; then fly into print and attack Judge Kelley. Now as to Hulst's case: What lawyer will say he ever saw such a charge as "unlawfully grant a license knowingly." Judge Kelley said it was not properly charged and quoted the law from Bushop and Wharton to prove it. There is a "nigger in the wood pile" somewhere, and some day it will be let out, and either Hassness or "Justice" will have to hold it when caught. COMING.

The District Times is the name of a spy paper issued monthly at Savannah, Mo., edited by Rev. O. S. Middleton, and devoted to religious intelligence and temperance reform. It is printed on good paper and makes an attractive appearance. Its design seems to be that of a local newspaper within the St. Joseph district including the north west counties of this State. It is freely used by advertisers, and is quite a readable paper.

FOR SALE. Several desirable dwelling houses and lots in Oregon, at reasonable rates. For terms, etc., call and see O'FALLON & BYRNE, Oregon, Mo.

Forest City.
—Glass ball shooting is raging here again.
—Thermometer at Graham's, Sunday the 10th, 106° in the shade; France's drug store 103°.

—The "Leviathan," with Commodore John Canon went down with a load of pegs to drive in some wash-out.
—The stench is falling rapidly. It is supposed the last drop will soon run out—but here comes a rain and the evil moment will be deferred a while longer.
—Sol. Foster is buying all the fish that are brought to town and taking them to Oregon, where they are greedily picked up at 15 cents per pound, dressed.

—Will Minton is disputing possession of the sides of the deep cuts with the bank swallows. The swallows want possession for reproduction purposes, while Will signifies his desire to dispose of his productions with "ere" left off.
—The inhabitants of Smoky Row have had lively times recently, in which whiskey, fists and other things played their appropriate parts. Noses were skinned, eyes banged, hair lifted, and the ground torn up fearfully. No arrests. It is about time this thing was abated.

—This car must not go east of La Junta," was plainly inscribed on No. 7537, a flat car of the A. T. & S. F. road, and yet in spite of this injunction, here was the car in train No. 14 last Monday, going to St. Joseph and fully 600 miles east of its eastern limit. Now what's the use of putting up notices on anything?
New Point.
—Notwithstanding the extreme warm weather of the past few weeks, our merchants are doing a lively business.
—The new heavenly visitor, (the comet) is the cause of many wonderful conversations and many various predictions.

—Some of our farmers are now cutting their clover for hay; among them we notice Levi Oron, who has put up a large amount.
—Your correspondent is back again safe and sound. The warning in our issue of July 1st has been noticed and is heeded at once.
—Levi Oron has been cutting some of his shade trees in his feed lot. Strange that he would do so. We say more shade and not less.

—Our boys who went to Maitland to climb the soap pole and take in the money, did not succeed. The money was on the wrong end of the pole.
—Farmers are most all done plowing corn; winter wheat is about harvested, and next in order is harvesting spring grain and haying.
—The people in and around our quiet little town have been considerably aroused by the alarming but unexpected news from Washington. Some wonder; others predict.

Our Boys.
Every well regulated family should have a boy about 14 years old, a lawnmower and grass enough to set the boy to work for half an hour daily. It is an interesting study to see a boy showing a lawnmower around. Off comes coat, vest and hat as he goes out, and he vividly realizes that Levi Zook got his first start by cutting half an acre of grass before breakfast—and it was cut mightily poorly at that. No boy can strike a deal with a mower. He starts out to do it, but he sees a boy on stilts up the street and he stops to rest. He has just started off again when he sees a boy with a ball down the street, and it is also time to the mower. He has just braced himself for a new effort when a stray dog comes along, and it is that boy's duty to watch that dog out of sight. He turns and shoves the mower along about ten feet, and then he must have a drink of water. If the old gent is at home a boy can drink a gallon of water and get back to his work in about twenty minutes, but all depends on circumstances. If he gets back he stands and wonders whether it is a right or left handed mower, and why it wasn't rigged to run itself.

If a tap on the window admonishes the boy that procrastination is the thief of time, he buckles right down to business and rushes the mower over four brick-bats, a hoop and several empty cans, and then comes an examination of the knives. Let a boy get in the shade with a good brace for his back, and he can examine a lawnmower from base, middle to garret in about half an hour. At the end of the second cut across the sward it is a boy's duty to scan the heavens and see if any kites are up.
A good boy can do this in about fifteen minutes, and he can put in ten more looking across the street at a white washed fence and a cat. By this time he feels hungry, and when he has hunted the house over for cake it is high time to go around the corner and see if that Foster boy has got that illustrated kite finished.

—It is a wise precaution to provide against emergencies that are liable to arise in every family. A cold may be a dangerous thing, or not, depending upon the means at hand to combat it. In sudden attacks of colds, croup, asthma, etc., Ayer's Cherry Pectoral will prove the quickest and most effective cure and your best friend.

A Carnival for the Masses.
On the 19th day of July, St. Joseph will be pervaded with an air of hay seed, peannts, and gingerbread. The cause of this great outpouring of the people from the rural districts will be the appearance of W. C. Coup's New United Monster Shows and Great Paris Hippodrome, which has just closed the most brilliantly successful season in Cincinnati, and of which the papers of that city say:
"Judging by the tremendous throngs in attendance at each performance of Coup's Great Show, Cincinnati is show mad. Never before has an entertainment of this kind been patronized so extensively in this city, and never before has an entertainment of this character given so much satisfaction. It is the talk of the town, and ere it departs our population will have taken it in. One thing can be said in safety, in spite of the lavish promise of the bill-boarders, no one in the vast audience was disappointed in the show. The Hippodrome features stirred up the audience to the highest pitch of excitement. There were flat races by blooded horses, with male and female riders, exciting hurdle races Roman races, two and four horse chariot races, and the stirring Indian race for a wife. The expression of enthusiasm was simply stupendous during the racing. That it is the biggest show under Coup's big show is still with us, and it begins to look as if the entire population had determined to take it in. The attendance has been simply enormous, and the performance has given perfect satisfaction. The astounding flight of La Lu and the unparalleled leap of Geradline, are simply marvelous, and their terrific exhibition of nerve and pluck, electrifies the crowd, and mighty cheers ascend after the audience catches its breath.
To sum up, and at the same time to put it mildly, Coup's circus and menagerie has no peer in this country, in the world. Take it in."—Cincinnati Commercial.

Remember the date and the four great rings, and be sure and visit the grandest entertainment you ever saw, on Tuesday, July 19th.

The Markets.
CATTLE—Interior shippers were the leading operators, although the canning companies put in an appearance for the first time this season and took hold quite liberally. Business for the week has been quite active and the fair supply was worked off without the least difficulty at strong prices except common and thin natives, which were dull at disposal at mean prices. Our farmer friends should make a note of this. Stock and feeders were scarce throughout. The estimated receipts in Chicago for the week, 28,500.
HOGS—The market has been fairly active on packing and shipping account and the feeling has been firm and prices show slight advances. Packers gave the best lots of light and heavy the preference. Packing grades were in fair demand. The market closed steady and prices were well maintained.
CHEMICALS, July 13, 1881.

CORN—In the northwest is not so far advanced to-day as it should be; the weather has been so variable—dry and cold, wet and cold—that corn has not "done what it ought to." This situation applies to northern and central Illinois and Iowa. But, in fact, take out Kansas and Missouri and the whole corn belt is in a very backward condition. The acreage is much larger than in 1880, but the "stand" is uneven and on a whole the crop is at least three weeks late. A fair business was transacted and the feeling was comparatively steady. Foreign advances speak little alteration, and the eastern markets were without important change.

WHEAT—was fairly active and feeling a trifle unsettled, but generally strong. Foreign advices quoted steady markets.

From our Roaming Correspondent.
In passing over upper Holt we saw at one sight, enough to make proud any Holt county man—in one field was over six hundred acres of fine wheat as ever grew out of the earth. It belonged to those enterprising farmers, J. D. Goodmaster, Eb. Rozell and one or two others. On the section line just west of this fine is another field of three hundred acres, belonging to Mr. Riley and others.
Mr. Nate Robbers, who lives just west of King Grove has a stand of one hundred acres. Several others have splendid crops, all nicely shocked, that will average twenty-five bushels to the acre.
The largest stock of Watches, Clocks, Jewelry, Pocket Cutlery, and Spectacles in Holt county, is kept at D. O. Wade's jewelry store, Craig, Mo. Don't buy until you examine my stock, for I will not be undersold. Fine watches a specialty. Postoffice, Craig, Mo.

J. T. Thatcher
of Oregon, Mo., has a sure cure for fever and ague. Warranted to cure or money refunded. Sent by mail on receipt of price. One ounce bottle, 75; two ounce bottle, \$1.25.

POSITIVELY THE ONLY Big Show Coming. St. Joseph, Mo., Tuesday July 19th 1881. W. C. COUP'S BIGGEST SHOW IN THE WORLD Combined with the GREAT PARIS HIPPODROME

With a Roman Chariot Race Track 40 feet wide and nearly half a mile around. It contains absolutely more new and wonderful features, never before exhibited, than all other Shows in America combined. The Hippodrome Pavilions cover EIGHT ACRES of ground. Behold what you have never before seen in your lives, viz: Four Immense Circus Rings! Three Full Circus Companies! Menagerie of 1,000 Animals! Jake's Automatic Museum!

FLYING LU-LU
Who, at each and every performance, is hurled like a bird through the air, 75 feet high, from a huge iron catapult, describing a circle of nearly 200 feet, and performing in twelve or more complete revolutions before alighting in the net. A most hazardous and terrific sight, well worth going a hundred miles to see. Next to the Flying Lu-Lu, the most wonderful feat of the show is the performance of the **INFRA-DOMIC DIVE OF GERALDINE**. The most beautiful, brilliant, dashing and accomplished Lady Gymnast the world has ever known. During her unparalleled feat, she acts as a **LEVIATHAN**, **HEAD-FORMOST**, **DOWNWARD 75 FEET**, from the elevated dome of the Pavilion for her, amid the deafening plaudits of admiring multitudes.

Genuine Male and Female Zulus from Zululand
Accompanied by King Cetewayo's Daughter, The Amasulu Princess, and Suite. Positively the first and only genuine male and female Zulus that ever appeared in the United States. These dusky sons and daughters, with their children, from South Africa, will demonstrate to you the formidable Assegai. Their wonderful feats of strength and agility are well worth the whole price of admission to see, and you will regret it a lifetime, if you don't embrace this only opportunity, as they return to Zululand, by special contract, at the close of the present season.

MONAGERY OF NEARLY 1,000 ANIMALS
The **FINEST PROCESSION IN AMERICA** Containing hundreds of Horses and Chariots, and nine kinds of music, which will be seen each day at about 10 o'clock. Admission to all, only 50c. Children under 9 years, 25c. Reserved Seats, extra, 25c. **GRAND RAILROAD EXCURSION TRAINS** Will run on all roads leading to the Show on the day of exhibition, at greatly reduced rates of fare.

"OAKLAND HERD."
The most beautiful illustration of perfect mechanism and wonderful strength to be found on the globe is a steam engine. It is the embodiment of conscious power, and will walk away with 30 of 40 heavily laden cars as easily as you would take a pound weight and toss it about, or push a baby carriage down hill. Let's take a picture to look at as it stands calmly on the railroad every point and band throwing back the rays of the sun like burnished gold, the engineer's cab looking as neat as a lady's parlor? Did you ever think how wonderful the power to start into life the wonderful cogs and levers? Let us point a moral from this simple sketch and apply it to every day business life. You will see at a glance that the point in this illustration is the grand principle of existence itself—the motive power. You can't start the engine without steam, and a business house won't run successfully without the energy and push of live men to keep it going. The principle is the same in both cases—the steam runs the engine and the live man the business. They would both be valueless without the motive power. We have labored for years to perfect our business machine, we've tightened the bands, oiled the cogs and introduced a great many new features. We think now that it makes good time on the track and we want you to come and see it work. We have been obliged to get more room and have moved into the store room just east of King & Proud's drug store, where you can see the finest line of Furniture in Holt county. Nor can my stock of Collins and undertaking goods be surpassed in Northwest Missouri. The finest horse in the Northwest is also my property. A. M. JACOBS, Oregon, Mo.

THE BEST
ever offered for sale in Holt County. They are all full blooded, and have a clear pedigree. My sows are from the well known Poland China stock raisers, B. F. Dorsey & Sons, of Perry, Pike county, Illinois; A. C. and T. C. Taylor, of Greenstein, Sullivan county, Missouri; and my boar from H. Castle, of Wilmington, Mills county, Illinois. He was sired by Homer Tom, he by Jim Crow; 1st dam Jenny Lud; 2d dam Oxford Beauty. All of my stock is thoroughbred and not bred in any particular. Call and see them at my Nursery, adjoining Oregon.

Sealed Proposals.
Sealed Proposals will be received by the Board of Education of Craig, Mo., until noon on the 16th day of July, 1881, for the purpose of erecting and completing a School Building in the town of Craig, Mo., according to plans and specifications adopted by the Board of Education at its meeting on the 15th day of July, 1881. The plans and specifications may be seen at the office of Messrs. Kock & Mann, architects, St. Joseph, Mo., until July 15th, after that date at the office of the Secretary of the Board at Craig, Mo. All proposals to be addressed to the undersigned Secretary, and marked "Proposals for the School Building." The Board of Education reserves the right to reject any or all bids.
By the Board of Education, Secretary, Craig, Mo., July 15th, 1881.

—There are always persons finding fault with the weather. During the long and bitter winter from which we emerged a few months ago, multitudes of our fellow citizens lost faith in the sun. They did not believe it would ever again reappear in glory. Now that the heat of the sun is remarkable, there are persons who forget the winter, and one would think, to hear them talk, that they believed the world to be on fire.

—The brick-masons are at work on the west and north wings of the courthouse, and these additions are rapidly being pushed sky-ward, while the carpenters are busy tearing down and remodeling the inside. The cupola is being torn down, and work on the roof will begin next week. Contractor Bennett is pushing things through, and the old courthouse is gradually assuming a new shape.

UNIVERSITY OF THE STATE OF MISSOURI.
COLUMBIA, BOONE COUNTY, Mo., July 5, 1881.
To the Clerk of the Holt County Court:
SIR:—It is my duty to inform you that, under the provisions of an act of the General Assembly, approved April 18th, 1878, Section 1872, pp. 108-09, and Rev. Stat. 1879, Sec. 7207, 7208, your county is entitled to send to the Department of the State University at Columbia and Rolla, during the year ending July 1, 1882, five (5) students, between the ages of sixteen and twenty-five years.
Under the rules adopted by the Board of Curators, students must possess good moral character and shall pass a satisfactory examination in orthography, reading, writing, arithmetic and geography. They must also be prescribed by said Act, to-wit: On matriculating, an entrance examination, and a contingent fee of five dollars; and a like contingent fee at the beginning of the second half year, making the annual charge twenty dollars; which must be paid by every student, except regularly ordained ministers of the Gospel, belonging to any of the various religious denominations of the State, and intelligent young men preparing for the ministry. For the schools of Law and Medicine and Engineering, the annual charge is forty dollars each. The session of all the departments under the presidency of S. S. Laws, LL. D., will begin on

Monday, September 12, 1881, and will continue until the first Thursday of June, next, at the various religious denominations of the State, and intelligent young men preparing for the ministry. For the schools of Law and Medicine and Engineering, the annual charge is forty dollars each. The session of all the departments under the presidency of S. S. Laws, LL. D., will begin on Monday, September 12, 1881, and will continue until the first Thursday of June, next, at the various religious denominations of the State, and intelligent young men preparing for the ministry. For the schools of Law and Medicine and Engineering, the annual charge is forty dollars each. The session of all the departments under the presidency of S. S. Laws, LL. D., will begin on Monday, September 12, 1881, and will continue until the first Thursday of June, next, at the various religious denominations of the State, and intelligent young men preparing for the ministry. For the schools of Law and Medicine and Engineering, the annual charge is forty dollars each. The session of all the departments under the presidency of S. S. Laws, LL. D., will begin on Monday, September 12, 1881, and will continue until the first Thursday of June, next, at the various religious denominations of the State, and intelligent young men preparing for the ministry. For the schools of Law and Medicine and Engineering, the annual charge is forty dollars each. The session of all the departments under the presidency of S. S. Laws, LL. D., will begin on Monday, September 12, 1881, and will continue until the first Thursday of June, next, at the various religious denominations of the State, and intelligent young men preparing for the ministry.
